Managing the Obvious Charles A. Coonradt, 1997-05 How managers can recognize and accept obvious warning signs and act accordingly How to Get Into the Top Law Schools, 4th edition Richard Montauk, 2008-08-05 Richard Montauk a savvy admissions insider demystifies the application process and provides the tools to ace every step Based on interviews with dozens of admissions officers Montauk delivers a candid view of what leading law schools look for in an applicant He also gives applicants solid advice on developing marketing strategies writing winning essays maximizing financial aid and assessing and upgrading credentials to better match that ideal profile Handling Critical Moments with Grace Toni Lynn Chinoy, 2006-12 Toni Lynn Chinoy offers a compelling rationale for learning to identify and practice Grace on those every day annoyances which derail appropriate responses First by helping the audience to understand that their emotional reactions to specific kinds of situations are clues to larger issues she creates an argument for attacking those responses as critical to the individual s and the organization s mission and vision She then builds an understanding of the components of graceful responses to those emotional distractions along with a five step decision making process which is executed with or without the knowing control of the individual Her contention is that the individual and the organization benefits by making that process conscious as opposed to simply reacting from <http://www.harlanevans.com> The Essential Supervisor's Handbook Brette McWhorter Sember, Terrence J. The Entrepreneur's Guide to Managing Growth and Handling Crises Theo J. van Dijk, 2007-12-30 Everyone knows the typical entrepreneurial success story A couple of entrepreneurs have a great idea work their tails off to establish the business and before long they're set for life Right Hardly Turnaround artist Theo van Dijk knows two things First young businesses that have survived the start up years will face periods of stagnation Second every venture at some point reaches a complacent plateau owners take their eyes off the ball and wham a crisis charges through the door Entrepreneurs can avoid that fate by watching for signs of trouble and taking the action steps van Dijk outlines And it's worth the effort because troubles and crises all have a silver lining they position the company for greater long term growth Entrepreneurs predictably become overconfident just when they think they have it made A crisis of leadership and or direction then occurs and it

usually has to do with mismanaged growth Suddenly the company can't fill orders or customers complain about service and delivery Or family bickering slows momentum just when the company is poised to take off Theo van Dijk has seen it all and he knows what the real problem is During the start up years everyone is focused on creating a product and building a list of customers Informality and flexibility are the rule But at some point what used to work no longer does Survival is once again at stake and the odds are once again very much against the survivors of the early entrepreneurial phase It's right at this point van Dijk argues that the structure of the organization needs to become more formal and built to last He shows many ways companies in crisis can overcome challenges by changing the way they handle customers putting new processes and procedures in place and managing employees in a more professional manner This work is painful but it's necessary if the company is to survive trouble and set a course for long term growth
