Tim Clement, Christine Bigby, 2010 Draws on a unique 3 year action research study that surveyed daily life and residents experiences Provides evidence based strategic and practical suggestions for ways that staff and organisations can improve quality of life for residents Authors from La Trobe University Australia Rural Lifestyles, Community Well-being and Social Change: Lessons from Country Australia for Global Citizens Angela T. Ragusa, 2014-01-08 In our increasingly global world individuals are highly mobile and interconnected Politics policies and technologies foster interconnection amongst and within countries as individuals relocate from one place to another One key issue facing developed and developing countries is urban overcrowding In Australia urban density is one factor prompting institutions and individuals to embrace rural revival as a possible solution to urban congestion and rural decline In the past decade rural Australia has received heightened publicity and interest as a lifestyle destination encouraged by national decentralization policies to alleviate urban overcrowding particularly the metropolises Melbourne and Sydney regional councils marketing initiatives and international refugee relocation Rural communities struggle in contrast with urban counterparts for several often complex reasons The realities of rural life are frequently marginalized while marketing campaigns evoke stereotypical imagery of idyllic lifestyles and bucolic pastures to sell dreams of country bliss to fatigued urbanites This edited e book is a collection of articles that explores rural realities of country life in Australia for global audiences interested in rurality health and well being By transcending disciplinary specific boundaries this multi disciplinary book not only presents contemporary challenges but also equips readers with evidence based knowledge to improve resilience in communities and individuals facing key issues such as aging depression disability environmental degradation limited service delivery and social isolation Utilizing a variety of social

science research methods each chapter will enhance readers insights about rural amenities geography identity culture health and governance which impact wellbeing and lifestyle satisfaction Collectively this book exposes readers to ideas from a dynamic range of experts in the humanities social and natural sciences to encourage a holistic approach to developing solutions for a complex social world The content of this volume will interest a wide audience of graduates and undergraduates researchers professional practitioners and policymakers involved with non profit and government organizations and interested community members

Managing Nongovernmental Organizations Frederik Claeyé,2014-03-26 The idea that international development aid needs to be better managed and coordinated gained currency in the early 1990s The increasing emphasis on management has resulted in the present vogue of managing for development results as one of the central tenets in the discourse on international aid But how appropriate are these ideas tools and techniques for non governmental development organizations NGOs and how much does geographic context matter Examining the current debate on aid effectiveness and the role of NGOs in contributing to it this book highlights the critical importance of understanding how the global and the local interact to increase aid efficacy and develop more culturally astute ways of managing NGOs With a focus on NGOs active in sub Saharan Africa as case studies author Frederik Claey demonstrates that NGOs are not mere passive recipients of management knowledge and practices emanating from the global governance structure of international aid but actively engage with these ideas and practices to translate and rework them through a local cultural lens This process results in the emergence of unique hybrid management systems that combine the pressure to become more business like with the mission to satisfy the demands of the communities they serve
