Managing Transitions The Chinese Communist Party Unites Front Work Corporatism And Hegemony:

Managing Transitions Gerry Groot, 2004-02-24 *Managing Transitions* examines the history and roles of China's minor parties and groups (MPGs) in the Chinese Communist Party's (CCP) united front between the 1930s and 1990s using Antonio Gramsci's principles for the winning and maintaining of hegemony. Gramsci advocated a war of position: the building of political alliances to isolate existing state powers and win consent for revolutionary rule and transform society. Economic reform is now creating new socio-economic groups and the CCP is adjusting the united front and the MPGs to co-opt their representatives and deliberately forestall the evolution of an autonomous civil society and middle class which could challenge CCP rule. This has resulted in a new and expanding role for the united front: the MPGs and organisations representing the new interest groups.

The Communist Party of China's United Front Work in the Gulf Mohammed Al-Sudairy, 2018-03-01 The report examines the United Front activities undertaken by the Communist Party of China towards Saudi Overseas Chinese in the Kingdom of Saudi Arabia, estimated to be anywhere between 150,000 and 180,000. It introduces the concept of the United Front as it relates to Chinese politics and foreign relations, examining both its historical evolution and contemporary applications. The report then explores the ways in which United Front activities have been carried out in the Saudi context and specifically with respect to the Sinophone Muslim Hui and Turkestanian Uyghur, Uzbek and Kazakh clusters constituting the Saudi Overseas Chinese community. Finally, it considers in connection to ongoing global debates on the issue of the United Front whether these United Front activities can be seen as a potential political problem for Sino-Saudi and perhaps even Sino-Gulf relations overall.

China's New United Front Work in Hong Kong Sonny Shiu-Hing Lo, Steven Chung-Fun Hung, Jeff Hai-Chi Loo, 2019-07-15 This book explores the dynamics of China's new united front work in Hong Kong. Mainland Chinese penetrative politics can be seen in the activities of local pro-Beijing political parties, clans and neighborhood associations, labor unions, women and media organizations, district federations and some religious groups. However, united front work in the educational and youth sectors of civil society has encountered strong resistance because many Hong Kong people are post-materialistic and uphold their core values of human rights, the rule of law and transparency. China's new united front work in Hong Kong has been influenced by its domestic turn toward hard authoritarianism, making Beijing see Hong Kong's democratic activists and radicals as political enemies. Hong Kong's one country two systems is drifting toward one country two mixed systems with some degree of convergence. Yet Taiwan and some foreign countries have seen China's united front work as politically destabilizing and penetrative. This book will be of use to scholars, journalists and observers in other countries seeking to reckon with Chinese influence.

volume This work stands out for its long term and multiscale approach offering complex and nuanced insights eschewing any Party grand narrative and unravelling underlying trends and logics composed of adaption but also contradictions resistance and sometimes setbacks that may be overlooked when focusing on the short term Rather than putting forward an overall argument about the nature of the Party the many perspectives presented in this volume highlight the complex internal dynamics of the Party the diversity of its roles in relation to the state as well as in its interaction with society beyond the state Our historical approach stresses impermanence beyond the apparent permanence of the Party s organisation and ideology while also bringing to light the recycling of past practices and strategies Looking at the Party s evolution over time shows how its founding structures and objectives have had a long lasting impact as well as how they have been tweaked and rearranged to adapt to the new economic and social environment the Party contributed to creating

China's Quest for Foreign Technology William C. Hannas, Didi Kirsten Tatlow, 2020-09-22 This book analyzes China s foreign technology acquisition activity and how this has helped its rapid rise to superpower status Since 1949 China has operated a vast and unique system of foreign technology spotting and transfer aimed at accelerating civilian and military development reducing the cost of basic research and shoring up its power domestically and abroad without running the political risks borne by liberal societies as a

basis for their creative developments While discounted in some circles as derivative and consigned to perpetual catch up mode China's hybrid system of legal illegal and extralegal import of foreign technology combined with its indigenous efforts is the authors believe enormously effective and must be taken seriously Accordingly in this volume 17 international specialists combine their scholarship to portray the system's structure and functioning in heretofore unseen detail using primary Chinese sources to demonstrate the perniciousness of the problem in a manner not likely to be controverted The book concludes with a series of recommendations culled from the authors interactions with experts worldwide This book will be of much interest to students of Chinese politics US foreign policy intelligence studies science and technology studies and International Relations in general

China's Party Congress Guoguang Wu, 2015-09-18 Nominally the highest decision making body in the Chinese Communist Party the Party Congress is responsible for determining party policy and the selection of China's leaders Guoguang Wu provides the first analysis of how the Party Congress operates to elect Party leadership and decide Party policy and explores why such a formal performance of congress meetings delegate discussions and non democratic elections is significant for authoritarian politics more broadly Taking institutional inconsistency as the central research question this study presents a new theory of mutual contextualization to reveal how informal politics and formal institutions interact with each other Wu argues that despite the prevalence of informal politics behind the scenes authoritarian politics seeks legitimization through a combination of political manipulation and the ritual mobilization of formal institutions This ambitious book is essential reading for all those interested in understanding contemporary China and an innovative theoretical contribution to the study of comparative politics

Constitutional Asymmetry in Multinational Federalism Patricia Popelier, Maja Sahadžić, 2019-02-18 This edited volume examines the link between constitutional asymmetry and

multinationalism in multi tiered systems through a comprehensive and rigorous comparative analysis covering countries in Europe Africa and Asia Constitutional asymmetry means that the component units of a federation do not have equal relationships with each other and with the federal authority In traditional federal theories this is considered an anomaly The degree of symmetry and asymmetry is seen as an indicator of the degree of harmony or conflict within each system Therefore symmetrisation processes tend to be encouraged to secure the stability of the political system However scholars have linked asymmetry with multinational federalism presenting federalism and asymmetry as forms of ethnical conflict management This book offers insights into the different types of constitutional asymmetry the factors that stimulate symmetrisation and asymmetrisation processes and the ways in which constitutional asymmetry is linked with multinationalism **Underground**

Front Christine Loh, 2018-11-01 Underground Front is a pioneering examination of the role that the Chinese Communist Party has played in Hong Kong since the creation of the party in 1921 through to the present day The second edition goes into greater depth on the party's view on one country two systems patriotism and elections The introduction has been extensively revised and the concluding chapter has been completely rewritten in order to give a thorough account of the post 1997 governance and political system in Hong Kong and where challenges lie Christine Loh endeavours to keep the data and the materials up to date and to include the discussion of some recent events in Hong Kong The appendices on the key targets of the party's united front activities also make the book an especially useful read for all who are interested in Hong Kong history and politics and the history of modern China Although the author calls herself an outsider this book provides such a distinctly incisive analysis that even an insider will pale by comparison Christine Loh's exposition of the Communist Party's co-optation and persuasion is particularly revealing for anyone not versed in communist speak A must read for anyone who cares for Hong Kong simply because the Communist Party in Hong Kong is a heavyweight player in shaping our future Ching Cheong Authoritative thoroughly researched and lucidly written Christine Loh's work must be read by everyone who wants to make sense of the Chinese Communist Party's agenda in Hong Kong This book is remarkable for its fair mindedness in evaluating the party's record She provides an absorbing account of its leaders' hard headed pragmatism in tolerating this outpost of colonial and capitalism during the Cold War and the Cultural Revolution Her analysis of the party's involvement in contemporary Hong Kong is an impressive contribution to our understanding of Beijing's expanding involvement in Hong Kong affairs The author has achieved a notable breakthrough with this fascinating study of a political organisation whose role and influence in Hong Kong have hitherto been shrouded in secrecy Leo Goodstadt **Associations and the Chinese**

State: Contested Spaces Jonathan Unger, 2014-12-18 What role do Chinese popular associations play in the expansion of civil society and democratization Under Mao few associations were permitted to exist while today over 200 000 associations are officially recognized Are they important foundations of civil society or vehicles for state corporatism and control In this book leading China specialists examine an interesting range of associations from business associations to trade unions to

urban homeowners associations women's groups against domestic violence and rural NGOs that develop anti poverty programs The contributors find different important trends underway in different parts of China's economy and society Their findings are nuanced insightful and often not what might be expected

Rejuvenating Communism Jérôme Doyon, 2023-02-20 Working for the administration remains one of the most coveted career paths for young Chinese Rejuvenating Communism Youth Organizations and Elite Renewal in Post Mao China seeks to understand what motivates young and educated Chinese to commit to a long term career in the party state and how this question is central to the Chinese regime's ability to maintain its cohesion and survive Jérôme Doyon draws upon extensive fieldwork and statistical analysis in order to illuminate the undogmatic commitment recruitment techniques and other methods the state has taken to develop a diffuse allegiance to the party state in the post Mao era He then analyzes recruitment and political professionalization in the Communist Party's youth organizations and shows how experiences in the Chinese Communist Youth League transform recruits and feed their political commitment as they are gradually inducted into the world of officials As the first in depth study of the Communist Youth League's role in recruitment this book challenges the assumption that merit is the main criteria for advancement within the party state an argument with deep implications for understanding Chinese politics today

Local Elites in Post-Mao China Yingjie Guo, 2018-03-15 This book provides fresh insights into the study of Chinese elites at the county level and below By shifting the analytical focus onto the agency of elites at the local level and away from the institutional structures within which they operate it fills a number of significant gaps in the field In particular this book addresses the lacunae through an empirically rich and diverse set of case studies It proceeds from the premise that the study of local elites can be most fruitful through examining their relations with each other and with the groups that wield power in the community Particularly pertinent to the analyses are three major relations namely the relationship between the elites and their environment between particular types of elites and between the locality and the upper and lower scales Ultimately it

concludes that these relations are not only essential to understanding local elites in post Mao China but also in accounting for socio political change and in distinguishing China from other types of societies As a study of local elites in China this book will be useful to students and scholars of Chinese politics political sociology and Chinese Studies in general Victims, Perpetrators, and the Role of Law in Maoist China Daniel Leese,Puck Engman,2018-06-25 Eine erstmalige Analyse maoistischer Justiz auf Basis von Originalfallakten die aufgrund ihrer plastischen Details einen tiefen Einblick in die chinesische Rechts Politik und Sozialgeschichte geben Durch die Betonung der Akteusersebene wird jenseits von Metadiskursen der totalitäre Charakter der frühen Volksrepublik China und der mehr oder minder großen Spielraum von Angeklagten Richtern und politischer Führung ausgelotet Der Band versammelt chinesische europäische und amerikanische Wissenschaftler um gemeinsam eine Revision des bisherigen Forschungsstandes zu ermöglichen **Buddhism and Comparative Constitutional Law** Tom Ginsburg,Benjamin Schonthal,2022-12-01 Buddhism and Comparative Constitutional Law offers the first comprehensive account of the entanglements of Buddhism and constitutional law in Sri Lanka Myanmar Thailand Cambodia Vietnam Tibet Bhutan China Mongolia Korea and Japan Bringing together an interdisciplinary team of experts the volume offers a complex portrait of the Buddhist constitutional complex demonstrating the intricate and powerful ways in which Buddhist and constitutional ideas merged interacted and co evolved The authors also highlight the important ways in which Buddhist actors have re conceived Western liberal ideals such as constitutionalism rule of law and secularism Available Open Access on Cambridge Core this trans disciplinary volume is written to be accessible to a non specialist audience *Workers' Democracy in China's Transition from State Socialism* ,
