Managing Economic Development In Asia:

Managing Economic Development in Asia Kuotsai Liou, 2002-03-30 From 1965 to 1990 the 23 East Asian economies grew faster than all other regions of the world. The high performing economies of Japan, South Korea, Taiwan, Hong Kong, Singapore, Thailand, Malaysia, and Indonesia experienced low and declining levels of income inequality as well. The June 1997 financial crisis has challenged these economies. Many of the high performing economies have experienced serious problems including falls in currency and equity markets, significant slowdowns in international trade, and setbacks in economic growth. Emphasizing the role of government and the importance of managing development, this book provides an overview of the major impact of the financial crisis on selected Asian countries and of the development policies implemented. Examining the experience of managing economic development, the book includes contributed chapters on China, Hong Kong, Indonesia, Japan, Korea, Malaysia, Taiwan, Thailand, Singapore, and Southeast Asia. It will be a useful resource for scholars, students, and those researching Asian economic development. **Managing Economic Development in Asia** Kuotsai Tom Liou, 2002

Annotation: The impact of the June 1997 financial crisis on selected Asian countries is surveyed with an emphasis on the role of government and the importance of managing development. **Managing Economic Crisis in East Asia** Saw Swee-Hock, John Wong, 2010 This book incorporates a selection of eight revised papers presented to the Conference on Managing Economic Crisis in East Asia organized jointly by the Saw Centre for Financial Studies, NUS Business School, and the East Asian Institute, National University of Singapore, in November 2009. The chapters present a detailed analysis of the impact of the 2008-09 economic crisis in China, Hong Kong, Taiwan, Korea, and Japan, and the stimulus packages that were swiftly put in place by the governments to mitigate the economic recession and to pave the way for a quick recovery. The success of the monetary and fiscal policy measures in engendering a strong economic recovery in these countries is also discussed in considerable depth. The book, with contributions from experts on the topics covered, will be extremely valuable to businessmen, analysts, academics, students, policy makers, and the general public interested in seeking a greater understanding of the global economic crisis. **Economic Development in China, India and East Asia** Kartik Chandra Roy, Hans-Christer Blomqvist, Cal Clark, 2012-01-01

This is an unusually rich and comprehensive comparative analysis of industrialisation and development in Asia. Drawing on the diverse experiences of Malaysia, Singapore, China, India, and more, Roy, Blomqvist, and Clark skilfully tease out the common institutional threads and the subtle differences in their developmental trajectories. An essential reading for all those interested in the lessons from Asian development. Jude Howell, London School of Economics, UK. This is a thorough and comprehensive study both in terms of country coverage and in depth analysis, covering the economic development of all the major economies in the Asian continent, namely China, India, Japan, South Korea, Taiwan, Malaysia, and Singapore. Before embarking on analyses of different aspects of economic growth and development of these countries, the authors present a thought-provoking analysis of how institutional factors such as

geography history of religion culture and political governance have been deeply interwoven with development dynamics to shape the growth and development trajectory that each country has subsequently followed Each country s development path consequently appeared almost be pre determined Japan s role as the lead country in technology transfer under the flying geese pattern of development is discussed however the emphasis has shifted of late to China India Korea Malaysia and Singapore the authors also propose that instead of discussing the failure of India to catch up with China in growth and development outcomes economists should be commenting on whether China bestowed with India s highly decentralized democratic governance structure and institutional rigidities would have been able to achieve the same results as that of India Only then will a true understanding and appreciation of India s achievements in economic growth and development emerge Economic Development in China India and East Asia will be warmly welcomed and appreciated by academics and researchers of international and development economics as well as Asian development and economics Policy makers and those involved in NGOs in the development and aid arenas will also find this of great interest *Managing Economic Crisis in Southeast Asia* Saw Swee-Hock,2011 This book incorporates a selection of eight revised papers presented at the Conference on Managing Economic Crisis in Southeast Asia organized jointly by the Saw Centre for Financial Studies NUS Business School and the Institute of Southeast Asian Studies in January 2010 The chapters deal with the management of the 2008 09 economic crisis in Singapore Malaysia Thailand Vietnam the Philippines Indonesia and the region as a whole They represent an analysis of the impact of the economic crisis and the stimulus packages that were swiftly put in place by the governments to mitigate the economic recession and to pave the way for a quick recovery The success of the monetary and fiscal policy measures in engendering a strong economic recovery in these countries is also discussed in considerable depth The book with contributions from experts on the topics covered will be extremely valuable to businessmen analysts academics students policy makers and the general public interested in seeking a greater understanding of the sub prime crisis that led to the global economic recession **Managing Human Resources in Asia-Pacific** Pawan S.

Budhwar,2004-04-22 This book presents an HRM scenario in a number of South East Asian and Pacific Rim countries It highlights the growth of the personnel HR function the dominant HRM system s in the area the influence of different factors on HRM and the challenges faced by HR functions in these nations An excellent addition to this subject area each chapter ha

South Asian Economic Development Moazzem Hossain,Rajat Kathuria,Iyanatul Islam,2010 South Asia s developing nations have been enjoying moderate to high growth over the past decade before the global recession began This new edition provides an up to date guide to the growing markets in South Asia It offers an analysis of the changes and consequences of high sustainable growth investigating what has been achieved in the region during the last ten years from a macroeconomic viewpoint identifying new challenges and clearly defining what has driven the boom The first part of the textbook presents an analysis of how South Asia is rated against Southeast and East Asia in recent decades in economic and social terms The

second part of the text focuses on South Asia's economic development over 1990s and mid 2000s and the third and final part identifies those major governance issues which were responsible for South Asia's underperformance both socially and economically. It is widely recognised that globalisation enhanced global trade and that trade further increased the region's prosperity. Embracing the view that economists can no longer regard themselves as technocratic guardians of neutral policy advice, the book advocates for a shift in focus from policy reform per se to the more challenging task of implementing institutional reform that will invigorate the capability of the political leadership to bring about rapid sustained and poverty reducing growth in South Asia. The central task would be to re-direct the focus of governments in South Asia in order to ensure that the core functions of the state: stable non-distortionary policy climate, a secure foundation of law, investment in basic education, health and infrastructure, protection of the vulnerable and adapting with the climate change are efficiently provided. At the same time, the reform agenda must be sensitive to the goal of ensuring that durable democratic institutions, traditions and values are preserved. This is a fundamental challenge but one that must be met in order to secure the emergence of a prosperous South Asia in the early part of the twenty-first century. This textbook will be useful for students and researchers in Development Economics, Business Economics, Development Studies and Asian Studies.

The Political Economy of East Asia K. Cai, 2016-04-30 In a systematic study of the political economy of East Asia, Cai adopts an historical perspective alongside a contemporary focus exploring East Asia's development since the late 19th century. Following similar paths to economic development, East Asian states have achieved economic success integrating themselves into a regional economy.

Managing Economic Volatility and Crises Joshua Aizenman, Brian Pinto, 2005-10-03 Economic volatility has come into its own after being treated for decades as a secondary phenomenon in the business cycle literature. This evolution has been driven by the recognition that non-linearities long buried by the economist's penchant for linearity magnify the negative effects of volatility on long-run growth and inequality, especially in poor countries. This collection organizes empirical and policy results for economists and development policy practitioners into four parts: basic features including the impact of volatility on growth and poverty; commodity price volatility; the financial sector's dual role as an absorber and amplifier of shocks; and the management and prevention of macroeconomic crises. The latter section includes a cross-country study case studies on Argentina and Russia and lessons from the debt default episodes of the 1980s and 1990s.

Business and Management in Asia: Digital Innovation and Sustainability Tobias Endress, Yuosre F. Badir, 2022-11-17 This book focuses on digital innovation and sustainability in the Asian region in the context of business and management. Managers and policy makers rely on digital technologies to face the region's sustainability challenges and solve sustainability problems. From a business perspective, sustainability is defined as the adoption of business strategies, activities and operations that meet the needs of the firm and its stakeholder today while protecting, sustaining and enhancing the human and natural resources that will be needed in the future. Digital innovation refers to the application of digital technologies to existing business problems.

as well as the development of the firm's strategy culture and human resources talent to deal and use digital technologies to solve sustainability issues. There is a consensus among scholars and practitioners that organizations need digital innovation to stay competitive. Businesses that are digital innovators consider new ways to solve old and new sustainability problems facing the Asian region. This book with its practical examples gives the reader impulses for new Asian's approaches and encourages the readers to dare to think and act in new ways. This book is the first annual compilation of innovative ideas and valuable managerial solutions produced by the region's managers and decision makers who think and act creatively, helmed by Tobias Endress and Yuosre F. Badir from the School of Management at the Asian Institute of Technology. **The**

Routledge Handbook of Tourism in Asia C. Michael Hall, Stephen J. Page, 2016-09-13 Asia is regarded as the fastest growing area for international and domestic tourism in the world today and over the next 20 years. Given the economic, social, and environmental importance of tourism in the region, there is a need for a comprehensive and readable overview of the critical debates and controversies in tourism in the region and the major factors that are affecting tourism development both now and in the foreseeable future. This Handbook provides a contemporary survey of the region and its continued growth and development as a key destination and generator of tourism, which is marked by a high proportion of intra-regional travel. The book is divided into five sections. This first section provides an introduction to the region and context to the nationally focused chapters. The next three sections are then broadly based on the three UNWTO Asian regions: South East Asia, South and Central Asia, and East and North East Asia, providing readers with a valuable snapshot of tourism at various scales and from various approaches and positions. The concluding section considers future prospects for tourism in Asia. The handbook is interdisciplinary in coverage and is also international in scope through its authorship and content. It presents a range of perspectives and understanding of the processes and forces that are shaping tourism in this fascinating and dynamic region that is one of the focal points of global tourism. This is essential reading for students, researchers, and academics interested in tourism in the growth region of Asia now and in the future. **Locating Neoliberalism in East Asia** Bae-Gyoon

Park, Richard Child Hill, Asato Saito, 2012-01-04 *Locating Neoliberalism in East Asia* Neoliberalizing Spaces in Developmental States examines the influence of neo-liberal ideologies on urban and regional policies and practices in several Asian Pacific nations.
