[HC 728-I - Project Verde: Volume I](#) Great Britain. Parliament. House of Commons. Treasury Committee, 2014 One of the most significant consequences of Co op Bank s near collapse from a public policy perspective was the collapse of Lloyds Banking Group s planned divestment under Project Verde Co op Bank s withdrawal forced Lloyds to resort to its fallback option of an Initial Public Offering The result is a new bank TSB which not having an existing banking presence of its own consists solely of the business divested by Lloyds Accordingly it has a personal current account market share not of 7 per cent but of 4.2 per cent There is a risk that a bank of this size might struggle to grow significantly and to act as a true challenger in the market Had Co op Bank s resulting capital shortfall been uncovered earlier it is likely that the bank would not have progressed so far with Verde As it was the rapid and late emergence of the capital problem led to Co op s withdrawal from the Verde process at a relatively late stage The Committee recommends that the FRC investigation and the independent inquiry into the events at Co op Bank consider the role of KPMG and the FSA in relation to the late emergence of loan impairment and IT losses On the basis of these findings the independent inquiry into the events at Co op Bank should also form a view on whether Co op s Verde bid could or should have been halted sooner While it may not have been fully transparent from the start that Co op Bank s bid was doomed to failure it was beset by problems from an early stage But it was not these problems that killed the deal it was the capital

shortfall that emerged only late in the day It is important from every angle to determine why the capital shortfall was not uncovered earlier

*Transparency and Proportionality in the Schengen Information System and Border Control Co-Operation* Stephen Kabera Karanja,2008 This

volume offers an evaluation of the Schengen Information System and border control co operation from a transparency and proportionality perspective It also incorporates a legal descriptive analysis of the co operation in order to accommodate the changes and developments that occurred during the writing period The transparency and proportionality perspectives are developed from human rights and data protection criteria Transparency is understood as knowledge and accessibility to legal information as well as openness and accountability On the other hand proportionality is a requirement for guidance balance and justification as well as a need to avoid excessiveness and arbitrariness in border control work The final findings reveal that the Schengen co operation suffers from a deficiency of transparency and proportionality Consequently measures are proposed to augment the deficiency Even as this study was reaching its conclusion fundamental legislative changes closely similar to some of the arguments and recommendations projected in this study took place The efficacy of these changes is yet to be discerned      **Orthopedics** ,2004      **Tackling the Roots of Racism** Reena Bhavnani,Heidi Safia Mirza,Veena
