Education for Reflective Ministry J. A. van der Ven, 1998 The picture that pastors have of themselves and of their experiences in the ministry is ambivalent On the one hand they find the pastoral work which they perform meaningful important and relevant On the other hand pastors suffer from chronic stress of some sort caused by different factors on the micro meso and macro level of religion church and society Many pastors experience the modernization and subsequently the secularization process as a very serious problem which negatively influences religious life within the parish Pastors are bowed down by uncertainty over how their work contributes to the parish mission in today's society and even more so by doubts over what that mission is in particular the diaconal mission Which direction can shall should the pastor take if neither the church nor the theological institutions are able to provide him or her with a clear frame of reference an attractive perspective a convincing policy a plausible course of action and a meaningful set of aims goals and objectives There is no alternative but to risk taking responsibility for oneself and choosing one's own course of action To take this risk is not reckless or foolhardy as long as the choices are always informed by a religious self reflection that is open to tradition as well as to the future This allows the

pastor to be his own guide to transgress useless customs and habits and cross the boundaries into as yet unknown territory The task of education must be to provide the foundation that enables the pastor to make those choices and take those risks in a well considered prudent and truly religious manner This study represents not only an interpretative description of some of the education for ministry in today's societal cultural and ecclesiastical context in the western world but also a proposal for a new model the reflective ministry model **German Pentecostal Church Planting 1945-2005** Paul Clark,2019-08-12

What factors led to the successful founding of Pentecostal congregations in Germany in the past sixty years This historical and cultural study of Pentecostal church planting since World War II provides insights for social scientists German church planters and missionaries Clark identifies key principles that will propel successful church planting endeavors in the twenty first century by exploring the dynamics of intentional mission in a post Christian European setting and observing the various methodologies and approaches of Pentecostal church planting **Values-Centered Leadership** McKinley

Johnson,2016-05-03 Why we need values centered leaders What is a leader A leader is someone who takes charge manages risk and stands firm in the face of adversity But leaders who pay strict attention to their core values excel to greatness Character is key Dr McKinley Johnson examines leadership from a biblical perspective why some leaders soar and others fail The author a leadership specialist discusses both the nature and role of values its significance on individual and organizational behavior and how leaders can identify integrate and adopt values that lead to rich fulfillment Jesus serves as our perfect example for His values defined every miracle He performed and He encourages us as His disciples to do likewise

A True Leader C.A.R.E.S Dr. Wain,2009-01-15 Do you have a desire or calling to lead and no idea where to begin or where you are headed Do you feel you must have a title or position to be a leader Have you been a pastor for years but not effective in developing your leadership team If any of this is trueXthis book is for you This book was not written exclusively for church leadership It will examine leadership principles that are pertinent in every area of life Step by step it will guide you through the process of personal leadership development It is guaranteed to give everyone who is serious about leadership useful tools and incentives to transform lives In Part I it will introduce and define a new term with an old flavorXLeadership Christianity Within its pages you will see how creating change and making good sound decisions are essential in your life as a leader Part II includes a detailed examination and application of the five most important characteristics of a leader who C A R E S Character Attitude Relationships Effective Communications Self Discipline The final chapters of Part III are geared toward action Showing you the leader how these principles can be utilized in your everyday life at home in your church and in your community Rev Wayne P Bowman DMin *From Stuck to Unstuck* Kenneth A. Halstead,1998-12-31 This book seeks to provide a way for pastors and other leaders to work together to get themselves emotionally unstuck and to help their congregations as systems get unstuck Because many of our smaller problems are a product of the current paradigm shift this book strives also to use ideas about problem solving from Brief Systemic Therapy

to shed light on the implications of this paradigm shift for our communities of faith It urges our leaders to anticipate the birth of churches and synagogues that reflect the new paradigm and to guide us to learn the role of midwife This book first asks What is the nature of systemic problems in which we get stuck And then What is the nature of the solutions that get us unstuck The other key question What is the nature of leadership for our times that can best help us get our churches unstuck while keeping leaders emotionally healthy
