Ethical and Legal Issues

in Student Affairs and Higher Education Anne M. Hornak, 2019-10-29 The goal of this book is to help the reader gain knowledge on ethical and legal issues in the field of student affairs and develop competency to follow the profession's principles and standards of conduct. The significance of the book is due to its focus on the practical value of ethics and legal issues and its aim to address the knowledge, skills, and dispositions required of student affairs educators to develop and maintain integrity in their life and work as described by the ACPA NASPA. The text offers readers a number of major unique features. It offers multiple ethical decision-making models to guide student affairs educators in their ethical decision-making process. It proposes that ethics is not an individual but an organizational responsibility. It offers that ethical decision-making is a professional skill that can be practiced and applied in student affairs educators' day-to-day practice. It presents the reader with the most current legal issues in student affairs and higher education. Finally, it reflects three themes: integration of ACPA NASPA competency areas, development of professional identity, and application of knowledge and theory to practice. The book is critical and timely. A book that focuses on ethical and legal issues in student affairs is needed for faculty in preparation programs, new professionals navigating their identity as student affairs educators, and a resource for mid- and senior-level professionals facilitating ongoing professional development. The book begins to address what it means to have a professional identity which is grounded in the shared ethical and legal values espoused within the profession and academia. Each chapter uniquely contributes to the complexity embedded in the study of ethics and how that is applied to practice. Additionally, the volume is a balance of procedural knowledge, case illustrations, and guided practice exercises to facilitate the reader's ability to translate the theory and research discussed into professional decision-making and application. *Critical Issues for Student Affairs* Arthur Sandeen, Margaret J. Barr, 2014-03-14 Student affairs is now part of the management and administrative structure of almost every college and university in the United States. Professional staff working under the banner of student affairs are engaged in a wide variety of educational support and service functions. Measured by almost any standard, today's student affairs profession has never been stronger. There are still, however, a number of critical issues that must be debated and discussed if the student affairs profession is to move forward in the years ahead. *Critical Issues for Student Affairs* identifies the most vital issues currently confronting the student affairs profession. Each chapter in this important volume focuses on a specific issue and presents a background, a summary of related research, and writing an examination of the issue, related references, and a list of suggestions for further discussion. **Applied Ethics for Program Evaluation** Dianna L. Newman, Robert D. Brown, 1996 How can an evaluator deal with ethical value issues in a way that does not smack of ethical imperialism or a knee-jerk prescriptive stance? *Applied Ethics for Program Evaluation* is aimed at sensitizing evaluators, potential clients, and stakeholders in program evaluation. Through use of vignettes, the authors provide the readers with ethical dilemmas and questions to stimulate thinking about the positive and negative consequences of each option. Following an introduction to ethical theories and principles, the authors propose a framework based on Kitchner's five

ethical principles that can be used in weighing these options The book concludes by providing valuable suggestions on how evaluators can make informed ethical decisions in their own evaluation practice **Resources in Education** ,2001-04

Student Services in a Changing Federal Climate Michael D. Coomes,1994 Every aspect of campus life is affected by federal policy The federal government has become a significant force in the creation of individual campus policies Student affairs administrators must understand the nature of this federal intervention This volume of New Directions for Student Services provides an overview of the development of federal intervention and how the rationale for that involvement has changed over time The laws affecting student life on campus are also examined to help student affairs administrators understand the various mandates they must comply with on a daily basis This sourcebook also explains the federal policy process so that campus administrators can more effectively exercise their rights to influence that process Strategies are provided for administrators who must implement federal mandates on campus as well as warnings to be on guard against the loss of their liberties by overzealous federal enforcers This is the 68th issue of the quarterly journal New Directions for Student Services For more information on the series please see the Journals and Periodicals page **The Professional Student Affairs Administrator** Roger B. Individually and through the student councils students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship Through student activism and citizenship students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education s decision making processes Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth Campus Student Activism Politics and Citizenship in the 21st Century examines the dynamics of campus politics through student activism and citizenship perspectives academia public private and civil society sectors It explores how student leadership engages university society stakeholders including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers government officials sociologists political scientists academicians and researchers

Positioning Student Affairs for Sustainable Change Linda

Kuk,James H. Banning,Marilyn J. Amey,2023-07-03 At a time of increasing student diversity concern about security demand for greater accountability and of economic difficulty what does the future hold for higher education and how can student affairs organizations adapt to the increasing and changing demands How can university leaders position existing resources to effectively address these and other emerging challenges with a sense of opportunity rather than dread How can organizations be redesigned to sustain change while achieving excellence As student affairs organizations have grown and become increasingly complex in order to meet new demands they have often emphasized the expansion of their missions to the detriment of focusing on understanding their roles in relationship to other units to reviewing their cultures and structures and to considering how they can improve their effectiveness as organizations This book provides the tools for organizational analysis and sustainability Intended for practitioners graduate students interns and student affairs leaders this book presents the key ideas and concepts from business oriented organizational behavior and change theories and demonstrates how they can be useful in and be applied to student affairs practice and in particular how readers can use these theories to sustain change and enhance their organization s ability to adapt to complex emerging challenges At the same time it holds to values and perspectives that support the human dimension of organizational life Recognizing the complexity of today s organizations and the value of viewing them from multiple perspectives this book follows the emerging practice of providing three general epistemological perspectives the Positivist Social Constructionist and Postmodernist for analyzing often paradoxical organizational structures environments and behavior The book explores the environmental context of student affairs and how the organization interacts with both the internal and external environments examines the human dimension of organizations through a review of individual attributes human need and motivation social comparison theory and organizational learning theory presents the dimensions of structure and design theory and discusses why student

affairs organizations need to think differently about how they organize their resources considers the context and process of organizational change and the dynamics of decision making power conflict and communication addresses the role of assessment and evaluation and new forms of leadership Each chapter opens with a case study and closes with a set of reflective questions The authors have all served as practitioners within student affairs and now teach and advise graduate students and future leaders in the field
