**Abstract:** This study investigated the role of stakeholders in managing secondary school education in the era of COVID 19 for empowerment and job creation in Abia State Nigeria. The study adopted descriptive survey. Two research questions and two hypotheses guided the study. The population of the study was made up of 2927 (1864 government and 1063 private) teachers from 110 secondary schools in Abia State. The sample was made up of 292 teachers. This sample was drawn using stratified random sampling technique. A rating scale was used as the instrument for data collection. A researcher constructed rating scale was titled "Role of stakeholders in managing secondary school education in COVID 19 era (ROSMSSEC)". The rating scale has 16 items in two clusters. It was prepared along likert 4-point scale of rating. The instrument was duly validated by specialists in Educational Administration & Planning and Educational Measurement & Evaluation. Cronbach alpha statistic was used for reliability of the instrument which obtained an index of 0.92. In analyzing the data for the study, mean and standard deviation were used to answer the research questions. The hypotheses were tested using Z-test statistic at a 0.05 level of significance. It was found amongst others that; the level of COVID 19 patients was high due to lack of fund in secondary school for purchase of materials needed to curb the contraction and spread of COVID 19 in Abia State. Based on the findings the following recommendations were made: there should be improvement in parental engagement, integration of technology into education delivery. There should be better emergency preparedness in schools.
