Transforming India Sumantra Bose, 2013-09-09 A nation of 1 25 billion India is the world s most diverse democracy Drawing on his extensive fieldwork and experience of Indian politics Sumantra Bose tells the story of democracy s evolution in India since the 1950s and describes the challenges it faces today from poverty and inequality to Maoist revolutionaries and Kashmir secessionists **New Cultural Identitarian Political Movements in Developing Societies** Sebastian Schwecke, 2012-12-06 Applying an intercultural and comparative theoretical approach across Asia and Africa this book analyses the rise and moderation of political movements in developing societies which mobilise popular support with references to conceptions of cultural identity The author includes not only the Hindu nationalist movement but also many Islamist political movements in a single category New Cultural Identitarian Political Movements NCIPM Demonstrating significant similarities in the pattern of evolution between these and European Christian Democracy the book provides an instrument for the analysis of these movements outside the parameters of the fundamentalism debate The book looks at a number of key variables for understanding the evolution of NCIPM and it goes on to analyse the transition of developing societies from rent based political economies to capitalism and the partial failure of this transition process It argues that there is a need to incorporate economic and class analysis in the study of political processes in developing societies against the continuing emphasis on cultural factors associated with the cultural turn of social sciences The book is an interesting contribution to studies in South Asian Politics as well as Comparative Politics *Indian Republic* M. G. Chitkara, Baṃśī Rāma Śarmā, 1997 Dealing on various common political issues of India after 1977 onwards **Representing the Margin** Ajay S. Sekher, 2008 The work explores the representation of socio cultural margins of caste and gender in Indian contexts in works of fiction written in various Indian languages in the twentieth century taking representative samples from Hindi Urdu Bengali Kannada Malayalam and English The focus of enquiry is the narrativization of these important cultural and political questions in representative texts of fiction What are the socio political and cultural implications and underpinnings of the representation of marginalization in the medium and genre of fiction what could be the politics ethics and aesthetics of such

narrating how far such representations are subversive or consensual complicit what are the limitations and pitfalls of such intervening radicalism in fictional narration all these questions are taken up in detail in the analyses In the greater sense this study is also a critique of modernity and its discontents as it analyses the dialectics of modernity its radical as well as reactionary aspects A problematic premise of contextualizing the text and textualizing the context would also be prominent in the attempt Fictional texts from five Indian languages including English two texts from each language are incorporated in the study to ensure regional and linguistic representation within the limits of the availability of works in translation Questions of class analytical perspectives in the context of Brahmanic patriarchy are explicated and critiqued The need for a subaltern hermeneutics and the urgency of epistemological democratization are also discussed as a political and emancipatory outcome of the study Both the formal as well as thematic concerns of the novel in the Indian languages are found to be shaped and determined by the material realities and associated attitudes and worldviews of caste and gender hierarchy emanating from internal imperialism Though the ten texts chosen attempt intense critique of the gender question the more profound and specific cultural question of caste evades comprehension and critical understanding Caste often escapes as the unrepresentable in narration as it is in conversion The Saint in the Banyan Tree David Mosse,2012-10-01 This is a powerful and exciting work Mosse has produced a work of scholarship that is lively and readable without any loss of subtlety and sophistication It is a ground breaking study of critical importance to the ways we understand religious nationalism and the anthropology of postcolonial experience Susan Bayly author of Asian Voices in a Postcolonial Age

Identity and Identification in India Laura Dudley Jenkins,2003-09-02 Can a state empower its citizens by classifying them Or do reservation policies reinforce the very categories they are meant to eradicate Indian reservation policies on government jobs legislative seats and university admissions for disadvantaged groups like affirmative action policies elsewhere are based on the premise that recognizing group distinctions in society is necessary to subvert these distinctions Yet the official identification of eligible groups has unintended side effects on identity politics Bridging theories which emphasize the fluidity of identities and those which highlight the utility of group based mobilizations and policies this book exposes didactic enforcement of categorizations while recognizing the social and political gains facilitated by group based strategies

Public administration :Theory and Practice Dr. Anil Kumar Singh,2022-01-09 Public administration Theory and Practice Public administration theory is the amalgamation of history organizational theory social theory political theory and related studies focused on the meanings structures and functions of public service in all its forms As a relatively new and applied field public administration is constantly adapting to changing socio political and economic conditions and as a result is not easy to classify The most popular approach to teaching public administration theory is to trace its evolution throughout time putting different theories in their historical context The pursuit of effective public sector administration may be explained as a series of ideas each representing a step or increment towards a complete theory of public administration Viewed over time

they have helped build a substantial reservoir of knowledge Similarly it is important to discuss theories and tenets of public administration from the viewpoint of their impact on the development of the field the rhetoric that justified their embrace by the public and the factors that shaped them For this reason we find it useful to present five great ideas that shaped the field combining their historical importance and theoretical distinctiveness Public administration is a subject of human inquiry with ancient roots Contrary to present practice the ancients were preoccupied with the governance of public affairs as opposed to business and very often as in Greece had disdain for commerce and management of the business enterprise Ancient empires created elaborate state structures and effectively operated an apparatus overseeing huge territories This book is a comprehensive up to date textbook on the constantly changing and often complex world of this subject

Abraham, Judith Misrahi-Barak, 2015-07-24 This book breaks new ground in the study of Dalit Literature including in its corpus a range of genres such as novels autobiographies pamphlets poetry short stories as well as graphic novels With contributions from major scholars in the field it critically examines Dalit literary theory and initiates a dialogue between Dalit writing and Western literary theory **Perspectives on Indian Society** Dr. Binoy

Kumar,2021-09-15 PERSPECTIVES ON INDIAN SOCIETY India is a hierarchical society Whether in North India or South India Hindu or Muslim urban or village virtually all things people and social groups are ranked according to various essential qualities Although India is a political democracy notions of complete equality are seldom evident in daily life Societal hierarchy is evident in caste groups amongst individuals and in family and kinship groups Castes are primarily associated with Hinduism but caste like groups also exist among Muslims Indians Christians and other religious communities Within most villages or towns everyone knows the relative rankings of each locally represented caste and behaviour is constantly shaped by this knowledge Individuals are also ranked according to their wealth and power For example some powerful people or big men sit confidently on chairs while little men come before them to make requests either standing or squatting not presuming to sit beside a man of high status as an equal Hierarchy plays an important role within families and kinship groupings also where men outrank women of similar age and senior relatives outrank junior relatives Formal respect is accorded to family members for example in northern India a daughter in law shows deference to her husband to all senior in laws and to all daughters of the household Siblings too recognize age differences with younger siblings addressing older siblings by respectful terms rather than by name The book is a must for sociology and anthropology teachers NGOs researchers and students Contents The Unique Caste System in Hindu Society Hallmarks of Hindu Society Rural Social System Modern Status of the Caste System Economic and Political Systems of Society Religion and Society Indian Society and Modernization Feminism Tradition and Modernity The Pressure to Modernize and Globalize Culture and Economic Development Modernization to Globalization

Hindi Dalit Literature and the Politics of Representation Sarah Beth Hunt,2014-08-07 This study explores how Dalits in north India have used literature as a means of protest against caste oppression Including fresh ethnographic research and interviews it traces the trajectory of modern Dalit writing in Hindi and its pivotal role in the creation rise and reinforcement of a distinctive Dalit identity The book challenges the existing impression of Hindi Dalit literature as stemming from the Dalit political assertion of the 1980s and as being chiefly imitative of the Marathi Dalit literature model Arguing that Hindi Dalit literature has a much longer history in north India it examines two differing strands that have taken root in Dalit expression the early popular production of smaller literary pamphlets and journals at the beginning of the 20th century and more contemporary modes such as autobiographies short stories and literary criticism The author highlights the ways in which such various forms of literary works have supported the proliferation of an all encompassing identity for the so called untouchable castes She also underscores how these have contributed to their evolving political consciousness and consolidation of newer heterogeneous identities making a departure from their long perceived image The work will be important for those in Dalit studies subaltern history Hindi literature postcolonial studies political science and sociology as well as the informed general reader

Super FRM Models W. B. Vasantha Kandasamy, 2009-01-01 Caste-Based Reservations and Human Development in India K S Chalam, 2007-04-04 Caste based reservations have existed in India for more than a century Initially introduced by the British to bring about equal of opportunity in education reservation was later extended to other sectors of the development process to overcome the economic inequalities attributed to caste Even today concepts like affirmative action and quotas are being debated to justify reservation Caste based Reservations and Human Development in India comprehensively analyses the impact of such reservations on the target groups as well as on major human development indices taking into consideration time series data An alternative strategy of applying the democratic principle of caste based reservation is also discussed **Science and Religion in India** Renny Thomas, 2021-12-30 This book provides an in depth ethnographic study of science and religion in the context of South Asia giving voice to Indian scientists and shedding valuable light on their engagement with religion Drawing on biographical autobiographical historical and ethnographic material the volume focuses on scientists religious life and practices and the variety of ways in which they express them Renny Thomas challenges the idea that science and religion in India are naturally connected and argues that the discussion has to go beyond binary models of conflict and complementarity By complicating the understanding of science and religion in India the book engages with new ways of looking at these categories
