practitioners of Vodou from countries such as China Guatemala Haiti India Iran Jamaica Korea and Mexico The contributors explore how to a greater or lesser extent immigrants and their offspring adapt their religious institutions to American conditions often interacting with religious communities already established The religious institutions they build adapt remodel and adopt become worlds unto themselves congregations where new relations are forged within the community between men and women parents and children recent arrival and those longer settled Biometric Recognition Zhenan Sun,Jianhuang Lai,Xilin Chen,Tieniu Tan,2011-11-14 This book constitutes the refereed proceedings of the 6th Chinese Conference on Biometric Recognition CCBR 2011 held in Beijing China in December 2011 The 35 revised full papers were carefully reviewed and selected from 71 submissions The papers are organized in topical sections on problems in face iris hand biometrics speaker handwriting gait behavioral and soft biometrics and security *The John Lennon Letters* John Lennon,2012-10-09 A lifetime of letters collected for the first time from the legendary musician and songwriter John Lennon was one of the greatest songwriters the world has ever known creator of Help Come Together Lucy in the Sky with Diamonds Strawberry Fields Forever Imagine and dozens more But it was in his correspondences that he let his personality and poetry flow unguarded Now gathered for the first time in book form are his letters to family friends strangers and lovers from every point in his life Funny informative wise poetic and sometimes heartbreaking his letters illuminate a never before seen intimate side of the private genius This groundbreaking collection of almost 300 letters and postcards has been edited and annotated by Hunter Davies whose authorized biography The Beatles 1968 was published to great acclaim With unparalleled knowledge of Lennon and his contemporaries Davies reads between the lines of the artist s words contextualizing them in Lennon s life and using them to reveal the man himself **Handbook of Literacy in Diglossia and in Dialectal Contexts** Elinor Saiegh-Haddad,Lior Laks,Catherine McBride,2022-03-14 This volume is the first published collection of papers on the impact of diglossia and dialectal variations on language and literacy acquisition impairment and education The authors are pioneering in this field and are leading researchers with substantial experience in conducting research in this area A wide range of areas and languages are covered including the US South Africa Israel and various European countries The chapters present novel data and insights regarding the role of dialectal variations on language and literacy from a wide range of countries and perspectives These insights have significant theoretical and practical implications A majority of literacy learners worldwide are taught to read and write in a language variety or a dialect that is not the same as their spoken language Not only is this the global norm but it is probably also the greatest obstacle to literacy learning This volume is the first published collection of papers on the role of dialect in language and literacy acquisition impairment and education in a variety of languages and situations across Europe the Middle East North America Africa and Asia The authors are pioneers in this field WRTH Satellite Broadcasting Guide Bart Kuperus,1995 **Tongueless** Lau Yee-Wa,2024-06-11 A gripping psychological thriller that sheds light on the current political situation in Hong Kong Tongueless follows two rival teachers at

a secondary school in Hong Kong who are instructed to switch from teaching in Cantonese to Mandarin or lose their jobs. Apolitical and focusing on surviving and thriving in their professional environment, Wai and Ling each approach the challenge differently. Wai, awkward and unpopular, becomes obsessed with Mandarin learning. Ling, knowing how to please her superiors and colleagues, thinks she can tactfully dodge the Mandarin challenge by deploying her social savviness. Wai eventually crumples under the pressure and dies by suicide, leaving her colleague Ling to face seismic political and cultural change alone as she considers how far she will go to survive such a ruthlessly competitive work environment. Sharp, darkly humorous and politically pointed, *Tongueless* presciently engages with important issues facing Hong Kong today during which so much of the city's uniqueness, especially its language, is at risk of being erased.

Language and National Identity in Asia Andrew Simpson, 2007. *Language and National Identity in Asia* is a comprehensive introduction to the role of language in the construction and development of nations and national identities in Asia. Leading scholars from all over the world investigate the role languages have played and now play in the formation of the national and social identity in countries throughout South East and Southeast Asia. They consider the relation of the regions' languages to national, ethnic and cultural identity and examine the status of and interactions between majority official and minority languages. Illustrated with maps and accessibly written, this book will interest all those concerned to understand the dynamics of social change in some of the most important countries in the world. It will appeal to all those studying, researching or teaching issues in Asian society, language and politics from a comparative perspective.

The Tyranny of Writing Constanze Weth, Kasper Juffermans, 2018-01-25. This book examines the powerful role of writing in society. The invention of writing independently at various places and times in history always stood at the cradle of powerful civilizations. It is impossible to imagine modern life without writing. As individuals and social groups, we hold high expectations of its potential for societal and personal development. Globally, huge resources have been and are being invested in promoting literacy worldwide. So what could possibly be tyrannical about writing? The title is inspired by Ferdinand de Saussure's argument against writing as an object of linguistic research and what he called *la tyrannie de la lettre*. His critique denounced writing as an imperfect, distorted image of speech that obscures our view of language and its structure. The chapters of the book, written by experts in language and literacy studies, go beyond this and explore tyrannical aspects of writing in society through history and around the world, from Medieval Novgorod, the European Renaissance and 19th-century France and Germany, over colonial Sudan to postcolonial Sri Lanka and Senegal, and present-day Hong Kong and Central China to the Netherlands and Spain. The metaphor of tyranny of writing serves as a heuristic for exploring ideologies of language and literacy in culture and society and tensions and contradictions between the written and the spoken word.

Multidisciplinary Perspectives on Multilingualism Simona Montanari, Suzanne Quay, 2019-10-08. Multilingualism is a typical aspect of everyday life for most of the world's population; it has existed since the beginning of humanity and among individuals of all backgrounds.

Nonetheless it has often been treated as a variant of bilingualism or as a phenomenon unique to individual areas of study The purpose of this book is to review current knowledge about the acquisition use and loss of multiple languages using a multidisciplinary perspective highlighting the common themes and stimulating insights that can emerge when multilingualism is viewed from different but related areas of investigation The chapters focus on research evidence showing that multilingualism is a complex phenomenon that involves a myriad of linguistic and extra linguistic forces and that should be studied in its own right as evidence of human potential and capacity for language The book is primarily addressed to students and scholars interested in deepening their understanding of the different facets of multilingualism including the individual and societal circumstances that contribute to it the cognitive and neural mechanisms that make it possible and the dynamics involved in the acquisition use and loss of multiple languages

Language and Culture David Nunan, Julie Choi, 2010-05-07 This state of the art exploration of language culture and identity is orchestrated through prominent scholars and teachers narratives each weaving together three elements a personal account based on one or more memorable or critical incidents that occurred in the course of learning or using a second or foreign language an interpretation of the incidents highlighting their impact in terms of culture identity and language the connections between the experiences and observations of the author and existing literature on language culture and identity What makes this book stand out is the way in which authors meld traditional academic approaches to inquiry with their own personalized voices This opens a window on different ways of viewing and doing research in Applied Linguistics and TESOL What gives the book its power is the compelling nature of the narratives themselves Telling stories is a fundamental way of representing and making sense of the human condition These stories unpack in an accessible but rigorous fashion complex socio cultural constructs of culture identity the self and other and reflexivity and offer a way into these constructs for teachers teachers in preparation and neophyte researchers Contributors from around the world give the book broad and international appeal
