## **Mandela's World The International Dimension Of South Africa's Political Revolution 1990-99:**

Mandela's World James Barber, 2008 It is unusual for a state to achieve a political revolution by negotiation The demise of apartheid the release of Nelson Mandela and a new constitution leading to a democratic government transformed South Africa's international status from pariah to paragon However a burden of expectation was imposed on this government in that it would lead an economic and political revival in Africa Mistakes and miscalculations were made yet it succeeded in making a positive contribution both in Africa and internationally

### **Inside South Africa's Foreign Policy**

John Siko, 2014-06-16 South Africa is a major player in African diplomacy Its economic diplomatic and military resources far outstrip those of other nations on the continent and it has since the country's 1994 democratic transition sought to take a lead role in the continent's relations with other power blocs particularly during the 1999-2008 presidency of Thabo Mbeki While Mbeki's push for greater African engagement in the global political sphere drew widespread praise other positions notably its seeming inaction toward Zimbabwe and perceived abandonment of its stated emphasis on human rights in foreign policy were more controversial both at home and abroad John Siko has had insider access to South Africa's leading foreign policy players and has been able to ask why Pretoria has taken its various stances and who has mattered in influencing those decisions a topic little examined since 1994 In addition he examines the foreign policy process over the past century determining that despite ANC promises of greater democratic engagement on foreign policy the process has changed quite little

**Thabo Mbeki** Adekeye Adebajo, 2017-05-15 Former South African president Thabo Mbeki is a complex figure He was a committed young Marxist who while in power embraced conservative economic policies and protected white corporate interests a rational and dispassionate thinker who was particularly sensitive to criticism and dissent and a champion of African self-reliance who relied excessively on foreign capital As a key liberation leader in exile he was instrumental in the ANC's anti-apartheid struggle Later he helped build one of the world's most respected constitutional democracies As president though he was unable to overcome inherited socioeconomic challenges and his disastrous AIDS policies will remain a major blotch on his legacy Mbeki is the most important African political figure of his generation He will be remembered as a foreign policy president for his peacemaking efforts and his role in building continental institutions not least of which was the African Union In this concise biography ideally suited for the classroom Adekeye Adebajo seeks to illuminate Mbeki's contradictions and situate him in a pan-African pantheon

*Towards an African Peace and Security Regime* João Gomes Porto, 2016-02-24 *Towards an African Peace and Security Regime* Continental embeddedness transnational linkages strategic relevance provides an informed and critical reflection on the adequacy of the emerging African Peace and Security Architecture APSA to the medium and long-term challenges and opportunities of conflict prevention management and resolution in Africa Complementary to the editors Africa's New Peace and Security Architecture Implementing norms institutionalising solutions Ashgate 2010 this volume revolves around three main areas of focus the

continental embeddedness of norms values and processes required for the gradual coming into shape of the African peace and security regime its transnational linkages as well as the wider collective security environment and the empirical analysis of the connections between the continental level and the regional economic communities with case studies on ECOWAS SADC and COMESA      *Charlatans, Spirits and Rebels in Africa* Tim Kelsall, 2022-09-01 When Stephen Ellis died in July 2015 African Studies lost one of its most prolific provocative and celebrated scholars Given the scale and uniqueness of his contribution it is perhaps surprising that a collection of his writings did not appear during his lifetime It is now possible to bring such a volume to the public With an introduction by Tim Kelsall and an afterword by Jean François Bayart this collection aims to provide scholars and students with an introduction to the main themes in Ellis work These revolved around the roles of religion criminality and violence in African society and politics preoccupations that also informed his interpretation of African rebellions and resistance movements The volume spans more than three decades of scholarship case studies from six countries highly cited and lesser known articles and a sampling of works intended for public engagement as well as an academic audience It will serve as a reader for African Politics and History and as an invitation to students to delve deeper into Stephen Ellis oeuvre      *Keeping a Sharp Eye* Peter Vale, 2012-09 International relations are what a government does when nobody's looking While this may well once have been true the conduct of international relations in South Africa and elsewhere has come under increasing scrutiny by the public This is partially the result of specialist expertise around the formal study of international relations and the making of foreign policy enhanced by the development of International Relations as a separate academic field Like the growth of institutes of international affairs or the Council on Foreign Relations in the case of America the study of international relations commenced at the end of the First World War 1914 18 with the establishment at the University of Wales Aberystwyth of the first academic chair in International Relations It was called for Woodrow Wilson America's twenty eighth president and funded by Welsh businessman and pacifist David Davis In South Africa the study of international relations commenced with the establishment of the South African Institute of International Affairs SAIIA which met for the first time in the Senate Chamber of the University of Cape Town on 12 May 1934 Until then International Relations had been taught in various guises within History Law Economics and Politics courses but it lacked a firm institutional base In South Africa International Relations was first taught as a separate academic discipline at the University of the Witwatersrand in 1963 although a professorship called for Jan Smuts was first filled in 1961 Long before this institutional setting however a more subversive and certainly more spicy variety of international relations understanding and critique was at work this was of course the sharp eye on foreign policy and international relations drawn in jest and sometimes in anger by cartoonists Their interest in international relations predates the emergence of the powerful critical perspectives that have changed and almost redirected the field since the ending of the Cold War This book is about how these other experts have looked at and commented on South Africa's relations with the

world over the past century It examines their interpretations of unfolding events and considers how these commentators and their work interacted with the more formal understandings of foreign policy and international relations that came to pass long after cartoons first appeared A century of South Africa's engagement with the world is understandably a long and complex story Cartoons on the country were done years before the 1910 Act of Union as some well known cartoons of the Anglo Boer War suggest However by confining my choices to a hundred years of the South African state I have chosen firm bookends for the collection The choice of cartoons itself requires further clarification There is a rather worrying recent notion in South Africa that nothing that happened in the country before the historic election of 1994 matters In April 2009 at a conference I heard an academic colleague say that what happened in the 1930s was illegitimate and of no real relevance to the present This lack of interest in history is both short sighted and intellectually lazy South Africa's international relations today are determined as much by the cartoons drawn by Boonzaier in 1910 as they are by the cartoons drawn by Zapiro in 2010 I choose these two names not only because they conveniently cover almost the full range of the alphabet but because they run from the founding of the South African state in 1910 to the present Their names signal something else too I have only chosen drawings by cartoonists who worked in South Africa As will be clear many cartoonists were not South African born but brought the cartoonist's trade with them to this country As such they brought interpretations and understandings of the world that helped to shape South Africa's perspectives on international relations Most of the artists in this book

Mngomezulu, 2019-11-11 Foreign policy and domestic policy feed into each other To a large degree the latter informs the former This book demonstrates the relationship between the two paying particularly close attention to how South Africa envisioned its foreign policy during the negotiation process Importantly it spells out how South Africa's foreign policy has evolved since the early 1990s The critics of South Africa's foreign policy often question the motives behind the country's involvement in African and global affairs The contributions here demonstrate the complex nature of foreign

policy making approaching the subject both from a broad theoretical perspective and specifically through empirical case studies The book will appeal to political scientists historians policy practitioners international relations specialists and government officials and their advisors as well as international relations theorists

**Economic Statecraft and Foreign Policy** Jean-Marc F. Blanchard, Norrin M. Ripsman, 2013-07-18 This book develops a unified theory of economic statecraft to clarify when and how sanctions and incentives can be used effectively to secure meaningful policy concessions High profile applications of economic statecraft have yielded varying degrees of success The mixed record of economic incentives and economic sanctions in many cases raises important questions Under what conditions can states modify the behaviour of other

states by offering them tangible economic rewards or by threatening to disrupt existing economic relations To what extent does the success of economic statecraft depend on the magnitude of economic penalties and rewards In order to answer these questions this book develops two analytic models one weighs the threats economic statecraft poses to the Target s Strategic Interests TSI while the other stateness assesses the degree to which the target state is insulated from domestic political pressures that senders attempt to generate or exploit Through a series of carefully crafted case studies including African apartheid and Japanese incentives to obtain the return of the Northern Territories the authors demonstrate how their model can yield important policy insights in regards to contemporary economic sanctions and incentives cases such as Iran and North Korea This book will be of much interest to students of statecraft sanctions diplomacy foreign policy and international security in general
