Manipulative Mode:

Human Manipulation Modes Olga Skorbatyuk, Kate Bazilevsky, 2015-08-25 Do you think that no one can control you Well we sincerely feel sorry for you because it means that you do not know anything about natural manipulation modes No one thought up manipulation modes as it is a purely natural mechanism which is built into psyche of every human being at the level of unconditioned reflexes and instincts Therefore no human being can resist their application Using technological terms manipulation modes are the factory settings of Mother Nature itself they are built into the structure of psyche of Homo sapiens at the level of instincts and unconditioned reflexes meaning inborn reactions of an organism to certain influences of the external or the internal environment Manipulation modes are implanted in the unconscious part of human psyche since birth Any representative of the biological type Homo sapiens has three of these modes suppressing balancing and stimulating Originally they are modes of self correction and self regulation intended to ensure that a human could regulate the state of his psychophysiology and behavior from within himself However as it turned out if you know natural manipulation modes of an individual and transmit them towards him/her from the outside then he/she becomes one hundred percent controllable like a robot machine It is a priori impossible to notice the influence of application of natural manipulation modes of a human The influence bypasses consciousness and intellect of the subject of manipulation No one is able to notice transmittance of natural manipulation modes towards him/her regardless of his/her professional skills educational level life experience and intuition as these modes are an inherent part of individual structure of human psyche They are his/her own native what is called closer than skin Probably the unprecedented power of this tool and its effectiveness are due to that it is a nature's creation Nobody invented or developed manipulation modes Information about this natural mechanism and practical tool for managing a human are of a very archaic origin Both were accidentally found by a Russian researcher sinologist Andrey Davydov while he was studying one very ancient source The title of this source is Shan Hai Jing translated from Chinese as the Catalog of Mountains and Seas Authorship and the exact dating of Shan Hai Jing are still unknown However according to some experts it dates back to XXIII century BC The existence of this text has long been known The ancient Chinese philosopher Confucius IV-V centuries BC was familiar with it but prior to the discovery made by Andrey Davydov no one even supposed what kind of information is encrypted in this ancient source However despite that the researcher was able to uncover the secret of Shan Hai Jing and find out that this ancient Chinese monument is nothing other than the original instruction to Homo sapiens the description of a blueprint pattern of human psyche this source still remains mysterious At least because it is still unknown who left the writings with this knowledge to people We think that it is easy to conclude from everything stated above that your favorite mantra It is impossible to manipulate me will no longer help you Despite that your fantasies about being unmanageable will remain with you and just like before you will feel absolute freedom independence and randomness of all of your actions if someone will want you to then you will twitch like a puppet on invisible strings All

that now remains in your power it to decide whether to continue being a subject for someone's manipulations or to choose the position of a manipulator There is no third option anymore However we are not suggesting to believe in that this is really the case We never urge anyone to believe including us because we know that faith is one of the factors which has a very harmful effect on human psychophysiology We are offering a different life principle knowledge And for this reason we provided one of the 3 manipulation modes of people who were born on October 12th of leap years or October 13th of common years at the end of this book for free This manipulation scenario is of their suppressing manipulation mode Act out this scenario to people with these dates of birth and make certain that the Catalog of human population really exists

Being the Body of Christ in the Age of Management The Rev'd Lyndon Shakespeare, 2016-08-26 The church needs effective leaders We must be more missional Better organization is required Such sentiments are commonplace among Christians concerned with the health and sustainability of their local church as well as the church universal Over the past thirty years the desire for more efficiently run effectively led and organizationally sound churches has contributed to an approach to thinking about the church in terms uncritically assumed from the business and management sector This has given rise to treating the church as if it were just another social body in need of better organization The question is what happens when we apply the logic of management techniques to an organization that identifies as the body of Christ Drawing on organizational theory theological anthropology and sacramental theology this book navigates a path for Christians that avoids reducing the church to just another organization while providing a vision for

the church as the social body where all are invited to connect and be made members of Christ and each other Such a vision provides an alternative to the social categorization that would define the church by its organizational character rather than its eschatological destiny
