## **Manliness And Militarism Educating Young Boys In Ontario For War:**

**Manliness and Militarism** Mark Moss, 2001-12-15 Euphoria swept Canada and especially Ontario with the outbreak of World War I Young men rushed to volunteer for the Canadian Expeditionary Force and close to 50 per cent of the half million Canadian volunteers came from the province of Ontario Why were people excited by the prospect of war What popular attitudes about war had become ingrained in the society And how had such values become so deeply rooted in a generation of young men that they would be eager to join this great adventure Historian Mark Moss seeks to answer these questions in *Manliness and Militarism Educating Young Boys in Ontario for War* By examining the cult of manliness as it developed in Victorian and Edwardian Ontario Moss reveals a number of factors that made young men eager to prove their mettle on the battlefields of Europe Popular juvenile literature the books of Henty Haggard and Kipling for example and numerous magazines for boys such as the *Boy's Own Paper* and *Chums* glorified the military conquests of the British Empire the bravery of military men especially Englishmen and the values of courage and unquestioning patriotism Those same values were taught in the schools on the playing fields in cadet military drill in the wilderness and Boy Scout movements and even through the toys and games of young children The lessons were taught and learned well As Moss concludes Even after the horrors became known the conflict ended and the survivors came home manliness and militarism remained central elements of English speaking Ontario's culture For those too young to have served the idea of the Great War became steeped in adventure and many dreamed of another chance to serve For some the dream would become a reality

**Manhood and the Making of the Military** Anders Ahlback, 2016-05-13 When Finland gained its independence from Russia in 1917 the country had not had a military for almost two decades The ensuing creation of a new national conscript army aroused intense but conflicting emotions among the Finns This book examines how a modern conscript army born out of a civil war had to struggle through social cultural and political minefields to find popular acceptance Exploring the ways that images of manhood were used in the controversies it reveals the conflicts surrounding compulsory military

service in a democratic society and the compromises made as the new nation had to develop the will and skill to defend itself. Through the lens of masculinity another picture of conscription emerges offering new understandings of why military service was resisted and supported, dreaded and celebrated in Finnish society. Intertwined with the story of the making of the military runs the story of how manhood was made and remade through the idealized images and real life experiences of conscripted soldiers. Placing interwar Finland within a broad European context the book traces the origins of competing military traditions and ideological visions of modern male citizenship back to their continental origins. It contributes to the need for studies on the impact of the Great War on masculinities and constructions of gender among military cultures in the peacetime period between the two world wars.

**Ontario Boys** Christopher J. Greig, 2014-03-24. Ontario Boys explores the preoccupation with boyhood in Ontario during the immediate postwar period 1945-1960. It argues that a traditional version of boyhood was being rejuvenated in response to a population fraught with uncertainty and suffering from insecurity, instability and gender anxiety brought on by the depression era and wartime disruptions in marital, familial and labour relations as well as mass migration. Rapid postwar economic changes, the emergence of the Cold War and the looming threat of atomic annihilation. In this sociopolitical and cultural context concerned adults began to cast the fate of the postwar world onto children, in particular boys. In the decade and a half immediately following World War II the version of boyhood that became the ideal was one that stressed selflessness, togetherness, honesty, fearlessness, frank determination and emotional toughness. It was thought that investing boys with this version of masculinity was essential if they were to grow into the kind of citizens capable of governing, protecting and defending the nation and of course maintaining and regulating the social order. Drawing on a wide variety of sources Ontario Boys demonstrates that although girls were expected and encouraged to internalize a special kind of citizenship as caregivers and educators of children and nurturers of men, the gendered content and language employed indicated that active public citizenship and democracy was intended for boys. An appropriate boyhood in the postwar period became, if nothing else, a metaphor for the survival of the nation.

**Thrashing Seasons** C. Nathan Hatton, 2016-05-03. Horseback wrestling, catch as catch can, glima long before the advent of today's WWE forms of wrestling were practised by virtually every cultural group. C. Nathan Hatton's *Thrashing Seasons* tells the story of wrestling in Manitoba from its earliest documented origins in the eighteenth century to the Great Depression. Wrestling was never merely a sport; residents of Manitoba found meaning beyond the simple act of two people struggling for physical advantage on a mat in a ring or on a grassy field. Frequently controversial and often divisive, wrestling was nevertheless a popular and resilient cultural practice that proved adaptable to the rapidly changing social conditions in western Canada during its early boom period. In addition to chronicling the colourful exploits of the many athletes who shaped wrestling's early years, Hatton explores wrestling as a social phenomenon intimately bound up with

debates around respectability ethnicity race class and idealized conceptions of masculinity In doing so Thrashing Seasons illuminates wrestling as a complex and socially significant cultural activity one that has been virtually unexamined by Canadian historians looking at the nineteenth and early twentieth centuries **One in a Thousand** Graham Broad,2017-01-01 This short microhistory details the life and death of Eddie McKay a varsity athlete at Western University who flew with the Royal Flying Corps in the First World War Graham Broad switches creatively from telling McKay s fascinating story to teaching valuable lessons on how to do history why the past matters why historians take different approaches how to pose historical questions how to identify relevant source materials and the importance of thoughtful intelligent and respectful treatment of historical subjects The book includes a timeline of the subject s life a map of relevant combat areas in the Battle of the Somme and nine illustrations It concludes with four unsolved events in McKay s life a mysterious woman a strange advertisement for batteries an empty envelope and an unknown grave demonstrating that even a detailed history about one person s life is never really complete **Welcome Home, Boys!** Sebastian Jobs,2012-10-08 Militärische Siegesparaden sind politische Inszenierungen in denen abstrakte Ideen wie Staat oder Nation verkörpert werden Am Beispiel amerikanischer Paraden in der ersten Hälfte des 20 Jahrhunderts nimmt Sebastian Jobs die beteiligten Akteure und deren Rollen in den Blick So analysiert er das von zivilen und militärischen Organisatoren vorgesehene Protokoll aber auch wie Soldaten und Zuschauer diese Regeln durch undiszipliniertes Winken oder Lachen durchbrachen und sich die Straßeneigenen Paraden waren eben nicht nur staatstragende Rituale sondern auch emotionale Spektakel und damit populärkulturelle Unterhaltung **Tending the Student Body** Catherine Gidney,2015-02-05 In the early twentieth century university administrators and educators regarded bodily health as a marker of an individual s moral and mental strength and as a measure of national vitality Beset by social anxieties about the physical and moral health of their students they introduced compulsory health services and physical education programs in order to shape their students character Tending the Student Body examines the development of these health programs at Canadian universities and the transformation of their goals over the first half of the twentieth century from fostering moral character to promoting individualism self realization and mental health Drawing on extensive records from Canadian universities Catherine Gidney examines the gender and class dynamics of these programs their relationship to changes in medical and intellectual thought and their contribution to ideas about the nature and fulfilment of the self Her research will be of interest to historians of medicine gender sport and higher education **Race and Gender in Modern Western Warfare** David Ulbrich,Bobby A. Wintemute,2018-12-03 This book fills a gap in the historiographical and theoretical fields of race gender and war In brief Race and Gender in Modern Western Warfare RGMWW offers an introduction into how cultural constructions of identity are transformed by war and how they in turn influence the nature of military institutions and conflicts Focusing on the modern West this project begins by introducing the contours of race and gender theories as they have evolved and how they are

employed by historians anthropologists sociologists and other scholars The project then mixes chronological narrative with analysis and historiography as it takes the reader through a series of case studies ranging from the early nineteenth century to the Global War of Terror The purpose throughout is not merely to create a list of so called great moments in race and gender but to create a meta landscape in which readers can learn to identify for themselves the disjunctures flaws and critical synergies in the traditional memory and history of a largely monochrome and male exclusive military experience The final chapter considers the current challenges that Western societies particularly the United States face in imposing social diversity and tolerance on statist military structures in a climates of sometimes vitriolic public debate RGMWW represents our effort to blend race gender and military war to problematize these intersections and then provide some answers to those problems

**Youth Squad** Tamara Gene Myers, 2019-10-24 Starting in the 1930s urban police forces from New York City to Montreal to Vancouver established youth squads and crime prevention programs dramatically changing the nature of contact between cops and kids Gone was the beat officer who scared children and threatened youth Instead a new breed of officer emerged whose intentions were explicit befriend the rising generation Good intentions however produced paradoxical results In Youth Squad Tamara Gene Myers chronicles the development of youth consciousness among North American police departments Myers shows that a new comprehensive strategy for crime prevention was predicated on the idea that criminals are not born but made by their cultural environments Pinpointing the origin of this paradigmatic shift to a period of optimism about the ability of police to protect children she explains how by the middle of the twentieth century police forces had intensified their presence in children s lives through juvenile curfew laws police athletic leagues traffic safety and anti corruption campaigns and school programs The book describes the ways that seemingly altruistic efforts to integrate working class youth into society evolved into pervasive supervision and surveillance normalizing the police presence in children s lives At the intersection of juvenile justice policing and childhood history Youth Squad reveals how the overpolicing of young people today is rooted in well meaning but misguided schemes of the mid twentieth century

**War and Sex** John V. H. Dippel, 2011-09-27 Dippel reviews social circumstances leading up to conflicts from the American Civil War through the Vietnam War and the current clash with Islamic fundamentalists and explores how tensions over gender roles affect men s willingness to go to war

The Dominion of Youth Cynthia Comacchio, 2008-10-08 Adolescence like childhood is more than a biologically defined life stage it is also a sociohistorical construction The meaning and experience of adolescence are reformulated according to societal needs evolving scientific precepts and national aspirations relative to historic conditions Although adolescence was by no means a discovery of the early twentieth century it did assume an identifiably modern form during the years between the Great War and 1950 The Dominion of Youth Adolescence and the Making of Modern Canada 1920 to 1950 captures what it meant for young Canadians to inhabit this liminal stage of life within the context of a young nation caught up in the self formation and historic transformation that would make modern Canada Because the young at this

time were seen paradoxically as both the hope of the nation and the source of its possible degeneration new policies and institutions were developed to deal with the problem of youth This history considers how young Canadians made the transition to adulthood during a period that was developmental both for youth and for a nation also working toward individuation During the years considered here those who occupied this dominion of youth would see their experiences more clearly demarcated by generation and culture than ever before With this book Cynthia Comacchio offers the first detailed study of adolescence in early twentieth century Canada and demonstrates how young Canadians of the period became the nation's first modern teenagers
