Student Companion to Richard Wright Robert Felgar,2000-05-30 Born in rural Mississippi the grandson of slaves Richard Wright overcame every social obstacle including poverty racism and limited education to achieve literary recognition as the creator of some of America s most powerful Black literature Written with unprecedented candor Wright s works changed the cultural landscape by challenging old stereotypes and myths about race Wright scholar Robert Felgar has written a critical volume to help students appreciate the

literary significance of such groundbreaking works as *Native Son* and the autobiographical *Black Boy*. This study serves students of both literature and social history as it explores the themes of racism and all types of institutionalized oppression that Wright exposed in his provocative writing. Felgar approaches each of Wright's major works in chronological order offering insightful literary analysis of *Uncle Tom's Children*, *Native Son*, *Black Boy*, and *The Outsider* as well as Wright's two works published posthumously *Eight Men*, a collection of stories and *Lawd Today*. The original censored works are discussed and compared with the more recently re-published unexpurgated versions. This Student Companion introduces readers to Richard Wright with a biographical chapter recounting the writer's struggles and achievements. A literary heritage chapter examines the genres, themes, and stylistic traditions that figured in Wright's work. Each of Wright's major works of fiction is given careful literary interpretation with analysis of plot, character development, thematic concerns, and a close alternate reading. A selective bibliography of critical works and reviews, in addition to the listings of Wright's stories, essays, and full-length works, will help students derive the most from their study of this important American writer.

China's Communication of the Belt and Road Initiative Carolijn van Noort, 2021-08-19 This book examines how China's international political communication of the Belt and Road Initiative comprises narratives about infrastructure and the Silk Road. By carefully selecting infrastructure modalities and Silk Road representations, it is argued that China's aesthetic production of the Belt and Road Initiative advances China's image as an infrastructure and standards setting power, conjures up a historical continuation of friendly and cooperative relations, and forges China's identity as good neighbor, good friend, and good partner. Using a multiple case study approach, this book analyses China's communication of the Second Belt and Road Forum, the Alternative North-South Road in Kyrgyzstan, the Standard Gauge Railway in Kenya, and the China-Maldives Friendship Bridge. Detailed literary analyses of the *Travels of Marco Polo* and the *Travels of Ibn Battuta* further elucidate China's selective uses of history. Chapters highlight spatial, temporal, political, economic, technological, and perceptual modalities in infrastructure narratives and reveal the composition of Silk Road narratives contributing to key debates about Chinese discourse, media strategy, and infrastructure communication. China's Communication of the Belt and Road Initiative will appeal to students and scholars of politics, international relations, communication, and Asian studies globally.

"Who Set You Flowin'?" Farah Jasmine Griffin, 1996-09-26 Twentieth-century America has witnessed the most widespread and sustained movement of African Americans from the South to urban centers in the North. *Who Set You Flowin'* examines the impact of this dislocation and urbanization, identifying the resulting Migration Narratives as a major genre in African

American cultural production Griffin takes an interdisciplinary approach with readings of several literary texts migrant correspondence painting photography rap music blues and rhythm and blues From these various sources Griffin isolates the tropes of Ancestor Stranger and Safe Space which though common to all Migration Narratives vary in their portrayal She argues that the emergence of a dominant portrayal of these tropes is the product of the historical and political moment often challenged by alternative portrayals in other texts or artistic forms as well as intra textually Richard Wright's bleak yet cosmopolitan portraits were countered by Dorothy West's longing for Black Southern communities Ralph Ellison while continuing Wright's vision reexamined the significance of Black Southern culture Griffin concludes with Toni Morrison embracing the South as a site of African American history and culture a place to be redeemed **The Month**, 1905 The Settlement of the American Continents C. Michael Barton, Geoffrey A. Clark, David R. Yesner, Georges A. Pearson, 2016-03-04

When many scholars are asked about early human settlement in the Americas they might point to a handful of archaeological sites as evidence Yet the process was not a simple one and today there is no consistent argument favoring a particular scenario for the peopling of the New World This book approaches the human settlement of the Americas from a biogeographical perspective in order to provide a better understanding of the mechanisms and consequences of this unique event It considers many of the questions that continue to surround the peopling of the Western Hemisphere focusing not on sites dates and artifacts but rather on theories and models that attempt to explain how the colonization occurred Unlike other studies this book draws on a wide range of disciplines archaeology human genetics and osteology linguistics ethnology and ecology to present the big picture of this migration Its wide ranging content considers who the Pleistocene settlers were and where they came from their likely routes of migration and the ecological role of these pioneers and the consequences of colonization Comprehensive in both geographic and topical coverage the contributions include an explanation of how the first inhabitants could have spread across North America within several centuries the most comprehensive review of new mitochondrial DNA and Y chromosome data relating to the colonization and a critique of recent linguistic theories Although the authors lean toward a conservative rather than an extreme chronology this volume goes beyond the simplistic emphasis on dating that has dominated the debate so far to a concern with late Pleistocene forager adaptations and how foragers may have coped with a wide range of environmental and ecological factors It offers researchers in this exciting field the most complete summary of current knowledge and provides non specialists and general readers with new answers to the questions surrounding the origins of the first Americans Vodou in Haitian Memory Celucien L. Joseph, Nixon S. Cleophas, 2016-05-12

Throughout Haitian history from 17th century colonial Saint Domingue to 21st century postcolonial Haiti arguably the Afro Haitian religion of Vodou has been represented as an unsettling faith and a cultural paradox as expressed in various forms and modes of Haitian thought and life including literature history law politics painting music and art Competing voices and conflicting ideas of Vodou have emerged from each of these cultural symbols and intellectual expressions The Vodouist

discourse has not only pervaded every aspect of the Haitian life and experience it has defined the Haitian cosmology and worldview Further the Vodou faith has had a momentous impact on the evolution of Haitian intellectual aesthetic and literary imagination comparatively Vodou has shaped Haitian social ethics sexual and gender identity and theological discourse such as in the intellectual works and poetic imagination of Jean Price Mars Dantes Bellegarde Jacques Roumain Jacques Stephen Alexis etc Similarly Vodou has shaped the discourse on the intersections of memory trauma history collective redemption and Haitian diasporic identity in Haitian women s writings such as in the fiction of Edwidge Danticat Myriam Chancy etc The chapters in this collection tell a story about the dynamics of the Vodou faith and the rich ways Vodou has molded the Haitian narrative and psyche The contributors of this book examine this constructed narrative from a multicultural voice that engages critically the discipline of ethnomusicology drama performance art anthropology ethnography economics literature intellectual history philosophy psychology sociology religion and theology Vodou is also studied from multiple theoretical approaches including queer feminist theory critical race theory Marxism postcolonial criticism postmodernism and psychoanalysis

No More Heroes
Lydia R. Cooper, 2011-05-03 Critics often trace the prevailing mood of despair and purported nihilism in the works of Cormac McCarthy to the striking absence of interior thought in his seemingly amoral characters In *No More Heroes* however Lydia Cooper reveals that though McCarthy limits inner revelations he never eliminates them entirely In certain crucial cases he endows his characters with ethical decisions and attitudes revealing a strain of heroism exists in his otherwise violent and

apocalyptic world Cooper evaluates all of McCarthy's work to date carefully exploring the range of his narrative techniques. The writer's overwhelmingly distant omniscient third person narrative rarely shifts to a more limited voice. When it does deviate however revelations of his characters consciousness unmistakably exhibit moral awareness and ethical behavior. The quiet internal struggles of moral men such as John Grady Cole in the Border Trilogy and the father in *The Road* demonstrate an imperfect but very human heroism. Even when the writing moves into the minds of immoral characters McCarthy draws attention to the characters humanity forcing the perceptive reader to identify with even the most despicable representatives of the human race. Cooper shows that this rare yet powerful recognition of commonality and the internal yearnings for community and a commitment to justice or compassion undeniably exist in McCarthy's work. *No More Heroes* directly addresses the essential question about McCarthy's brutal and morally ambiguous universe and reveals poignant new answers.
