Mans Subtle Bodies And Centres:

Man's Subtle Bodies and Centres Omraam Mikhaël Aïvanhov, 2013-09-16 Presentation A concise and practical topography Beyond the five senses adapted to the physical plane there are other components that constitute us and which allow us to come into contact with the subtle invisible planes thus participating in the expansion of our consciousness For thousands of years men have worked to multiply and amplify the sensations and perceptions entering their consciousness through their five senses and it is this play on the keyboard of the senses that they call civilization and culture Well is this not rather meagre However much we cultivate and refine our five senses they will always be severely limited in scope for they belong to the physical plane they will never be capable of exploring any reality above or beyond the physical Until human beings recognize that there are other areas that invite exploration other dimensions to see touch and breathe they will never experience new richer more far reaching or subtler sensations Each of our organs is specialized it has its own particular function to perform and it can convey only its own particular type of sensation In order to experience other new sensations we must call into play those other subtler organs and centres which we all possess Omraam Mikhaël Aïvanhov Table of contents 1 Human Evolution and the Development of the Spiritual Organs 2 The Aura 3 The Solar Plexus 4 The Hara Centre 5 Kundalini Force 6 The Chakras I The Chakra System 1 The Chakra System 2 II Ajna and Sahasrara **Man's Subtle Bodies and Centres** Omraam Mikhaël Aïvanhov, 1988 *Radionics & The Subtle Anatomy Of Man* David V Tansley, 2011-05-31 Radionics is defined as a method of diagnosis and therapy which is primarily concerned with the utilization of subtle force fields and energies for the purpose of investigating and combating the causes of disease which ravage humanity and the other kingdoms of nature But in examining the history and development of radionics from the pioneering work of Dr Albert Abrams and Ruth Drown to the latest experimental work at the de la Warr Laboratories David Tansley discovered a curious paradox In literature on the subject and in the rare books which provide the very core of radionic therapeutic measures there are plenty of references to man's physical organic systems but little regarding the probability of underlying force fields which might govern and determine the health of the physical form This book represents an informed endeavour to redress the balance by providing a simple yet practical outline of the subtle anatomy of man The theory is not new Abrams diagnosed at a distance and Drown treated absent patients David Tansley believes that the time is ripe for radionics to bear witness to an energy field of a more subtle nature that is in fact its innate purpose Unfolding Consciousness Edi Bilimoria, 2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth Presented in three volumes plus volume IV contains references resources further reading they reveal the unity of the Eastern and Western branches of our perineal wisdom Bilimoria shows how science seeks truth using a synthesis of both traditions Evidence from a wide range of sources scientific medical philosophical religious and cultural is put forward to argue the case that humans are spiritual

beings primarily and not merely complicated biological machines Bilimoria teaches that consciousness is not the product of matter but the primary element from which all else emanates This process and its underlying mechanisms are described in detail with much clarity This work has over 2000 references and is supported by copious tables and diagrams plus individual chapter summaries and sidenotes to assist readers in navigating the multidimensional terrain traversed Key areas The scientific and esoteric worldviews compared and contrasted The ultimate promise of science The soft and hard problems of consciousness How external input to the physical senses results in an internal subjective experience Quantum physics its contribution to a new scientific paradigm The Mystery Teachings of All Ages their worldwide unity and central message Wet computers and computers Is the brain no different in principle from a computer Death and after the transition and continuity of consciousness in other realms Paranormal phenomena and apparitions Subtle bodies Evolution and destiny Powers latent in human beings Divinity and the united message of all world religions The question of immortality The primacy of consciousness and the manner of its unfoldment from the unmanifest realms to the physical world Edi Bilimoria s guest appearance on the Shepherd Walwyn podcast series can be found on this link <https://shepherdwalwyn.com/edi-bilimoria> unfolding consciousness why sapolsky is wrong and how to get in tune with life Yoga Daren Callahan,2015-01-28 Millions of people practice some form of yoga but they often do so without a clear understanding of its history traditions and purposes This comprehensive bibliography designed to assist researchers practitioners and general readers in navigating the extensive yoga literature lists and comments upon English language yoga texts published since 1981 It includes entries for more than 2 400 scholarly as well as popular works manuals original Sanskrit source text translations conference proceedings doctoral dissertations and master s theses Entries are arranged alphabetically by author for easy access while thorough author title and subject indexes will help readers find books of interest *What the Future of Humanity Could Be!* Carmen Froment,2012-11-29 Do you wonder where the world is going Do you feel like the only stability left is change Why are we here and where do we go from here In this book we explore key aspects such as politics economy education art nature the role of women motherhood etc and bring them under the light of the Initiatic understanding of renowned Initiates Sages and great Masters particularly Omraam Mikhal Avanhov Humanity is coming to the end of an era of materialization and is at the threshold of a new era one of spiritualization We are at a crossroads Our awakening and cooperation as a global family a universal family are the surest way to face the twenty first century This book is an opportunity to see with new eyes with a new consciousness The future can be harmonious and glorious May we open up go within and explore our inner riches the ones deposited by the Creator in the depth of our soul The exercises of visualization and affirmation at the end of each chapter are a way to uplift your consciousness to a new realm that of universal love and cosmic light Enjoy I am frequently asked in lectures and seminars Who today is a believable genuine spiritual teacher Now I can answer without hesitation Encounter Omraam Mikhal Avanhov and see what happens Dr Larry Dossey Recovering the Soul Beyond Illness Meaning and
