Skills in Existential Counselling & Psychotherapy Emmy van Deurzen, Martin Adams, 2016-05-16 This is the definitive practical introduction to a skills based approach in existential therapy Accessible for those without a philosophical background it describes the concrete and tangible skills tasks and interactions of existential practice It covers the theoretical background and history of existential therapy along with taking a phenomenological approach to practice and individual clients This second edition has been thoroughly updated to reflect recent thinking and expanded to include A new chapter on the applications of existential therapy in wider contexts such as supervision and coaching A new chapter covering professional issues and challenges such as working in the NHS engaging with research and the use of the Internet in existential therapy A companion website which includes video content featuring the authors explaining each chapter s underpinning theory and demonstrating the principles in practice A much needed resource for trainees as well as experienced practitioners keen to expand their knowledge the authors make the existential approach accessible to all those who wish to find out what it has to offer Descended from Darwin Joe Cain, Michael Ruse, 2009 This vol has its origins in a conference held October 22 23 2004 at the Amer Philosophical Society APS Library Phila The main focus was on evolutionary studies in America before during and after the famous synthesis period of the 1930s and 1940s The synthesis period has been the focus of substantial new research and important new thinking This vol brings together 15 specialists to explore these developments and to press further Questions shaping these essays focus on the following broad themes Continuity and breaks across generations Emerging narratives for the period New research opportunities at the APS New ideas from the research front Placing evolutionists in the broader context of biology and Future directions Also includes a thoughtful intro by Michael Ruse **Working With Men For Change** Jim Wild., Wild, Jim, 2012-11-12 This is a work that reflects the growing interest in issues relating to men and masculinities This diverse collection by a team of contributors analyzes the composition and representation of masculine identities Combining research with theory and strategies for activism the work promotes practical ways of working with men to achieve change Intentionally designed as a handbook it provides effective and practical information for professionals in social welfare settings trainers and activists in the community as well as individual men who have their own personal agenda for change **Consumer Research** Morris B. Holbrook, 1995-06-09 This collection of essays provides a personal thought provoking and often humorous documentation of the evolution of the field of consumer research The book highlights aspects of hotly debated issues that surround this field of inquiry and presents a picture of how consumer research has grown and developed over the past 25 years Simple Heuristics that Make Us Smart Gerd Gigerenzer, Peter M. Todd, ABC Research Group, 2000-10-12 Simple Heuristics That Make Us Smart invites readers to embark on a new journey into a land of rationality that differs from the familiar territory of cognitive science and economics Traditional views of rationality tend to see decision makers as possessing superhuman powers of

reason limitless knowledge and all of eternity in which to ponder choices To understand decisions in the real world we need a different more psychologically plausible notion of rationality and this book provides it It is about fast and frugal heuristics simple rules for making decisions when time is pressing and deep thought an unaffordable luxury These heuristics can enable both living organisms and artificial systems to make smart choices classifications and predictions by employing bounded rationality But when and how can such fast and frugal heuristics work Can judgments based simply on one good reason be as accurate as those based on many reasons Could less knowledge even lead to systematically better predictions than more knowledge Simple Heuristics explores these questions developing computational models of heuristics and testing them through experiments and analyses It shows how fast and frugal heuristics can produce adaptive decisions in situations as varied as choosing a mate dividing resources among offspring predicting high school drop out rates and playing the stock market As an interdisciplinary work that is both useful and engaging this book will appeal to a wide audience It is ideal for researchers in cognitive psychology evolutionary psychology and cognitive science as well as in economics and artificial intelligence It will also inspire anyone interested in simply making good decisions

Philosophical Dimensions of Personal Construct Psychology Bill Warren, 2002-09-11 This book traces the philosophical history of Personal Construct Psychology through the broad and complex tradition of phenomenology and thinkers such as Spinoza Hegel and Heidegger The author also gives credit to the influence of general creative and dramatic literature across a variety of cultures Specific issues addressed in depth include the position of Personal Construct Psychology with regard to philosophy of science determinism and free will concepts of mental illness and the implications for social and political philosophy

Ancient Egypt and Modern Psychotherapy Todd Hayen, 2016-12-19 In *Ancient Egypt and Modern Psychotherapy* Todd Hayen explores what the spiritual concepts of the enigmatic ancient Egyptians can teach us about our own modern psyches and the pursuit of a meaningful life Hayen examines the ancient Egyptians possession of a concept contemporary academics have labeled consciousness of the heart an innate knowledge of the entirety of the universe While all human beings possess this consciousness of the heart our modern culture has largely lost the ability to tap into this inborn knowledge By examining the material accomplishments of ancient Egypt and how their seemingly deeper awareness of their inner world created a harmonious outer world we can begin to understand how modern psychotherapy through a Jungian perspective could be instrumental in achieving a more profound and meaningful personal experience of life *Ancient Egypt and Modern Psychotherapy* will be insightful reading for analytical psychologists in practice and in training Jungian psychotherapists and psychologists and academics and students of Jungian and post Jungian studies and ancient spirituality

Haunting and Spectrality in Neo-Victorian Fiction R. Arias, P. Pulham, 2009-11-27 Exploring the pervasive presence of the Victorian past in contemporary culture these essays use the trope of haunting and spectrality as a critical tool with which to consider neo Victorian works as well as our ongoing fascination with the Victorians combining original readings of well known novels with

engaging analyses of lesser known works **Innovation and the Arts** Piero Formica, John Edmondson, 2020-02-19 By dwelling on the need for the convergence of business innovation and the arts this book highlights the value of lowering the psychological organizational and institutional barriers that keep them apart For educators and practitioners this is an in depth discussion designed to stimulate awareness of the issues facing business education **The Refusal of Work** David Frayne, 2015-11-15 Paid work is absolutely central to the culture and politics of capitalist societies yet today's work centred world is becoming increasingly hostile to the human need for autonomy spontaneity and community The grim reality of a society in which some are overworked whilst others are condemned to intermittent work and unemployment is progressively more difficult to tolerate In this thought provoking book David Frayne questions the central place of work in mainstream political visions of the future laying bare the ways in which economic demands colonise our lives and priorities Drawing on his original research into the lives of people who are actively resisting nine to five employment Frayne asks what motivates these people to disconnect from work whether or not their resistance is futile and whether they might have the capacity to inspire an alternative form of development based on a reduction and social redistribution of work A crucial dissection of the work centred nature of modern society and emerging resistance to it The Refusal of Work is a bold call for a more humane and sustainable vision of social progress *Intuitive Cognition* Pritha Mukhopadhyay, Sharmistha Banerjee, Ishita U. Bharadwaj, 2025-06-30 This book is an exhaustive and evidence based introduction to the concepts of intuitive cognition It focuses on the foundations of intuitive and other forms of cognition how it allows the integration of new information with existing knowledge along with their applications in diverse fields like business teaching marketing and education The book examines the co existence of intuition with deliberate information processing and defines the applicability of intuitive cognition from a multidisciplinary approach What role does intuition play in driving effort sensory experience choices or in taking risks And how can a greater understanding of intuitive cognition help with decision making understanding customers or patients and understanding student needs It explores the efficacy of the unconscious and other forms of cognition across multiple domains such as creative art education organization business and finance neuro marketing artificial intelligence and spirituality This volume will be useful for scholars and researchers of psychology neuroscience cognitive psychology cognitive sciences education organizational behaviour management studies philosophy and literature *Leadership is a Matter of Life and Death* A. Carr, Cheryl A. Lapp, 2006-04-27 This work offers a psychodynamic insight into Thanatic behaviours and considers the implications for organizational studies To further inform organizational leadership theory and praxis there is a requirement to uncover the origins of these destructive behaviours which the authors believe reside in the realm of the unconscious Communication, Relationships and Practices in Virtual Work Long, Shawn, 2010-06-30 This book provides exploration of the opportunities benefits and costs associated with virtual work addressing several communicative relational and practical issues associated with virtual work Provided by publisher **A Matter of Life and Death** Rosalind

Bradley,2016-08-18 This book brings together contributors from different backgrounds including a Holocaust survivor and a death row inmate to explore perspectives on death Each contributor offers commentary on a written or visual work that best expresses death to them A meaningful volume for the bereaved and those working in bereavement or spirituality A

Frame Analysis, Critical Theory, and English Language Teaching Robert J. Lowe, 2025-08-18 In this book Robert J Lowe introduces frame analysis a qualitative research

approach grounded in the critical theory of the early Frankfurt School and framing in the social sciences Lowe sets out the principles of the frame analysis approach and provides a guide to conducting this kind of research in practice Focused on identifying and challenging ideology through immanent critique Lowe presents a methodological guide and research report He begins by explaining early critical theory and the frame analysis approach followed by a detailed example of its application This example illustrates the key stages identifying participants ideological presuppositions through their master framing questioning the internal logic of this framing and presenting contradictions to participants Finally the researcher observes reactions and documents emerging counter framing marking the first signs of resistance to dominant ideology By applying this approach to issues in English language teaching the book questions some of the ways in which the rhetoric of pluralism and diversity around English as an international language may stand at odds with the realities of a world in which some varieties of the language have more prestige than others Through the frame analysis approach the author suggests that researchers can play a role in empowering language learners and users to advocate for a world in which they can take true ownership of the language Key reading for all qualitative researchers and advanced students in applied linguistics sociolinguistics ELT TESOL and linguistic anthropology
