From Boys to Men Tamara Shefer, 2007 The current emphasis in research and education on women and girls is fraught with problems It has raised a concern that boys and men should be included in research and intervention work on gender equality and transformation As a result academics with a background of many years of work in women's and gender studies undertook a research project focusing on the construction of masculinities among young men From Boys to Men was born out of this project This highly original work arises from the conference From Boys to Men held in January 2005 It represents the work of some of the best known theorists and researchers in masculinities and feminism in South Africa on the continent and internationally The subjects covered are based on rich ethnographic studies mostly in South Africa but also elsewhere in Africa Acknowledging that there are multiple versions of masculinity and that some are more valued than others this book is concerned with documenting both hegemonic discourses on masculinity as well as resistances and challenges to dominant forms of being a boy or man in different contexts of space and time From Boys to Men provides valuable material for those working with issues of gender identity and power and will sharpen understanding of males inform community based interventions and facilitate theory building This impressive collection of research on men boys and masculinities would have been impossible just a generation ago It took the worldwide impact of the women's liberation movement and the many feminisms that have since developed to bring gender into focus and to bring men into focus as participants in a gender system Raewyn Connell Professor at the University of Sydney author of *Masculinities* 1995 Given the extant paucity of research and literature on masculinities this book will undoubtedly prove to be an invaluable resource for scholars in the field of gender studies The editors of the volume should be commended for this timely well constructed and significant contribution to the literature on masculinities studies both in South Africa and internationally Norman Duncan Chair of Psychology University of the Witwatersrand Setting this collection apart from existing scholarship on masculinities in South Africa is its interrogation of the gendered rhetoric of boyhood and manhood in the context of HIV Aids This is a multilayered and rich collection that

**Numen, Old Men** Joseph Gelfer,2016-09-17 Since the early 1990s there have been various movements designed to encourage masculine spirituality All these movements share a concern that spirituality has become too feminine and that men s experiences of the spiritual are being marginalized The task of masculine spirituality is to promote authentic masculine characteristics within a spiritual context Numen Old Men examines these characteristics to argue that masculine spirituality is thinly veiled patriarchy The

mythopoetic evangelical and Catholic men's movements are shown to promote a hetero patriarchal spirituality by appealing to either combative and oppressive neo Jungian archetypes or biblical models of man as the leader of the family Numen Old Men examines spiritualities that aim to honour and transcend both the masculine and feminine and offers gay spirituality as an example of masculine spirituality that resists patriarchy *Rhetoric of Masculinity* Donnalyn Pompper, 2022-01-31

*Rhetoric of Masculinity* Male Body Image Media and Gender Role Stress Conflict lends depth and global nuance to discourse associated with the masculinity concept as it brings to bear on males self image role in society media representations of them and the gender role stress conflict experienced when they fail to measure up to social standards associated with what it means to be manly Even though the concept of masculine gender role stress conflict has received substantial scholarly attention in psychology social learning effects of masculinity as it plays out in media warrant further study given that representations offer audiences restrictive male gender roles that may contribute to toxic masculinity Men and boys are taught to be self sufficient to act tough to be muscular heterosexual and to use aggression to resolve conflicts Such contexts provide restrictive images that can result in self harm and an inflexible social milieu Scholars and students of communication rhetoric and gender studies will find this book particularly interesting
