Industries and Wealth of Nations Michael George Mulhall, 1896 Politics in Color and Concrete Krisztina Fehérváry, 2013-09-16 A historical anthropology of material transformations of homes in Hungary from the 1950s to the 1990s Material culture in Eastern Europe under state socialism is remembered as uniformly gray shabby and monotonous the worst of postwar modernist architecture and design Politics in Color and Concrete revisits this history by exploring domestic space in Hungary from the 1950s through the 1990s and reconstructs the multi textured and politicized aesthetics of daily life through the objects spaces and colors that made up this lived environment Krisztina Fehérváry shows that contemporary standards of living and ideas about normalcy have roots in late socialist consumer culture and are not merely products of postsocialist transitions or neoliberalism This engaging study decenters conventional perspectives on consumer capitalism home ownership and citizenship in the new Europe A major reinterpretation of Soviet style socialism and an innovative model for

Hungary C.A. Macartney, 2017-07-12 After the Hungarian Revolution in November 1956 the entire world became aware of the Hungarians the independent people who defied the might of Soviet Russia in defense of their national freedom and traditions However though Hungary was acknowledged for centuries as the bulwark of Europe and Christianity against the East the lively history of the country and its people has otherwise been unfamiliar to Westerners Written by C A Macartney who is long recognized as an authority in the Western world on the history of Hungary and who has been personally familiar with Hungarian problems of the past few decades this book introduces Hungary to a Western audience Few know that the revolution of 1956 is characteristic of many other struggles in the 1 000 years of the nation s past Few know that the name of Hungary has been coupled with the word of freedom in many crucial moments of Western history This unfamiliarity results partly because Hungary lies in a remote and seldom visited quarter of Europe but also because its language is strange and difficult not of familiar European origin Most of the material heretofore available on the history of Hungary has come to readers through the distorting media of foreign languages and foreign sympathies Macartney tells the story tersely combining a superbly readable and exciting style with meticulous scholarship while displaying an unusual sense for narrative and acute perception into character The book contains thirty nine illustrations of people places and objects that further illuminate the text From Arpbd who in the ninth century led the nomad Magyars out of a desperate crisis in the east and into the Danube Basin to the ill fated revolution of 1956 and Janos Kadar and the People s Republic this is the fascinating history of a great country and a people resistant to tyranny and invasion
