*Mantegna and Painting as Historical Narrative* Jack M. Greenstein, 1992-06 In this study Jack M Greenstein draws on Early Renaissance art theory modern narratology translation studies critical theory the philosophy of history and biblical hermeneutics to explicate the sense and significance of one of Andrea Mantegna s most enigmatic and influential works the Uffizi Circumcision of Christ Faced with a work that resists established methods of iconographical analysis Greenstein reassesses the nature and goals of high humanist narrative painting The result is a new historically grounded theory of iconography that calls into question many widely held assumptions about the social and intellectual value of Early Renaissance art Greenstein s theory rests on a careful analysis of Leon Battista Alberti s commentary On Painting which equated both the form and the content of artistically composed painting with historia Situating this equation within a centuries old discourse on the multivalent significance of the Bible Greenstein shows that for Alberti historia was a mode of artistic narrative common to literature and painting in which moral truths were presented to the corporeal senses particularly to vision in the guise of plausible human actions In Greenstein s reading the painter s primary task was the construction of a visually plausible narrative that effectively conveyed the higher meanings of historia Having thus delineated the structure of significance in Albertian painting Greenstein shows what was at stake when a painter of Mantegna s historical bent undertook to produce a historia As one of the leading historical thinkers of his age Mantegna imbued his depicted scenes with the plausibility of historical events by employing those codes of evidence causality and historical distance that underlay the Renaissance sense of the past But the Circumcision of Christ resisted such treatment because the symbolic conventions developed by earlier artists for conveying the higher theological meanings of the theme were incompatible with the representational fidelity embraced by painters of historia Mantegna overcame these difficulties by arriving at a new understanding of the Circumcision which remained faithful to the narrative structure as well as the theological content of the biblical account His interpretation was widely adopted by later artists but was so pictorial in nature that despite its consistency with the biblical account it remained with out parallel in theological literature Greenstein s discovery that artistic production of Albertian painting was a specialized and singularly visual form of thinking whose roots lay more in readerly hermeneutics than in perception commerce or common visual experience raises questions about narrative representation and the textuality of art that will interest a wide array of scholars

**The Uses of History in Early Modern England** Paulina Kewes, 2006-11-15 Publisher Description [The Perfect Genre. Drama and Painting in](#)

[Renaissance Italy](#) Kristin Phillips-Court, 2016-12-05 Proposing an original and important re conceptualization of Italian Renaissance drama Kristin Phillips Court here explores how the intertextuality of major works of Italian dramatic literature is not only poetic but also figurative She argues that not only did the painterly gaze so prevalent in fifteenth and sixteenth century devotional art portraiture and visual allegory inform humanistic theories practices and themes it also led prominent

Italian intellectuals to write visually evocative works of dramatic literature whose topical plots and structures provide only a fraction of their cultural significance Through a combination of interpretive literary criticism art historical analysis and cultural and intellectual historiography Phillips Court offers detailed readings of individual plays juxtaposed with specific developments and achievements in the realm of painting Revealing more than historical connections between artists and poets such as Tasso and Giorgione Mantegna and Trissino Michelangelo and Caro or Bruno and Caravaggio the author locates the history of Renaissance art and drama securely within the history of ideas She provides us with a story about the emergence and eventual disintegration of Italian Renaissance drama as a rigorously philosophical and empirical form Considering rhetorical philosophical ethical religious political ideological and aesthetic dimensions of each of the plays she treats Kristin Phillips Court draws our attention to the intermedial conversation between the theater and painting in a culture famously dominated by art Her integrated analysis of visual and dramatic works brings to light how the lines and verses of the text reveal an ongoing dialogue with visual art that was far richer and more intellectually engaged than we might reconstruct from stage diagrams and painted backdrops

*The Agency of Female Typology in Italian Renaissance Paintings* Edward J. Olszewski, 2023-06-30 This study employs cognitive theory as a heuristic framework to interrogate the agency of female types in select Italian Renaissance paintings with emphasis on Venus Medusa the Amazon Boccaccio's Lady Fiammetta Cleopatra Susanna the Magdalene and the Madonna The study disrupts assumptions about the identity of sitters and readings of paintings as it challenges paradigms of female representation It interrogates why certain paintings were crafted by whom and for whom Works are placed in the context of meta painting with stress on the cognitive decisions negotiated between patron and artist The ludic aspects of several paintings are examined with a fine grain semiotic approach to expand their iconographies Psychoanalytic readings are unpacked based on the flawed mythological metaphors and incomplete clinical studies of Sigmund Freud's theorizing The rubric of female agency is deliberately selected to unify popular but enigmatic master paintings of disparate subjects

*The Creation of Eve and Renaissance Naturalism* Jack M. Greenstein, 2016-08-23 Depicting the Creation of Woman presented a special problem for Renaissance artists The medieval iconography of Eve rising half formed from Adam's side was hardly compatible with their commitment to the naturalistic representation of the human figure At the same time the story of God constructing the first woman from a rib did not offer the kind of dignified affective pictorial narrative that artists patrons and the public prized Jack M Greenstein takes this artistic problem as the point of departure for an iconographic study of this central theme of Christian culture His book shows how the meaning changed along with the form when Lorenzo Ghiberti Andrea Pisano and other Italian sculptors of the fourteenth and fifteenth centuries revised the traditional composition to accommodate a naturalistically depicted Eve At stake Greenstein argues is the role of the artist and the power of image making in reshaping Renaissance culture and religious thought

**Renaissance and Baroque Art** Leo Steinberg, 2021-02 Leo Steinberg was one of the most original art

historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg's perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume begins and ends with thematic essays on two fundamental precepts of Steinberg's art history how dependence on textual authority mutes the visual truths of images and why artists routinely copy or adapt earlier artworks In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna Filippo Lippi Pontormo El Greco Caravaggio Steen and finally Velázquez Four chapters are devoted to some of Velázquez's best known paintings ending with the famously enigmatic *Las Meninas* Renaissance and Baroque Art is the third volume in a series that presents Steinberg's writings
