La responsabilidad civil en cirugía plástica

Christian M. Sepúlveda Videla, 2024-04-17 El propósito del presente libro es hacer una revisión de la jurisprudencia y doctrina sobre cirugía plástica en Chile. Además se realiza una análisis compendioso de la jurisprudencia y doctrina de España, Francia y Argentina. En este trabajo se sustenta la tesis recurriendo a argumentos originales extraídos de la ciencia médica y del ámbito jurídico de que no resulta posible sostener al menos como regla general de que en el ámbito de la Cirugía Plástica los médicos deban responder en base a obligaciones de resultado atendido que los actos propios de esta disciplina aparecen condicionados en el estado actual de la medicina por una serie de elementos de naturaleza estética cuyo control en muchos casos escapa de lo que puede exigirse a los galenos que actúan en esta área. Junto con lo anterior se elabora una nueva taxonomía de los daños estéticos y se plantea un novedoso enfoque respecto del consentimiento informado en el ámbito de la cirugía plástica estética proponiendo nuevas rutas a las que debiese extenderse el deber de información a los pacientes por parte de los galenos también recurriendo a los conocimientos técnicos provistos por la cirugía plástica. Se estima que este libro será de utilidad para abogados y médicos que deseen interiorizarse en la forma de afrontar conflictos jurídicos por mala praxis en el ámbito de la cirugía plástica.
