Television, Democracy, and the Mediatization of Chilean Politics Harry L. Simón Salazar, 2017-12-26 After seventeen years as dictator of Chile in 1990 Augusto Pinochet ceremoniously handed the presidential sash to the leader of his legal opposition to formalize the peaceful transition to civilian rule in that country Among the many idiosyncrasies of this extraordinary transfer of political power the most memorable is the month long nationally televised campaign of uncensored political advertising known as the Franja de Propaganda Electoral the Official Space for Electoral Propaganda Produced by Pinochet's supporters and the legal opposition the 1988 Franja campaign set out to encourage voters to participate in a plebiscite that would define the democratic future of Chile Harry L. Simón Salazar presents a valuable historical account new empirical research and a unique theoretical analysis of the televised Franja campaign to examine how it helped the Chilean people reconcile the irreconcilable and stabilize a contradictory relationship between what was politically implausible and what was represented as true and viable in a space of mediated political culture This contribution to the field of political communication research will be useful for scholars

students and a general public interested in Latin American history and democracy as well as researchers of media communication theory and cultural studies Television Democracy and the Mediatization of Chilean Politics also helps inform a more critical understanding of contemporary hyper mediated political movements such as the Arab Spring Occupy Wall Street Black Lives Matter and the particularly germane phenomenon of Trumpism *Library of Congress Catalog: Motion Pictures and Filmstrips* Library of Congress,1968 Movement, embodiment, kineseimiotics: Interdisciplinary approaches to movement-based communication Arianna Maiorani,John A. Flisfeder,L. Willis,2014-04-09 Film media and cultural theorists have long appealed to Lacanian theory in order to discern processes of subjectivization representation and ideological interpellation Here the contributors take up a Zizekian approach to studies of cinema and media raising questions about power ideology sexual difference and enjoyment *Ontohackers: Radical Movement Philosophy in the Age of Extinctions and Algorithms, Part II* Jaym\*/Jaime del Val,2025-05-27 Ontohackers redefines what movement worlds and bodies are through the sense of proprioception reconceptualized as formless fluctuation field a movement matrix that is itself also thought and which underlies all life forms and fields including the inorganic Our worlds are made of endless such entangled fields n folding in neverending variation or enference The current

planetary crisis has emerged due to an accidental evolutionary alignment narrowing and impoverishment of that matrix's indeterminacy that appeared gradually and eventually with bipedalism and which created an imbalance between the larger proprioceptive field and its brain and made the atrophied body extend itself technically in geometric fields gradually covering the planet along with its fears with disastrous consequences that are unleashing an unprecedented type of mass extinction and species suicide. The reply to this crisis which is urgently due if we are to reduce even slightly the collapse coming up over the next decades is in recovering a lost sensorimotor plasticity which is also cognitive affective and relational plasticity through developing movement techniques for cultivating Body Intelligence BI reversing and taking elsewhere the failed evolution culminating in AI stepping down from humanist supremacist pedestals undoing our dependency upon unsustainable killing machines of sedentary consumerism that impoverish experience stopping the reproduction of a species that has become plague by reversing heteronormative reproductive dogmas till we reach preagricultural population levels and recovering the joys of moving with the world in symbiotic mutation towards unprecedented evolutionary variations this is our cosmic responsibility for all life on Earth. The book's structure expresses Enfranchisement Theory with regard to how processes of becoming have a triple movement an incipency unfolding the field Part I a condensation expansion where the field acquires full consistency Part II and a resonance or memory of the field relating to other fields Part III Part II subtitled Revolution Technologies includes Books 4 5 and 6 and is by far the longest volume elaborating in depth the book's proposals in a triple movement. It first exposes the technologies of variation in nature Book 4 followed by the technologies of reduction in the Algoricene Book 5 and finally the possibilities for overcoming the reductive fold Book 6. Book 4 proposes a swarming chaosmology as theory of orgiastic evolution culminating in the concept of metabiosis life as indeterminate symbiotic mutation. Book 5 diagnoses the regimes that have formatted movement and presents the theory of the Algoricene or Age of Extinctions and Algorithms. It exposes a kinetic ontology genealogy and dynamics of power. An interlude discusses post trans and metahumanism and a second part of the book unfolds a radical critique of the Planetary Holocaust. Book 6 unfolds metaformance aesthetics and metahuman politics including the theory of metaformativity the ontohacking pragmatics and a choral Dionysian ontology where the author also discusses at length his own techniques and art projects involving a radical challenge to human supremacism to face the extinction challenge now threatening all life on Earth toward an Earth liberation and regeneration.
