Johnson-Laird, 2008-10-23 Good reasoning can lead to success bad reasoning can lead to catastrophe Yet it's not obvious how we reason and why we make mistakes so much of our mental life goes on outside our awareness In recent years huge strides have been made into developing a scientific understanding of reasoning This new book by one of the pioneers of the field Philip Johnson Laird looks at the mental processes that underlie our reasoning It provides the most accessible account yet of the science of reasoning We can all reason from our childhood onwards but how How we reason outlines a bold approach to understanding reasoning According to this approach we don't rely on the laws of logic or probability we reason by thinking about what's possible we reason by seeing what is common to the possibilities As the book shows this approach can answer many of the questions about how we reason and what causes mistakes in our reasoning that can lead to disasters such as Chernobyl It shows why our irrational fears may become psychological illnesses why terrorists develop crazy ideologies and how we can act in order to improve our reasoning The book ends by looking at the role of reasoning in three extraordinary case histories the Wright brothers use of analogies in inventing their flyer the cryptanalysts deductions in breaking the German's Enigma code in World War II and Dr John Snow's inductive reasoning in discovering how cholera spread from one

person to another Accessible stimulating and controversial How we Reason presents a bold new approach to understanding one of the most intriguing facets of being human

Why We Read Fiction Lisa Zunshine, 2006 Why We Read Fiction offers a lucid overview of the most exciting area of research in contemporary cognitive psychology known as Theory of Mind and discusses its implications for literary studies It covers a broad range of fictional narratives from Richardson's Clarissa Dostoyevski's Crime and Punishment and Austen's Pride and Prejudice to Woolf's Mrs Dalloway Nabokov's Lolita and Hammett's The Maltese Falcon Zunshine's surprising new interpretations of well known literary texts and popular cultural representations constantly prod her readers to rethink their own interest in fictional narrative Written for a general audience this study provides a jargon free introduction to the rapidly growing interdisciplinary field known as cognitive approaches to literature and culture

Bitter Music Harry Partch, 2000 Bitter Music collects writings by one of the twentieth century's great musical iconoclasts Rejecting the equal temperament and concert traditions that have dominated western music Harry Partch adopted the pure intervals of just intonation and devised a 43 tone to the octave scale which in turn forced him into inventing numerous musical instruments His compositions realize his ideal of a corporeal music that unites music dance and theater Winner of the ASCAP Deems Taylor Award Bitter Music includes two journals kept by Partch one while wandering the West Coast during the Depression and the other as he hiked the rugged northern California coastline It also includes Partch's essays on and discussions of his own compositions as well as librettos and scenarios for six major narrative dramatic works
