## **Nuns As Historians In Early Modern Germany:**

**Nuns as Historians in Early Modern Germany** Charlotte Woodford, 2002 The literary history of early modern German convents is a much neglected field Nuns writings were rarely printed and generally only read within their institution In this study the first to highlight the significance of this large body of writing Charlotte Woodford provides an overview of nuns literary activities in this period an examination of how the tradition of monastic history became established in convents and the variety of ways in which it permitted women to express their creativity Bringing together for the first time a significant collection of primary source material Nuns as Historians in Early Modern Germany also includes a number of illuminating case studies such as a biography of a fifteenth century visionary a prioress s diary and an abbess s chronicle from the Thirty Years War It also offers a valuable reassessment of Caritas Pirckheimer s memoirs written during the Reformation

**Female Monasticism in Early Modern Europe** Cordula van Wyhe, 2017-03-02 This volume of twelve interdisciplinary essays addresses the multifaceted nature of female religious identity in early modern Europe By dismantling the boundaries between the academic disciplines of history art history musicology and literary studies it offers new cross cultural readings essential to a more comprehensive understanding of the complexity of female spirituality in the sixteenth and seventeenth centuries Utilising a wide range of archival material encompassing art architecture writings and music commissioned or produced by nuns the volume s main emphasis is on the limitations and potentials created by the boundaries of the convent Each chapter explores how the personal and national circumstances in which the women lived affected the formation of their spirituality and the assertion of their social and political authority Consisting of four sections each dealing with different parts of Europe and discussing issues of spiritual and social identity such as Femininity and Sanctity Convent Theatre and Music Making Spiritual Directorship and Community and Conflict this compelling collection offers a significant addition to a thriving new field of study [Women and Gender in the Early Modern Low Countries, 1500 - 1750](#) Sarah Joan

Moran, Amanda C. Pipkin, 2019-05-07 Women and Gender in the Early Modern Low Countries 1500 1750 brings together research on women and gender across the Low Countries a culturally contiguous region that was split by the Eighty Years War into the Protestant Dutch Republic in the North and the Spanish controlled Catholic Hapsburg Netherlands in the South The authors of this interdisciplinary volume highlight women s experiences of social class as family members before the law and as authors artists and patrons as well as the workings of gender in art and literature In studies ranging from microhistories to surveys the book reveals the Low Countries as a remarkable historical laboratory for its topic and points to the opportunities the region holds for future scholarly investigations Contributors Martine van Elk Martha Howell Martha Moffitt Peacock Sarah Joan Moran Amanda Pipkin Katlijne Van der Stighelen Margit Th fner and Diane Wolfthal **Women and Early Modern Cultures of Translation** Hilary Brown, 2022 Women and Early Modern Cultures of Translation Beyond the Female Tradition is a major new intervention in research on early modern translation and will be an essential point of

reference for anyone interested in the history of women translators Research on women translators has often focused on early modern England the example of early modern England has been taken as the norm for the rest of the continent and has shaped research on gender and translation more generally This book brings a new European perspective to the field by introducing the case of Germany It draws attention to forty women who can be identified as translators in sixteenth and seventeenth century Germany and shows how their work does not fit easily into traditional narratives about marginalization and subversiveness The study uses the example of Germany to argue against reading the work of translating women primarily through the lens of gender and to challenge claims about the existence of a female translation tradition which transcends the boundaries of time and place Broadening our perspective to include Germany provides a more nuanced and informed account of the position of women within European translation cultures and forces us to rethink gender as a category of analysis in translation history The book makes the case for a new woman interrogated approach to translation history to borrow a concept from Carol Maier and as such it will provide a blueprint for future work in the area Provided by publisher
