Registered Nurse Anesthesia: Critical Care Nursing in the Operating Room, An Issue of Critical Care Nursing Clinics

Holly-May Robins, 2015-04-07 APRNs are essential to deliver healthcare in today's complex environment. Certified Registered Nurse Anesthetists have met that challenge for over 150 years. Nurse Anesthetists have shifted from the intensive care unit as critical care nurses into the operating room arena. The operating room is an environment that is uniquely challenging. A critical care background is essential to meet these challenges, and all Certified Registered Nurse Anesthetists share that experience. The topic, Certified Registered Nurse Anesthesia: Critical Care Nursing in the Operating Room, highlights critical care nursing as it is applied in the operating room setting. Critical care nurses will appreciate the knowledge base that is essential for the anesthetist. As healthcare reform demands greater efficiency, more and more procedures are performed outside the operating room. The line between the Operating Room, ICU, and Interventional Radiology will become less defined. Critical care nurses are and will be more involved in patient care while an anesthetic is administered. It is the goal of this proposed monograph to share knowledge and experience so that ICU nurses will learn more about caring for the anesthetized patient.

Survive Crna School Chris Mulder, 2016-08-25 If you ve made it into CRNA school or are considering applying you probably know how difficult it will be getting from orientation day to graduation day As a successful graduate of nurse anesthesia school I will provide some insight into what it takes to go from a student to a CRNA Some of these things I learned while I was in school while others I picked up on after I started working as a nurse anesthetist It was not an easy road for me and it won t be for you either But I hope you can learn from my mistakes and perhaps some of the bumps along the way will be a little smaller The aim of this book is not to teach you anesthesia itself Rather it is to teach you how to survive while learning the art of anesthesia
