Nurses And Doctors At Work:

Nurses and Doctors at Work Deidre Wicks, 1999 A new analysis of the relationship between nurses and doctors which offers a nuanced picture of the sexual division of labour in hospitals

Power and Conflict Between Doctors and Nurses Maureen A. Coombs, 2004-02-24 Through observations in three intensive care units this book draws on the reality of practice to explore how nurses and doctors work in intensive care settings It examines the power held by the competing knowledge bases the roles of the different professions the decision making process the sources of conflict the need for change Drawing together sociological theories and clinical practice **Power and Conflict Between Doctors and Nurses** explores the role of nurses in delivering contemporary health care It makes a strong case for interdisciplinary working and is particularly timely when health care policy is challenging work boundaries in health care

The Changing Shape of Nursing Practice Davina Allen, 2001 Six episodes of cynicism self preservation and bare faced cheek as Fletcher takes on the Slade prison system

Nurses' Clinical Decision Making Russell Gurbutt, 2018-12-13 This work includes a foreword by Carl Thompson Senior Research Fellow Department of Health Sciences University of York This inspiring text offers guidance and innovative ideas for teaching and learning It explains how nurses make clinical decisions through the development of narratives and how using narratives nurses gain a far more intimate knowledge of the patient than doctors can The book considers service delivery around patients renegotiation of professional roles of medical staff and their boundaries of responsibility and authority **Nurses Clinical Decision Making** will appeal to all undergraduate and postgraduate students of nursing registered nurses and nurse managers Nurse educators hospital managers doctors and healthcare risk managers will also find the information contained here invaluable If nurses are decision makers how can their role and practice be explained Can decision making be taught and are there different levels of decision making skill If so how can expert decision makers be recognised These are just some of the pertinent questions that need to be asked if we are to recognise and understand the centrality of clinical decision making in nursing practice Clinical work is complex and takes place in a complex environment that centres around individuals who themselves are physically socially and spiritually complex Clinical work also involves multiple participants nurses doctors patients physiotherapists occupational therapists pharmacists to name a few who in the course of a days work can make scores of decisions Russell Gurbutt in the Preface

Nursing against the Odds Suzanne Gordon, 2012-05-15 In the United States and throughout the industrialized world just as the population of older and sicker patients is about to explode we have a major shortage of nurses Why are so many RNs dropping out of health care s largest profession How will the lack of skilled experienced caregivers affect patients These are some of the questions addressed by Suzanne Gordon s definitive account of the world s nursing crisis In **Nursing against the Odds** one of North America s leading health care journalists draws on in depth interviews research studies and extensive firsthand reporting to help readers better understand the myriad causes of and possible solutions to the current crisis Gordon examines how health care cost cutting

and hospital restructuring undermine the working conditions necessary for quality care She shows how the historically troubled workplace relationships between RNs and physicians become even more dysfunctional in modern hospitals In Gordon s view the public image of nurses continues to suffer from negative media stereotyping in medical shows on television and from shoddy press coverage of the important role RNs play in the delivery of health care Gordon also identifies the class and status divisions within the profession that hinder a much needed defense of bedside nursing She explains why some policy panaceas hiring more temporary workers importing RNs from less developed countries fail to address the forces that drive nurses out of their workplaces To promote better care Gordon calls for a broad agenda that includes safer staffing improved scheduling and other policy changes that would give nurses a greater voice at work She explores how doctors and nurses can collaborate more effectively and what medical and nursing education must do to foster such cooperation Finally Gordon outlines ways in which RNs can successfully take their case to the public while campaigning for health care system reform that actually funds necessary nursing care
