Protecting and Promoting Good Nutrition in Crisis and Recovery Food and Agriculture Organization of the United Nations, 2005 Every year natural disasters, armed conflicts and other forms of crisis adversely affect the lives of millions of people in the developing world. In many countries, families are forced to abandon their homes, farms and villages; access to adequate food becomes difficult and hardship contributes to high rates of malnutrition. This book offers guidance to program planners and technicians in the fields of nutrition, food security, agriculture and community development in adopting a longer term perspective to addressing problems of household food insecurity and malnutrition during periods of crisis and recovery. It provides a framework for an implementation strategy that focuses on both saving lives in the short term and strengthening livelihood to ensure that households are less vulnerable to food and nutrition insecurity in the future.
