Ontario Hydro At The Millennium Has Monopolys Moment Passed:

Ontario Hydro at the Millennium Ronald Joel Daniels, 1996 Presents first hand information from employers on who gets hired and why based on a survey of some 3 000 employers in Atlanta Boston Detroit and Los Angeles Provides data on what jobs are available to the less educated what they pay and what skills they require examining the surge in suburban white collar jobs and deterioration in employment and earnings among less educated workers especially minorities and younger males Outlines measures for improving the job market such as training programs subsidies to private companies and incentives to draw industries back to the cities Annotation copyright by Book News Inc Portland OR *Canadian Nuclear Energy Policy* CRUISE Conference on the Future of Nuclear Energy in Canada (1999 : Ottawa, Ont.), 2001-01-01 Focusing on the federal government but with special attention given to key changes in Ontario the analytical core of this book identifies five key nuclear energy choices and challenges that face the federal government and other Canadian policy makers

Nuclear Waste Management in Canada Darrin Durant, Genevieve Fuji Johnson, 2010-07-01 As oil reserves decline and the environment becomes more prominent in public policy discussions the merits and dangers of nuclear power and nuclear waste management continue to be debated Canada is intent on building more reactors to increase energy production without harming the planet but it and other nuclear energy producing countries face not only technical problems but also social and ethical issues Nuclear Waste Management in Canada provides a critical counterpoint to the favourable position taken by government and industry The contributors build their case by exploring the following key issues and developments What do frequently used terms such as safety risk and acceptability really mean How and why did the public consultation process in Canada fail to address ethical and social issues What is the significance and potential of a public consultation process that involves diverse interests epistemologies and actors including Aboriginal peoples And how do we ensure that the frameworks for discussion are inclusive and ethical This collection is a timely antidote to the uncertainty ambiguity and ignorance that surrounds discussions about nuclear energy **Hydro** Jamie Swift, Keith Stewart, 2004 Nothing is going to go wrong Mike Harris 2001 Privatization of power soon became one of the biggest political disasters in Ontario history Hydro reveals a train wreck that was decades in the making First there was blind faith in the nuclear option steeped in ecological arrogance Then came the promise of marketplace magic Jamie Swift and Keith Stewart tell the tale of how it unfolded It s a dramatic story of the greed intrigue and resistance that led to the dismantling of Canada s largest crown corporation A crucial part of the story is how Ontario ignored thirty years of green arguments for conservation and renewable energy Based on interviews with former premiers Hydro insiders and grassroots activists Hydro will intrigue anyone wondering how to keep the lights on without frying the planet Divided Province Greg Albo, Bryan M. Evans, 2019-02-28 No government jurisdiction in Canada has so radically transformed its public policies over the past decades as Ontario and yet the province has also maintained a striking degree of political stability in its party system Since the 1990s neoliberalism has been the point of reference in

constructing policy agendas for all of Ontario's political parties. It has guided the strategy for governance of the dominant Liberal Party since 2003 even as it divides the province between workers and employers, north and south, rural and urban, and racialized minorities and the majority population. With a focus on the governments of Mike Harris, Dalton McGuinty, and Kathleen Wynne, *Divided Province* brings together leading researchers to dissect the province's public policies since the 1990s. Presenting original state-of-the-art research, the book demonstrates that although the Conservative government of Mike Harris implemented the sharpest and most profound shift towards the establishment of a neoliberal regime in the province, the subsequent Liberal governments consolidated that neoliberal turn. The essays in this volume explore the consequences of this ideological turn across a spectrum of policies including health, education, poverty, energy, employment, manufacturing, and how it has impacted workers, women, First Nations, and other distinct communities. The first book to offer a comprehensive critical account of neoliberalism in Ontario, *Divided Province* overturns conventional readings of the province's politics and suggests that building a more democratic and egalitarian alternative to the current orthodoxy requires nothing less than a radical rupture from existing policies and political alliances. Without such a decisive break, political space may well open up again for the populist right. *Negotiating a River* Daniel Macfarlane, 2014-03-01

It was a megaproject half a century in the making, a technological and engineering marvel that stands as one of the most ambitious borderlands undertakings ever embarked upon by two countries. The planning and building of the St. Lawrence Seaway and Power Project is one of the defining episodes in North American history. The project began with transnational negotiations that spanned two world wars and the formative years of the Cold War and included a failed attempt to construct an all-Canadian seaway which was scuttled by US national security fears. Once an agreement was reached, the massive engineering and construction operation began as did the efforts to move people and infrastructure away from the thousands of acres of land that would soon be flooded. *Negotiating a River* looks at the profound impacts of this megaproject from the complex diplomatic negotiations, political manoeuvring, and environmental diplomacy to the implications on national identities and transnational relations. *Current Affairs* Donald N. Dewees, Bryan William Karney, Douglas W. Reeve, 2010-01-01

Current Affairs brings together the views of a number of international experts on electricity and environment along with commentators familiar with Ontario's situation to begin a discussion of these issues. *Sustainability Assessment* Robert Gibson, 2016-08-12

Current and expanding human activities are moving us towards ever deeper unsustainability. While there is no single simple means of reversing the invidious biophysical trends and redirecting the distribution of benefits, one necessary step is to approach every new and renewed undertaking as an opportunity to deliver maximum, multiple, mutually reinforcing, fairly distributed, and lasting gains. Finding the best options for enhancing such gains by comparing alternatives, addressing all the key requirements for progress towards sustainability, and avoiding significant adverse effects is the essential purpose of sustainability assessment. This book addresses the theory and practice of sustainability assessment applications drawing from

experiences globally in a variety of sectors and presenting lessons learned. Diverse international case studies from professionals and academics demonstrate progress so far in exploring openings, testing approaches to application and establishing best practice. The book illustrates means of specifying generic sustainability criteria for the context of particular applications, reports on the resulting insights and examines the barriers and opportunities for further advances. This book is an important resource for students, academics and professionals in the areas of Governance, Environmental Assessment, Planning and Policy Making, Corporate Social Responsibility and Applied Sustainability.

Blue-green Province Mark Winfield, 2012. In *Blue Green Province*, Mark Winfield takes a long overdue look at the crucial relationship between Ontario's environmental policy and its politics and economy. Covering the period from the Progressive Conservative dynasty that dominated Ontario politics from the mid 1940s to the mid 1980s through the subsequent Peterson, Rae, Harris, Eves and McGuinty governments, Winfield offers a trenchant analysis of the effects on Ontario's environment and politics of these administrations' dramatically different ideologies. Timely and original, *Blue Green Province* is the first comprehensive study of environmental policy in Ontario. It will be welcomed by anyone with an interest in Ontario's environmental and economic future.

Uneasy Partnership Geoffrey Hale, 2018-01-25. The Canadian government's pursuit of economic growth is central to its economic policy and to the nature of its relationship with the business community. The government depends on business investment for economic growth vital to the prosperity of citizens, the generation of tax revenues and enough public satisfaction to win re-election. Businesses depend on the government for stable sets of rules that are necessary for success. They often look to governments for protection against threats to their well-being and for assistance in competing with other businesses. In this new edition of *Uneasy Partnership*, Geoffrey Hale examines the interdependent relationship between Canadian governments and businesses, considering the political role of the government in the economy and what effect this has on the business environment. Hale provides an overview of the historical dimensions of Canada's political economy and relations between government and business, giving readers background to consider topics such as corporate power, the implications of Canada's economic structure, regional economic differences and the role of interest groups in political and policy processes among others. In a thoughtful and well-researched style, Hale lays out how the partnership between business and government in Canada is an uneasy one and one whose capacity to adapt to ongoing changes is essential in an uncertain world.

Revue Canadienne Du Droit de Commerce, 2000. **Labour and Social Dimensions of Privatization and Restructuring**, 1998. The paper assesses the extent, modalities and effects of stakeholders' participation and also examines the impact of privatization and restructuring on employment levels and employment conditions, the working conditions of staff in the privatized organizations and of those remaining in state enterprises, retraining, redeployment and compensation schemes.
