The Columbia Guide to South African Literature in English Since 1945 Gareth Cornwell, Dirk Kloppe, Craig Mackenzie, 2010-04-13 From the outset South Africa s history has been marked by division and conflict along racial and ethnic lines From 1948 until 1994 this division was formalized in the National Party s policy of apartheid Because apartheid intruded on every aspect of private and public life South African literature was preoccupied with the politics of race and social engineering Since the release from prison of Nelson Mandela in 1990 South Africa has been a new nation in the making inspired by a nonracial idealism yet beset by poverty and violence South African writers have responded in various ways to Njabulo Ndebele s call to rediscover the ordinary The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored An invaluable guide for general readers as well as scholars of African literary history this comprehensive text celebrates the multiple traditions and exciting future of the South African voice Although the South African Constitution of 1994 recognizes no fewer than eleven official languages English has remained the country s literary lingua franca This book offers a narrative overview of South African literary production in English from 1945 to the postapartheid present An introduction identifies the most interesting and noteworthy writing from the period Alphabetical entries provide accurate and objective information on genres and writers An appendix lists essential authors published before 1945

Selected Poems William Wordsworth, 2004-07-29 One of the major poets of Romanticism Wordsworth epitomized the spirit of his age with his celebration of the natural world and the spontaneous expression of feeling This volume contains a rich selection from the most creative phase of his life including extracts from his masterpiece The Prelude and the best loved of his shorter poems such as Composed Upon Westminster Bridge Tintern Abbey I Wandered Lonely as a Cloud Lucy Gray and Michael Together these poems demonstrate not only Wordsworth s astonishing range and power but the sustained and coherent vision that informed his work

The Creative Crone Sylvia Henneberg, 2010 Henneberg shows how these writers offer radically different but richly complementary strategies for breaking the silence surrounding age Rich provides an approach to aging so strongly intertwined with other political issues that its complexity may keep us from immediately identifying age as one of her chief concerns On the other hand Sartre s direct treatment of aging sensitizes us to its importance and helps us see its

significance in such writings as Rich's *Meanwhile*. Rich's efforts to politicize age create stimulating contexts for Sarton's work. Henneberg explores elements of these writers' individual poems that develop themes of aging including imagery and symbol, the construction of a persona, and the uses of rhythms to reinforce the themes. She also includes analyses of their fiction and nonfiction works and draws ideas from age studies by scholars such as Margaret Morganroth Gullette, Kathleen Woodward, and Thomas Cole.
