Surrealist sabotage and the war on work Abigail Susik,2021-10-12 In Surrealist sabotage and the war on work art historian Abigail Susik uncovers the expansive parameters of the international surrealist movement's ongoing engagement with an aesthetics of sabotage between the 1920s and the 1970s demonstrating how surrealists unceasingly sought to transform the work of art into a form of unmanageable anti work In four case studies devoted to surrealism's transatlantic war on work Susik analyses how artworks and texts by Man Ray Andr Breton Simone Breton Andr Thirion scar Dom nguez Konrad Klapheck and the Chicago surrealists among others were pivotally impacted by the intransigent surrealist concepts of principled work refusal permanent strike and autonomous pleasure Underscoring surrealism's profound relevance for readers engaged in ongoing debates about gendered labour and the wage gap endemic over work and exploitation and the vicissitudes of knowledge work and the gig economy Surrealist sabotage and the war on work reveals that surrealism's creative work refusal retains immense relevance in our wired world

No Room for Mistakes Geirr H Haarr,2015-09-02 A highly readable and detailed account of British and Allied submarine warfare in north European waters at the beginning of World War II The early chapters describe prewar submarine development including technical advances and limitations weapons tactical use and life onboard and examine the men who crewed them and explore their understanding of the warfare that they would become involved in The core of the book is an account of the events as they unfolded in home waters from the outset of war to the end of 1940 by which time the majority of the Allied submarines were operating in the Mediterranean It is a story of success triumph failure and tragedy and it tells of the tremendous courage and endurance shown by a small group of men learning how to fight a new kind of war in claustrophobic sub sea vessels with

limited information about the enemy or what they would meet off the alien coasts to which they were heading Extensive primary sources are used to document the many aspects of this war some of which remain controversial to this day Max Horton Vice Admiral Submarines 1940 said There is no room for mistakes in submarines You are either alive or dead This book makes plain how right he was My favorite aspect of No Room for Mistakes is Haarr s extensive use of primary sources including diaries logs journals and photographs These materials help make the historical account of this period much more poignant and remind the reader of the high human cost of war at sea Naval War College Review **Don't Start Me**

Gods Walk in Shadows Robert W. Proctor,2008-07-21 Although some of Bob s stories are distinctly lighthearted much of his writing is infused with issues of violence and the darker nature of mankind as he experienced them in war and civil strife in many parts of the world And there is an underlying basically unspoken message in his writings Bob considers it a universal truth that one must examine every contour every edge every excrescence of the horrors of darkness and conflict Only then he believes will it be possible to truly appreciate enlightenment and compassion Book Reviews 5 Stars Perceptive tales of the quixotic third world no matter the setting True to real life the gods ordained few blissful endings in this compendium of stories centered on the quixotic third world Some of the stories indeed have no ending at all but leave the reader in agonized suspense Acrophobes will shiver at the prospect of the narrator stranded on a high rock in The Top as night falls in the desert and the cold air settles in Claustrophobes will wince at the underwater access to The Cave beneath a limestone karst in Laos The description of the Commandant at Kisangani in what was then Zaire is typical of officious persons of power who abound abroad The Commandant was subject to no laws except the law possessed by automatic weapons casually wielded by personal guards His French though passable was really a mlange of a Franco Belge patois and Lingala the prevailing language of the Congolese military throughout Zaire His reputation of cruelty and venality was no secret Many of the themes are dark Perhaps the darkest is the frightening raid by the Katmandu moral police on the Bibi Ghar While the police brutally beat a libertine his friend and co conspirator exercises the classic Chinese choice Of all the 36 alternatives running away is the best Many of the themes are dark Perhaps the darkest is the frightening raid by the Katmandu moral police on the Bibi Ghar While the police brutally beat a libertine his friend and co conspirator exercises the classic Chinese choice Of all the 36 alternatives running away is the best Thomas J Barnes 5 Stars I prefer Robert Proctor to James Bond Robert Proctor is a diplomat He has no license to kill He toodles around on a Honda motor bike But whether he is on a rescue in Zaire or awaiting a terrorist explosion at an ill concieved beauty contest Robert Proctor displays an uncommon bravery When he contemplates a letter from a woman whose heart he has broken the understanding he displays is profound Often his writing is funny as it is moving The best thing about his writing is it touches on the human condition the ability to be both senselessly cruel and bravely heroic Robert Proctor is no James bond he fumbles and falls He is human And I love his stories Sirena Gibson Scarlet New Mexico 4 Stars Tales of service and adventure It is not easy to be a diplomat but the lives of those who

are in the position of interpreting American life to the country to which they are assigned deserve the attention of those they represent Often they are on their own and often they are called on to do things that go far beyond their duty Sometimes these involve things of which they personally and professionally disapprove Bob Proctor s book is more than a personal reflection It is philosophically interesting and can help shape our understanding of diplomacy and what we can expect of it It is a call to personal and national integrity The book is well written intellectually honest It probably should be read by those who want to grow intellectually Bob reminds us time and again that he was trained as an English teacher and I must confess that even with my educational background I had to look up some words Still Chambers's Journal ,1913
