Open Marxism, Volume 3 Werner Bonefeld, Richard Gunn, John Holloway, Kosmas Psychopedis, 1995-06-01 The Politics of Unemployment Policy in Britain Jay Wiggan, 2024-07 Advancing a class centred approach this book provides an account of the evolution of social security and employment policy and governance in Britain between 1973 and 2023 Open Marxism Christos Memos, 2025-01-09 Bringing together the various heterodox traditions groups and scholars that came under the heading of Open Marxism for the first time this book assesses the evolution of Open Marxism from the initial usage of the term by Kostas Axelos in France in the 1950s and the journal Arguments principally the anarchist Marx of Maximilien Rubel and the Libertarian Marxism of Daniel Guérin through Open Marxism as it was developed in Eastern Europe especially in the scholarly work of Karel Kosík in Czechoslovakia the work of the Polish Open Marxists and the Praxis group in Yugoslavia to Johannes Agnoli's work in post 1968 West Germany and finally to the work developed by Bonefeld Clarke Gunn and Holloway within the framework of the Conference of Socialist Economists CSE in Britain since the 1980s Its comprehensive study of the historical development of Open Marxism in all its various guises and forms reasserts the rich insights of its devastating critique of social democracy Leninism Stalinism and the Althusserian structuralist paradigm It introduces a new readership to Open Marxism's negative fundamental and destructive critique of capitalism and examines the practical relevance of its subversive thinking to the contemporary struggle for a free and open socialist society Illusion and Fetishism in Critical Theory Vasilis Grollios, 2023-12-01 Through the negative dialectics of Theodore Adorno Illusion and Fetishism in Critical Theory offers an examination of Nietzsche Benjamin Castoriadis and the Situationists who put the concept of illusion at the forefront of their philosophical thought Vasilis Grollios argues that these political philosophers except Castoriadis have up to now been wrongly considered by many scholars to be far from the line of thinking of negative dialectics Critical Theory and the early Frankfurt School Open Marxist tradition He illustrates how these thinkers focused on the illusions of capitalism and attempted to show how capitalism by its innate rationale creates social forms that are presented as unavoidable and universal yet are historically specific and of dubious sustainability Providing a unique overview of concepts including illusion totality fetishization contradiction identity thinking and dialectics Grollios expertly reveals how their understanding of critique can help us open cracks in capitalism and radicalize democratic social practice today Illusion and Fetishism in Critical Theory is a must read for scholars of political theory and political philosophy critical theory the Frankfurt School sociology and democratic theory *Global Restructuring, State, Capital and Labour* A. Bieler, W. Bonefeld, P. Burnham, A. Morton, 2006-04-26 This book provides a critical engagement between contending historical materialist approaches that have played a crucial role in shaping post positivist International Relations theory It analyzes globalization as a process of state formation and argues that its fate depends on the neo liberal recomposition of labour relations Administering Civil Society M. Neocleous, 1996-10-29 To preserve social order the state must administer civil society with a threefold purpose

the fashioning of the market the constitution of legal subjectivity and the subsumption of struggle In Administering Civil Society Mark Neocleous offers a rethinking of the state civil society distinction through the idea of political administration This is achieved through an original reading of Hegel s Philosophy of Right and an insightful critique of Foucault s account of power and administration The outcome is a highly provocative theory of state power **Spaces of Political Pedagogy**

Cassie Earl,2018-02-21 This book examines three sites of pedagogical innovation all of which are explicitly activism against the current political and pedagogical climate Drawing on an interdisciplinary framework including autonomous Marxism post anarchy social movement theories and theories of critical pedagogy it examines social movements through a pedagogical lens and attempts to understand how connections can be made between social movement learning and other initiatives and forms of higher learning With studies of the London Occupy movement The Social Science Centre a co operative higher learning provider that practises popular education in city venues and a university politically opposing the student as consumer ethos Spaces of Political Pedagogy connects these various projects as a continuum of educational experimentation offering insights into the ways in which these sites practice pedagogy and the manner in which these practices could be implemented more widely to inform and improve struggles for wider social justice As such it will appeal to scholars of education and sociology with interests in pedagogy social movements and activism Marxism and Feminism

Shahrazad Mojab,2015-03-12 Global events from economic crisis to social unrest and militarization disproportionately affect women Yet around the world it is also women who are leading the struggle against oppression and exploitation In light of renewed interest in Marxist theory among many women activists and academics Marxism and Feminism presents a contemporary and accessible Marxist feminist analysis on a host of issues It reassesses previous debates and seeks to answer pressing questions of how we should understand the relationship between patriarchy and capitalism and how we can envision a feminist project which emancipates both women and society With contributions from both renowned scholars and new voices Marxism and Feminism is set to become the foundational text for modern Marxist feminist thought **The Alienated**

Academic Richard Hall,2018-08-25 Higher education is increasingly unable to engage usefully with global emergencies as its functions are repurposed for value Discourses of entrepreneurship impact and excellence realised through competition and the market mean that academics and students are increasingly alienated from themselves and their work This book applies Marx s concept of alienation to the realities of academic life in the Global North in order to explore how the idea of public education is subsumed under the law of value In a landscape of increased commodification of higher education the book explores the relationship between alienation and crisis before analysing how academic knowledge work identity and life are themselves alienated Finally it argues that through indignant struggle another world is possible grounded in alternative forms of organising life and producing socially useful knowledge ultimately requiring the abolition of academic labour This pioneering work will be of interest and value to all those working in the higher education sector as well as those concerned

with the rise of neoliberalism and marketization within universities **Against Value in the Arts and Education** Sam Ladkin, Robert McKay, Emile Bojesen, 2016-05-18 *Against Value in the Arts and Education* proposes that it is often the staunchest defenders of art who do it the most harm by suppressing or mollifying its dissenting voice by neutralizing its painful truths and by instrumentalizing its ambivalence The result is that rather than expanding the autonomy of thought and feeling of the artist and the audience art's defenders make art self-satisfied or otherwise an echo chamber for the limited and limiting self-description of people's lives lived in an audit culture a culture pervaded by the direct and indirect excrescence of practices of accountability This book diagnoses the counter-intuitive effects of the rhetoric of value It posits that the auditing of values pervades the fabric of people's work lives their education and increasingly their everyday experience The book uncovers figures of resentment disenchantment and alienation fostered by the dogma of value It argues instead that value judgments can behave insidiously and incorporate aesthetic ethical or ideological values fundamentally opposed to the value they purportedly name and describe The collection contains contributions from leading scholars in the UK and US with contributions from anthropology the history of art literature education musicology political science and philosophy

Autonomy Mr David Eden, 2012-10-28 *Autonomy Capital Class and Politics* explores and critiques one of the most dynamic terrains of political theory sometimes referred to as Autonomist Marxism or post-Operaismo This theory shot to prominence with the publication of *Empire* by Hardt and Negri and has been associated with cutting-edge developments in political and cultural practice yet there exists no work that critically examines it in its contemporary breadth Taking three divergent manifestations of Autonomist Marxism found in the works of Antonio Negri and Paulo Virno the *Midnight Notes* Collective and John Holloway David Eden examines how each approach questions the nature of class and contemporary capitalism and how they extrapolate politics Not only is such juxtaposition both fruitful and unprecedented but Eden then constructs critiques of each approach and draws out deeper common concerns Suggesting a novel rethinking of emancipatory praxis this book provides a much-needed insight into the current tensions and clashes within society and politics **Communism in the 21st Century** Shannon Kurt Brincat, 2013-12-12 A compelling three-volume exploration of the philosophical social and political facets of the theory and practice of communism within the conditions of 21st-century world politics and late capitalism The world has changed significantly and so has communism This groundbreaking three-volume series comprises contributions from over 30 experts that thoroughly address the past present and future of communism The entries assess the modern re-articulation of the notion of communism and its potential emergence against the backdrop of recent historical conditions and contemporary world politics taking into account the ongoing global financial crisis recent revolutions throughout the Middle East Occupy protest events and anti-globalization movements The first volume reexamines Marx's ideas from many distinct viewpoints while the second volume considers the numerous challenges facing existing communist parties including those in China Cuba North Korea and Vietnam The last volume explores the

future of communist thought and practice in the context of the modern world and the recurrent crises of capitalism

Autonomist Narratives of Disability in Modern Scottish Writing Arianna Introna, 2022-05-03 Autonomist Narratives of Disability in Modern Scottish Writing Crip Enchantments explores the intersection between imaginaries of disability and representations of work welfare and the nation in twentieth and twenty first century Scottish literature Disorienting effects erupt when non normative bodies and minds clash with the structures of capitalist normalcy This book brings into conversation Scottish studies disability studies and Marxist autonomist theory to trace the ways in which these crip enchantments are imagined in modern Scottish writing and the autonomist narratives of disability by which they are evoked

The Crisis of Social Reproduction Silvia Federici, Mariarosa Dalla Costa, Louise Toupin, 2025-01-21 In a series of interviews with Louise Toupin groundbreaking feminist thinkers Silvia Federici and Mariarosa Dalla Costa return to the movement they co founded in 1972 the International Feminist Collective The feminist collective originated the radical and controversial demand for wages for housework From these powerful roots they continue to explain how their political thinking developed over time formulating an intersectional critique of neoliberal capitalism with a crisis of social reproduction at its heart Change the World Without Taking Power John Holloway, 2019-03-20 This book is a profound search for a theory of social change Through clearing away the cobwebs of revolutionary socialism it renews the fight for the ending of capitalism and the construction of a new fairer world After a century of failed attempts by radical projects the concept of revolution itself is in crisis By asking the deepest questions about the nature of humanity work capitalism organisation and resistance John Holloway looks sharply at modern protest movements and provides tools for creating new strategies First published in 2002 this book marked a shift in the understanding of Autonomism Anarchism and Marxism addressing the doubts activists had in their own political history and work and helped form the perspectives of a new generation who are today changing the world *Studies in Political Economy*, 2002 None so Fit to Break the Chains: Marx's Ethics of Self-Emancipation Dan Swain, 2019-09-02 In None so Fit to Break the Chains Dan Swain offers an interpretation of Marx's ethics that foregrounds his commitment to working class self emancipation and argues for the continued relevance of this principle for contemporary politics Self emancipation is frequently overlooked in discussions of Marx's ethics but it deeply influenced his criticism of capitalism his approach towards an alternative and his conception of his own role as activist and theorist Foregrounding self emancipation offers new perspectives on existing debates in the interpretation of Marx such as the meanings of concepts like alienation exploitation and utopianism and can also offer broader insights into the relationship between critical theory and practice that have an enduring relevance today The Political Thought of John Holloway Alfonso García Vela, Alberto Bonnet, 2023-08-16 This book provides renewed reflection and critical discussion on John Holloway's political and theoretical thought Two decades ago in Change the World without Taking Power Holloway set out on a path that he followed a decade later in Crack Capitalism and continues to walk today with his

new book *Hope in Hopeless Times* The contributions in this volume critically analyze his innovative attempt to rethink the meaning and dynamics of revolution in the conditions of contemporary capitalism More than ten years after the publication of *Crack Capitalism* this volume aims to question Holloway's attempt as well as his theoretical foundations in his original rereading of Marxism and Critical Theory and their relations with the characteristics adopted by the anti capitalist struggles during the last two decades Its authors from different geographies traditions and scientific disciplines establish throughout its pages a fruitful dialogue convened by Holloway's innovative ideas
