Open Secret An Introduction To The Theology Of Mission:

The Open Secret Lesslie Newbigin, 1995-02-28 Aimed at bringing contemporary concerns in mission theology to a wide reading public this volume flows from Newbigin's extensive experience in the mission field and from lectures developed especially to prepare men and women for missionary service Newbigin describes the Christian mission as the declaration of an open secret open in that it is preached to all nations secret in that it is manifest only to the eyes of faith The result is a thoroughly biblical attempt to lead the church to embrace its Christ given task of presenting the gospel in our complex modern world This revised edition includes a helpful index and a new preface

The Open Secret Lesslie Newbigin, 1995 In the 16 years since this prophetic volume was first published Newbigin's clarion call to reemphasize the missionary character of the church has grown more necessary than ever before Newbigin argues clearly and convincingly that mission is the heart of the church and a church without missions is no church at all This edition includes a helpful index and a new preface by the author

The Open Secret Lesslie Newbigin, 1978

Invitation to World Missions Timothy C. Tennent, 2010 A primary resource introducing missions for the passionate follower of Christ

One World Or Many? Richard Tiplady, 2003 This book considers in detail the key drivers of globalization its contemporary shape and its implications for world mission It also looks at the impact of globalization on different contemporary issues affecting mission such as ethnicity the environment and global health as well as globalization's effect on more traditional missionary questions of the world religions contextualization theology and the church

One World or Many is written by a variety of authors from all over the world This book was published in partnership with the World Evangelical Alliance

Towards an Adventist Version of Communion Ecclesiology Tihomir Lazić, 2019-11-13 This book explores how Seventh day Adventists like other Christians can benefit from generating their own version of communion ecclesiology It starts by offering a critical analysis of the status quo of the existing Adventist portrayal of church as remnant and suggests potential ways of moving this tradition forward To articulate a more rounded and comprehensive vision of the church's rich and multifaceted relational nature this book draws on the mainstream Christian koinonia based framework Consequently it provides possible solutions to some of the most divisive ecclesial issues that Christian communities face today regarding church structure ministry mission communal interpretation and reform As it sets on a new footing the conversation between Adventism and other mainstream Christian traditions the methodology of this book serves as a pathway for any Christian community to use when revisiting and enhancing its own current theologies of the church

Liturgical Mission Winfield Bevins, 2022-09-20 Modern missional movements have often viewed the historic Christian traditions as too insular focused on worship and the interior life of the church rather than evangelism and good works Winfield Bevins argues that liturgy and sacramental life are in fact deeply missional and offer a holistic framework for everyday discipleship and mission

Historical Dictionary of the Reformed Churches Robert Benedetto, Donald K. McKim, 2023-10-15 As its name implies the Reformed tradition grew out of the 16th

century Protestant Reformation The Reformed churches consider themselves to be the Catholic Church reformed The movement originated in the reform efforts of Huldrych Zwingli 1484 1531 of Zurich and John Calvin 1509 1564 of Geneva Although the Reformed movement was dependent upon many Protestant leaders it was Calvin s tireless work as a writer preacher teacher and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew Today the Reformed churches are a multicultural multiethnic and multinational phenomenon Historical Dictionary of the Reformed Churches Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 1 000 cross referenced entries on leaders personalities events facts movements and beliefs of the Reformed churches This book is an excellent resource for students researchers and anyone wanting to know more about reformed churches

Tentmakers James W. Watson, Narry F. Santos, 2022-09-27

Tentmaking is a growing reality in Western society that necessitates more reflection and relevant response from pastoral and mission leaders The need to consider bivocational or multivocational ministries is catalyzed by established congregations wrestling with decline in attendance by new immigrant communities looking for sustainable ways to minister and by misunderstanding or lack of information on the nature of this ministry approach This need is also triggered by the urgency to address biblical theological and pragmatic issues of tentmaking that can forge a way forward for the Canadian church in the midst of an uncertain future This volume seeks to forge a way forward as a result of the Canadian Multivocational Ministry Project CMMP a qualitative and community based research project among tentmaking pastoral leaders across Canada This research partnered with the Wellness Project Wycliffe which uses online questionnaires to assess wellness in congregational ministry The CMMP research report and the wellness findings form the basis of the multifaceted reflections in the book by Canadian scholars researchers and multivocational practitioners This book offers an accurate pulse of the challenges opportunities and future of tentmaking in relation to Christianity and the church in these uncertain times

Global

Mission Rose Dowsett, 2011-06-27 Reflections and Case Studies in Contextualization for the Whole Church Global Mission is divided into two sections the first Reflections and Foundations comprises nine essays of a more general nature the second Contextualization at Work contains twenty one essays of a more specific nature most of them case studies from a particular location and people group The thirty three contributors come from five continents and a host of contexts Some are veterans some quite young but every one of them is passionate about God s mission and about building bridges for the gospel in a way that is absolutely faithful to Scripture but also sensitive to specific contexts North and South East and West demonstrate precious unity in Christ in our common calling Contextualization is complex and none of the authors claim to have got everything right But their essays are thoughtful and written out of love for God and love for his world They tell the stories of trial and error of struggles and triumphs as each seeks to present Christ in terms that make sense and can be understood It is following the process quite as much as specific conclusions which make this book valuable and transferable to many other

parts of the global church The essays also give us a peep into many different societies and the birthing of faith in the grace of the Holy Spirit Thus we give thanks to God for all that he is wonderfully doing around his world and stimulate our prayers for those who work cross culturally especially in pioneer situations Not all contributors agree on every point especially when it comes to the difficulties of mission in the Muslim world and increasingly amongst Hindus There has been no attempt to standardize different approaches letting a robust conversation develop Each chapter ends with some suggested study questions useful for personal reflection or group or class discussion The book is deliberately accessible to lay people but stimulating to career missionaries and academics

Overflowing J. David Bancroft, 2015-04-24 In *Overflowing Love of the Triune God as the Motive for Global Missions* missions practitioner J David Bancroft offers a compelling call to rediscover the impact the Trinity and God honoring affections have on our motives for participating in global missions This book challenges fellow evangelicals to deeply reevaluate and to transform the motives we proclaim for joining Gods mission *Overflowing* takes the reader on a profoundly transformational journey Guided by the relational presence of the Holy Spirit engaging the Scriptures as well as theologians throughout history missions enthusiasts will explore the triune Gods overflowing love for the nations and will rediscover the hearts cry to participate in His work

Science and Christianity Tim Reddish, 2016-08-15 Too often conversations on Science and Christianity skate over much deeper assumptions or perceptions on the nature and interpretation of Scripture and the nature of science and of God Instead the rhetoric goes quickly towards contentious issues like evolution global warming or genetic engineering without establishing a framework of mutual understanding Consequently conversations can take place between people who completely misunderstand each other because those foundations have not been clearly articulated In this introductory book you are invited on a journey of discovery one that makes us self aware of our starting assumptions It is only from a framework of critical engagement with both science and the Bible that contemporary issues and the needs of the church and society can be addressed While the Creator is one who brings order this book also reminds us that untamed chaos also has a God ordained place within creation The author explores the element of chance that seems to be at the heart of nature and shows how this can be incorporated constructively within Christian thinking Nature is not mere mechanism and is more open than we might first think This means that miracles are scientifically plausible and prayer can really change things

Apostolic Imagination J. D. Payne, 2022-02-08 A leading expert in the field of Christian missions encourages the church to recover the apostolic imagination that fueled the multiplication of disciples in the first century J D Payne examines the contemporary practice of Western missions and advocates a more central place for Scripture in defining missionary language identity purpose function and strategy He shows that an apostolic understanding of the church s disciple making commission requires rethinking every aspect of missionary engagement The book includes end of chapter discussion questions and action steps to help pastors and church leaders develop an apostolic imagination

The Missional Church in Perspective Craig Van Gelder, Dwight J

Zscheile, Alan J. Roxburgh, 2011-05 Two ministry experts map the variety of missional church visions over the past decade opening up new horizons for extending the conversation biblically and theologically *Becoming a Missionary Church*

Michael W. Goheen, Timothy M. Sheridan, 2022-07-19 This book offers a historical assessment and balanced critique of contemporary church movements especially in light of missional ecclesiology An expert on Lesslie Newbigin and an expert on contemporary church models show how Newbigin's ideas have been developed and contextualized in three popular contemporary church movements missional emergent and center church In addition the authors explain that some of Newbigin's insights have been neglected and need to be retrieved for the present day This book calls for the recovery of the missionary nature of the church and commends church practices applicable to any congregation **Reimagining Mission From Urban Places**

Dr Anna Ruddick ,2020-03-31 Within a changing social and political context the role of the church in public life and the response of Christians to social issues has taken on renewed energy Churches have entered enthusiastically into community engagement projects such as foodbanks and night shelters with a broad understanding of this as mission Missional Pastoral Care offers much needed reflection about the nature of mission and about expectations for missional outcomes Using the stories of team members within the Eden Network which emphasises an incarnational approach to urban mission the book demonstrates that at its best mission happens in a shared life rather than being about us telling the listening world A timely and provocative call to churches missional groups and those training for ministry to reflect more deeply on their practice and theology the book insists that mission is about difference love locality and long term consistency and at its best is slow complicated and messy *Missiology* John Mark Terry, 2015-09-01 Thoroughly updated and revised with half of the chapters new to the second edition Missiology equips the reader with a vast graduate level resource on contemporary missions

A Common Mission David Wesley, 2014-08-27 The term Ubuntu articulates an African understanding of our need to connect to one another in order to be complete Likewise *A Common Mission* offers a description of churches that connect with one another through the growing phenomenon of mission partnerships The word common indicates something shared among equals The word common also suggests something present in all parts of an organism production or narrative such as a common thread These two aspects of commonality provide an important orientation for contemporary mission Since 2008 congregational partnerships emerged so quickly and spontaneously that very few researchers originally noticed this groundswell Partnerships remain present in over 80 percent of United States mega churches and are prominent in a large number of smaller US churches This should not be surprising Mission exists as an expression of the church's identity an evangelistic expression that crosses frontiers and goes to the ends of the earth In our globalized context however mission also crosses neighborhood frontiers to the immigrants within our own communities Mission expresses its Christian witness as congregations love those separated from the church by ethnicity language sexual orientation religion or fear *A Common Mission* provides a framework of healthy patterns for churches to live into this mission

identity **World Christianity** Graham Joseph Hill, 2024-10-08 World Christianity An Introduction provides an accessible introduction to the discipline methodology and field of world Christianity In this book Graham Joseph Hill engages with more than one hundred high profile Majority World and First Nations Christian leaders to learn what they can teach the West about mission leadership hospitality creation care education worship and more Hill challenges the Western church to move away from a Eurocentric and Americentric view of church and mission and he calls for the church to engage with crucial paradigm shifts in world Christianity The future of the global church including the churches in the West exists in these global exchanges World Christianity is an indispensable guide for the church as it navigates the unique global experiences of the twenty first century Body and Blood Andrew R. Hardy, Keith Foster, 2019-06-07 The largest missional challenge facing the church of Christ in the West is to equip every member to engage in missionary endeavor in third places Third places are those social zones in society like coffee shops gyms shopping malls pubs etc that everyone and anyone can meet in as commonly owned spaces The authors argue that for too long the church has not equipped and trained its members to engage in mission in the public square The mobilization of every member to become the hands and feet of the missional sacramental body of Christ to carry the message of God s generous love to not yet Christians is vital if we want to witness the kingdom reign of God extend into their lives Places are important to the sovereign Lord of mission and this book challenges the churches of Christ to become what they properly need to be equipping agencies for every member mission and ministry
