Open Boundaries A Canadian Womens Studies Reader:

Open Boundaries Barbara A. Crow, Lise Gotell, 2008-02-29 *Open Boundaries* is a broad collection of reading with an interdisciplinary approach to Women's Studies. Each chapter offers students a brief introduction followed by excerpts and articles which present current debates through scholarly, fictive, journalistic, and personal narratives. The new third edition consists of 39 contemporary readings, 22 of which are all new. Short author biographies precede each reading, introducing students to current voices from the world of Canadian Women's Studies. The text is organized into 5 chaptered units covering the definition of woman in Canadian studies, the Changing Context of Activism, Engendering Violence, Culture, the Body and Femininity and Sexuality. **Open Boundaries** Lise Gotell, Barbara A. Crow, 2007 **Racialized Migrant Women in Canada** Vijay Agnew, 2009-01-01 Agnew delves into the public and private spheres of several distinct communities in order to expose the underlying inequalities within Canada's economic, social, legal, and political systems that frequently result in the denial of basic rights to migrant women. *Women's Health in Canada* Marina Morrow, Olena Hankivsky, Colleen Varcoe, 2008-05-03 In recent years, healthcare professionals have recognized the distinctly different healthcare needs and concerns of men and women. Women's health, in particular, has come into its own in the last two decades. In Canada, however, there has been little available in the way of a general text on women's health. This volume works toward filling that gap by providing a resource for teaching and understanding women's health in this country. To lay out the methodological and theoretical foundations for their study, editors Olena Hankivsky, Marina Morrow, and Colleen Varcoe bring together an interdisciplinary group of scholars and practitioners from economics, anthropology, sociology, nursing, political studies, women's studies, and psychology. Contributors draw on the rich history of the Canadian women's health movement, providing analysis of that history and of the emergent theory, policy, and practice. Aimed at undergraduate and graduate students as well as practitioners, the collection adopts an intersectional approach, looking closely at social factors such as gender, race, ethnicity, class, sexuality, and gender identity, and analysing how they relate both to each other and to women's health. Connections between the social, economic, and cultural contexts of women's lives and their physical, spiritual, and mental well-being are a primary focus. Providing a much-needed resource for teachers, students, and practitioners of women's health in Canada, this comprehensive volume makes an important contribution to the literature. *Learning to Be Old* Margaret Cruikshank, 2003 Describes beliefs, customs, and traditions surrounding aging in America and suggests that awareness of these social constructions can help women resist their negative impact. After critiquing cultural myths, ageism, the politics of aging, and mainstream gerontology, she proposes a feminist geratology in which older women, including minorities and lesbians, interview their peers as part of the research agenda. Working Women in Canada Leslie Nichols, 2019-08-23 In this edited collection, Leslie Nichols weaves together the contributions of accomplished and diverse scholars to offer an expansive and critical analysis of women's work in Canada. Students will use an intersectional approach to explore issues of gender, class,

race immigrant status disability sexual orientation Indigeneity age and ethnicity in relation to employment Drawing from case studies and extensive research the text s eighteen chapters consider Canadian industries across a broad spectrum including political academic sport sex trade retail and entrepreneurial work Working Women in Canada is a relevant and in depth look into the past present and future of women s responsibilities and professions in Canada Undergraduate and graduate students in gender studies labour studies and sociology courses will benefit from this thorough and intersectional approach to the study of women s labour

Troubling Women's Studies Ann Braithwaite, 2004 The four essays in this collection present a multifaceted conversation about what is at stake in passing on the institutionalized project of Women s Studies at this historic moment The authors come to this conversation from a diversity of histories commitments and investments in Women s Studies Framed by the argument that Women s Studies is a project fraught with uncertainty the authors explore what it means to live within this uncertainty and how one might respond to it intellectually emotionally politically institutionally and pedagogically In exploring their own responses and taking into consideration responses from other feminist intellectuals the authors subject their practices to the same kind of academic critique to which they subject the discipline its location theories methods and pedagogies The purpose of these essays is not to enact these responses nor to fix a firm direction for the future of the discipline but rather by looking back and attending to the now inspire us to grapple with what might be possible

Women's Legal Strategies in Canada Radha Jhappan, 2002-01-01 Have Canadian women gained from their pursuit of legal remedies to social political economic and cultural inequalities Is law a fruitful avenue for such struggles Using liberal feminist postmodern critical race and queer theory these essays confront the anti rights critiques of the legal Left regarding the use of law in general and the Charter in particular Several chapters explicitly examine the strategic limits and possibilities of the substantive equality rights approaches pursued by LEAF The Women s Legal Education and Action Fund Others focus on legal strategies mobilized in discreet areas of law and public policy by foreign domestic workers and racialized women lesbians women seeking reproductive freedom women in the childcare movement and anti violence advocates Recognizing the diversity of women across class citizenship race and ethnicity sexual identity culture and dis ability this collection evaluates the efficacy of the wide range of legal and political strategies women have employed particularly in this post Charter era *Women s Legal Strategies in Canada* is the most comprehensive account of these important issues and will surely become the standard work in the field
