Kant and Rational Psychology Corey W. Dyck,2014-03-20 Corey W Dyck presents a new account of Kant s criticism of the rational investigation of the soul in his monumental *Critique of Pure Reason* in light of its eighteenth century German context When characterizing the rational psychology that is Kant s target in the *Paralogisms of Pure Reason* chapter of the *Critique* commentators typically only refer to an approach to and an account of the soul found principally in the thought of Descartes and Leibniz But Dyck argues that to do so is to overlook the distinctive rational psychology developed by Christian Wolff which emphasized the empirical foundation of any rational cognition of the soul and which was widely influential among eighteenth century German philosophers including Kant In this book Dyck reveals how the received conception of the aim and results of Kant s *Paralogisms* must be revised in light of a proper understanding of the rational psychology that is the most proximate target of Kant s attack In particular he contends that Kant s criticism hinges upon exposing the illusory basis of the rational psychologist s claims inasmuch as he falls prey to the appearance of the soul as being given in inner experience Moreover Dyck demonstrates that significant light can be shed on Kant s discussion of the soul s substantiality simplicity personality and existence by considering the *Paralogisms* in this historical context

Romanticism, Hellenism, and the Philosophy of Nature William S. Davis, 2018-06-20 This book investigates intersections between the philosophy of nature and Hellenism in British and German Romanticism focusing primarily on five central literary philosophical figures Friedrich Schelling Friedrich Hölderlin Johann Wolfgang von Goethe Percy Shelley and Lord Byron Near the end of the eighteenth century poets and thinkers reinvented Greece as a site of aesthetic and ontological wholeness a move that corresponded with a refiguring of nature as a dynamically interconnected web in which each part is linked to the living whole This vision of a vibrant materiality that allows us to become one with all that lives along with a Romantic version of Hellenism that wished to reassemble the broken fragments of an imaginary Greece as both site and symbol of this all unity functioned as a two pronged response to subjective anxiety that arose in the wake of Kant and Fichte The result is a form of resistance to an idealism that appeared to leave little room for a world of beauty love and nature beyond the self
