Wilderness Days Sigurd F. Olson, 1972 A selection of Sigurd F Olson s finest writing on the splendor of the great outdoors hand picked by the master himself **Network World** ,1997-07-28 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce **North Country** Jon K. Lauck, Gleaves Whitney, 2023-05-04 Travel north from the upper Midwest s metropolises and before long you re Up North a region that s hard to define but unmistakable to any resident or tourist Crops give way to forests mines or their remains mark the landscape and lakes multiply becoming ever clearer until you reach the vastness of the Great Lakes How to characterize this region as distinct from the agrarian Midwest is the question North Country seeks to answer as a congenial group of scholars journalists and public intellectuals explores the distinctive landscape culture and history that define the northern margins of the American Midwest From the glacial past to the present day these essays range across the histories of the Dakota and Ojibwe people colonial imperial rivalries and immigration and conflicts between the economic imperatives of resource extraction and the stewardship of nature The book also considers literary treatments of the area and arguably makes its own contributions to that literature as some of the authors search for the North Country through personal essays while others highlight individuals who are identified with the area like Sigurd Olson John Barlow Martin and Russell Kirk From the fur trade to tourism fisheries to supper clubs Finnish settlers to Native treaty rights the nature of the North Country emerges here in all its variety and particularity as clearly distinct from the greater Midwest as it is part of the American heartland **New Horizons in Theology** Terrence W. Phenomenological Reflections on Mindfulness in the Buddhist Tradition Erol Čopelj, 2022-06-24 This book offers an original phenomenological description of mindfulness and related phenomena such as concentration sam dhi and the practice of insight vipassan It demonstrates that phenomenological method has the power to reanimate ancient Buddhist texts giving new life to the phenomena at which those texts point Beginning with descriptions of how mindfulness is encountered in everyday pre philosophical life the book moves on to an analysis of how the Pali Nik yas of Theravada Buddhism define mindfulness and the practice of cultivating it It then offers a critique of the contemporary attempts to

explain mindfulness as a kind of attention The author argues that mindfulness is not attention nor can it be understood as a mere modification of the attentive process Rather becoming mindful involves a radical shift in perspective According to the author s account being mindful is the feeling of being tuned in to the open horizon which is contrasted with Edmund Husserl s transcendental horizon The book also elucidates the difference between the practice of cultivating mindfulness with the practice of the phenomenological epoch which reveals new possibilities for the practice of phenomenology itself

Phenomenological Reflections on Mindfulness in the Buddhist Tradition will appeal to scholars and advanced students interested in phenomenology Buddhist philosophy and comparative philosophy *The GroupWise Powerguide* Erno de Korte,2009 This book is a collection of tips and tricks that will help you to get the most out of GroupWise This Second Edition is updated for GroupWise version 8 This book is not an ordinary end user manual but it is aimed at those who already have some basic knowledge of GroupWise and who want to take their expertise to the next level This book is aimed at the helpdesk professional the IT manager looking for optimization and better return on investment and the interested Poweruser who is involved in peer to peer support to his or her co workers *Locating Europe* Rodolphe Gasché,2021-06-01 Is the idea of Europe outdated The concept of European unity the animating spirit of the European Union seems increasingly fragile in the face of far right populist movements In *Locating Europe* Rodolphe Gasch attempts to answer the question of how to think about Europe Is it a figure a concept or an idea Is there anything still compelling and urgent about the idea of Europe By looking at phenomenologist and postphenomenological thinkers in the second half of the 20th century Gasch reveals that Europe is more than just one geographical and cultural entity The idea of Europe is based on common foundations a distinctive conception of reason of self criticism of responsibility freedom equality human rights and democracy and it is these foundations that are under threat In *Locating Europe* A Figure a Concept an Idea Gasch engages the philosophy of Hans Georg Gadamer Karl Jaspers Karl L with and others focuses on the most significant philosophical representations of Europe and explores the potential and especially the limits of the notion of Europe **A Wilderness Within** David Backes,1997 Phenomenology 2010 Ion Copoeru,Agustín Serrano de Haro,2011 *On Jean-Luc Nancy* Darren Sheppard,Simon Sparks,Colin Thomas,2005-08-03 This is the first book to consider the increasing importance of Jean Luc Nancy s work which has influenced key thinkers such as Jacques Derrida All his major works have been translated into English yet until now little has been made available on his place in contemporary philosophy By showing how he situates his work in a contemporary context the collapse of communism the Gulf War and the former Yugoslavia this outstanding collection reveals how Nancy s engagement with Hegel Marx Nietzsche Heidegger and Derrida makes him one of the key contemporary continental philosophers Providing new perspectives on the issues of sense art and community these essays make it impossible to approach philosophy without reference to the work Jean Luc Nancy Memory and Representation in Contemporary Europe Siobhan Kattago,2016-04-22 Why do certain places and not others symbolically capture the past and

freeze time Likewise why does the process of memory as a fluid and changing activity seem to prevent its own solidification Memory and Representation in Contemporary Europe reflects not only on the persistence of the past as a theme linked to modernity media and time but also discusses the politics of memory within a changing Europe Drawing on the theoretical work of Hannah Arendt Isaiah Berlin and Zygmunt Bauman Siobhan Kattago uses examples from both Germany and Estonia in order to address the multiple layers of Europe s totalitarian past Through reflecting on the legacy of totalitarianism and the revolutions of 1989 it becomes clear that the issue is less of whether one should remember but rather how to internalize the various lessons of the past for the future of Europe Memory and Representation in Contemporary Europe thus offers the reader occasions upon which to take stock of different but overlapping contours of past and present in contemporary Europe

Ecstatic Naturalism Robert S. Corrington,1994-04-22 Semiotic theory which has restricted its focus largely to human forms of significations is transformed by Robert S Corrington into a semiotics of nature itself Corrington situates the divide between nature naturing and nature natured within the contest of classical American pragmatism and postmodern psychoanalysis At the heart of this new metaphysics is an insistence that all signs participate in larger orders of meaning that are natural and religious Meanings embodied in nature point beyond nature to the mystery inherent in positioned codes and signs

Memory and Pluralism in the Baltic States

Eva-Clarita Pettai,2014-06-11 Memories both in individual and collective form still have a significant impact on how people relate to political processes in Europe today While much has been written about top down attempts by states and political actors to mould people's memories of the past through public commemoration textbooks or monuments this volume takes a view from below by focusing on different types of societal actors and the ways in which they interact with the political world in order to influence collective memory Presented within a comprehensive conceptual framework the empirical cases focus on three countries of the former Soviet Union Estonia Latvia and Lithuania They show that different or even antagonistic perceptions of the recent past not only appear between different ethnic groups but also between socio economic groups different age groups or generations as well as between women and men Moreover they give an impressive account on the multiple ways in which these perceptions empower individuals and groups to seek greater influence in the construction of collective memory The volume therefore not only provides a valuable and fresh perspective on the relationship between social memory and democratic politics but also contributes to post Communist regional studies in the enlarged European Union This book was published as a special issue of the Journal of Baltic Studies
