development **Open Marxism, Volume 2** Werner Bonefeld, Richard Gunn, Kosmas Psychopedis, 1992-09-28 Topics covered include Marxism and political economy historical materialism dialectics state theory class fetishism and the periodisation of capitalist development History and Class Consciousness Georg Lukacs, 1972-11-15 This is the first time one of the most important of Lukacs' early theoretical writings published in Germany in 1923 has been made available in English The book consists of a series of essays treating among other topics the definition of orthodox Marxism the question of legality and illegality Rosa Luxemburg as a Marxist the changing function of Historic Marxism class consciousness and the substantiation and consciousness of the Proletariat Writing in 1968 on the occasion of the appearance of his collected works Lukacs evaluated the influence of this book as follows For the historical effect of *History and Class Consciousness* and also for the actuality of the present time one problem is of decisive importance alienation which is here treated for the first time since Marx as the central question of a revolutionary critique of capitalism and whose historical as well as methodological origins are deeply rooted in Hegelian dialectic It goes without saying that the problem was omnipresent A few years after *History and Class Consciousness* was published it was moved into the focus of philosophical discussion by Heidegger in his *Being and Time* a place which it maintains to this day largely as a result of the position occupied by Sartre and his followers The philologic question raised by L Goldmann who considered Heidegger's work partly as a polemic reply to my admittedly unnamed work need not be discussed here It suffices today to say that the problem was in the air particularly if we analyze its background in detail in order to clarify its effect the mixture of Marxist and Existentialist thought processes which prevailed especially in France immediately after the Second World War In this connection priorities influences and so on are not particularly significant What is important is that the alienation of man was recognized and appreciated as the central problem of the time in which we live by bourgeois as well as proletarian by politically rightist and leftist thinkers Thus *History and Class Consciousness* exerted a profound effect in the circles of the youthful intelligentsia *Open Marxism* Werner Bonefeld, Richard Gunn, Kosmas Psychopedis, 1992 *Open Marxism*, 2020 The publication of the first three volumes of *Open Marxism* in the 1990s has had a transformative impact on how we think about Marxism in the twenty first century *Open Marxism* aims to think of Marxism as a theory of struggle not as an objective analysis of capitalist domination arguing that money capital and the state are forms of struggle from above and therefore open to resistance and rebellion As critical thought is squeezed out of universities and geographical shifts shape the terrain of theoretical discussion the editors argue now is the time for a new volume that reflects the work that has been carried out during the past decade Emphasising the contemporary relevance of open Marxism in our moment of political and economic uncertainty the collection shines a light on its significance for activists and academics today The Algebra of Revolution John Rees, 2005-06-23 *The Algebra of Revolution* is the first book to study Marxist method as it has been developed by the main representatives of the classical Marxist tradition namely Marx and Engels Luxemburg Lenin Lukacs Gramsci and Trotsky This book provides the only single
