Canadian Short Story Reingard M. Nischik,2007 Beginning in the 1890s reaching its first full realization by modernist writers in the 1920s and brought to its heyday during the Canadian Renaissance starting in the 1960s the short story has become Canada s flagship genre It continues to attract the country s most accomplished and innovative writers today among them Margaret Atwood Mavis Gallant Alice Munro Carol Shields and many others Yet in contrast to the stature and popularity of the genre and the writers who partake in it surprisingly little literary criticism and theory has been devoted to the Canadian short story This collection redresses that imbalance by providing the first collection of critical interpretations of a range of thirty well known and often anthologized Canadian short stories from the genre s beginnings through the twentieth century A historical survey of the genre introduces the volume and a timeline comparing the genre s development in Canada the US and Great Britain via representative examples completes it The collection is geared both to specialists in and to students of Canadian literature For the latter it is of particular benefit that the volume provides not only a collection of interpretations but a comprehensive introduction to the history of the Canadian short story Reingard M Nischik is professor and chair of American Literature at the University of Constance Germany *A Reader's Companion to the Short Story in English* Erin Fallon,R.C. Alice Munro and the Art of Time Laura K. Davis,2025-08-25 Alice Munro and the Art of Time reveals how one of the

world's greatest writers of short stories challenged and reconfigured traditional assumptions about time. In chapters that analyze selected stories and collections from across Munro's career, Laura K. Davis examines the formal and conceptual function of temporality in Munro's oeuvre, considering the relationship between the past and the present, material experiences of being, story structure, memory, and memoir. Clear and compelling interpretations of Munro's stories offer insights into her writing process, her representations of character and setting, and the complexities of her narrative techniques, which often evade linearity and chronology, emphasizing instead revision, repetition, and the body. By highlighting the connections between time and various tropes in Munro's stories, including identity, ephemerality, and environmental change, this study provides new, exciting avenues for engaging with Munro's work.
