Opening The American Mind Race Ethn And Gender In Higher Edu:

Opening the American Mind Geoffrey M. Sill, 1993 The essays collected in this volume were written for a conference at Rutgers University on the subject of inclusivity and diversity in education organized in response to the controversial books on those topics by Allan Bloom and E D Hirsch *Resources in Education*, 2001 **Anti-feminism in the Academy** Veve Clark, Shirley Nelson Garner, Margaret Higonnet, Ketu Katrak, 2014-01-27 Contending that the anti feminist backlash in the academy is part of the broader politically correct rhetoric this collection of writers academics and activists is a much needed response to the assault on feminist thinkers and critics in the academy today **Transforming the Ivory Tower** Brett C. Stockdill, Mary Yu Danico, 2012-03-15 People outside and within colleges and universities often view these institutions as fair and reasonable far removed from the inequalities that afflict society in general Despite greater numbers of women working class people and people of color as well as increased visibility for LGBTQ students and staff over the past fifty years universities remain ivory towers that perpetuate institutionalized forms of sexism classism racism and homophobia Transforming the Ivory Tower builds on the rich legacy of historical struggles to open universities to dissenting voices and oppressed groups Each chapter is guided by a commitment to praxis the idea that theoretical understandings of inequality must be applied to concrete strategies for change The common misconception that racism sexism and homophobia no longer plague university life heightens the difficulty to dismantle the interlocking forms of oppression that undergird the ivory tower Contributors demonstrate that women LGBTQ people and people of color continue to face systemic forms of bias and discrimination on campuses throughout the U S Curriculum and pedagogy evaluation of scholarship and the processes of tenure and promotion are all laden with inequities both blatant and covert The contributors to this volume defy the pressure to assimilate by critically examining personal and collective struggles Speaking from different social spaces and backgrounds they analyze antiracist feminist and queer approaches to teaching and mentoring research and writing academic culture and practices growth and development of disciplines campus activism university community partnerships and confronting privilege Transforming the Ivory Tower will be required reading for all students faculty and administrators seeking to understand bias and discrimination in higher education and to engage in social justice work on and off college campuses It offers a proactive approach encompassing institutional and cultural changes that foster respect inclusion and transformation Contributors Michael Armato Rick Bonus Jose Guillermo Zapata Calderon Mary Yu Danico Christina G mez David Naguib Pellow Brett C Stockdill Linda Trinh V Out of the Revolution Delores P. Aldridge, Carlene Young, 2000-11-01 The introduction of Black studies programs into institutions of higher education was a direct response to the mandate for change at all levels that characterized the civil rights movement and the social rebellions of the 1950s and 1960s In Out of the Revolution Delores P Aldridge and Carlene Young collect thirty one of the nation s top scholars to provide a complete reference for understanding the impetus for the development of and future considerations for the discipline of Africana

studies Topics addressed include epistemological considerations humanistic perspectives the role of bureaucracy and the academic institution the social psychological political and economic dimensions the position of black women in the field and how the discipline has empowered the black student This invaluable resource for educators and students alike concludes with a look at graduates in Africana studies and their careers and a discussion of the future of the field *Nuthin' But a "G" Thang* Eithne Quinn, 2005 In the late 1980s gansta rap music emerged in urban America giving voice to making money for a social group widely believed to be in crisis young poor black men Quinn probes the origins of the genre follows its development focusing on artists such as Ice Cube Tupac Shakur Street Smarts and Critical Theory Thomas McLaughlin, 1996-11-01 Everybody's got a theory or do they Thomas McLaughlin argues that critical theory raising serious sustained questions about cultural practice and ideology is practiced not only by an academic elite but also by savvy viewers of sitcoms and TV news by Elvis fans and Trekkies by labor organizers and school teachers by the average person in the street Like academic theorists who are trained in a tradition of philosophical and political skepticism that challenges all orthodoxies the vernacular theorists McLaughlin identifies display a lively and healthy alertness to contradiction and propaganda They are not passive victims of ideology but active questioners of the belief systems that have power over their lives Their theoretical work arises from the circumstances they confront on the job in the family in popular culture And their questioning of established institutions McLaughlin contends is essential and healthy for it energizes other theorists who clarify the purpose and strategies of institutions and justify the existence of cultural practices Street Smarts and Critical Theory leads us through eye opening explorations of social activism in the Southern Christian anti pornography movement fan critiques in the zine scene New Age narratives of healing and transformation the methodical manipulations of the advertising profession and vernacular theory in the whole language movement Emphasizing that theory is itself a pervasive cultural practice McLaughlin calls on academic institutions to recognize and develop the theoretical strategies that students bring into the classroom This book demystifies the idea of theory taking it out of the hands of a priestly caste and showing it as the democratic endowment of the people Daniel T O'Hara Temple University author of *Radical Parody American Culture and Critical Agency after Foucault and Lionel Trilling The Work of Liberation* McLaughlin takes seriously the critical and theoretical activity of everyday people and does so in a way that will empower these very populations to take seriously their own activities as theorists A manifesto that is sure to be heard by the younger generation of thinkers in American cultural studies Henry Jenkins MIT author of *Textual Poachers Television Fans and Participatory Culture* Speaking the Other Self Jeanne Campbell Reesman, 2011-04-01 Exploring a variety of writers over an array of time periods subject matter race and ethnicity sexual preference tradition genre and style this volume represents the fruits of the dramatic and celebrated growth of the study of American women writers today From established figures such as Harriet Beecher Stowe Edith Wharton Willa Cather and Katherine Ann Porter to emerging voices including early American novelist Tabitha Tenney the first African

American novelist Harriet E Wilson modern dramatist Sophie Treadwell and contemporaries such as Sandra Cisneros Grace Paley and June Jordan the essays present fresh approaches and furnish a wealth of illustrations for the multiple selves created and addressed in women's writing These selves intersect and connect to embody a multiethnic rhetoric of the self that is uniquely feminine and uniquely American Calling attention to their American feminist rhetoric Jeanne Campbell Reesman identifies many connections among different feminist poststructuralist narratological and comparativist strategies The voices of *Speaking the Other Self* well represent the inner and outer speaking and hearing center and frame in women's writing in America their intersections constructing an ongoing conversation a borderland of new possibilities a borderland with no borders no barriers to thought and response and change no end of possible voices and selves [Black Issues in Higher Education](#) ,2002-02

The Splintering of the American Mind William Egginton,2018-08-28 A timely provocative necessary look at how identity politics has come to dominate college campuses and higher education in America at the expense of a more essential commitment to equality Thirty years after the culture wars identity politics is now the norm on college campuses and it hasn't been an unalloyed good for our education system or the country Though the civil rights movement feminism and gay pride led to profoundly positive social changes William Egginton argues that our culture's increasingly narrow focus on individual rights puts us in a dangerous place The goal of our education system and particularly the liberal arts was originally to strengthen community but the exclusive focus on individualism has led to a new kind of intolerance degrades our civic discourse and fatally distracts progressive politics from its commitment to equality Egginton argues that our colleges and universities have become exclusive expensive clubs for the cultural and economic elite instead of a national publicly funded project for the betterment of the country Only a return to the goals of community and the egalitarian values underlying a liberal arts education can head off the further fracturing of the body politic and the splintering of the American mind With lively on the ground reporting and trenchant analysis *The Splintering of the American Mind* is a powerful book that is guaranteed to be controversial within academia and beyond At this critical juncture the book challenges higher education and every American to reengage with our history and its contexts and to imagine our nation in new and more inclusive ways [The Poisoning of the American Mind](#) Lawrence M. Eppard,Jacob L. Mackey,Lee Jussim,2024-09-25 What would you have to believe in order to dress up as a shaman paint your face and storm the U S Capitol What could possibly lead somebody to claim that it upholds white supremacy to encourage hard work self reliance rational thinking punctuality and politeness Such behaviors would have been unimaginable only a few years ago And yet here we are witnessing millions of people across the political spectrum displaying these clear indications of an epistemically poisoned mind Both red America and blue America are retreating into their own information bubbles seceding from a common reality Both consume far too much misinformation and disinformation developing worldviews that can sometimes be unintelligible to others This book explores these disturbing developments and what they mean for our society and implores us
