Opening The Nursery Door Mary Hilton, Morag Styles, Victor Watson, 2012-12-06 Opening the Nursery Door is a fascinating collection of essays inspired by the discovery of a tiny archive the nursery library of Jane Johnson 1707 1759 wife of a Lincolnshire vicar It has captured the scholarly interest of social anthropologists historians literary scholars educationalists and archivists as it has opened up a range of questions about the nature of childhood within English cultural life over three centuries the texts written and read to children the multifarious ways childhood has been considered shaped and schooled through literacy practices and the hitherto ignored role of women educators in early childhood across all classes

History and the Construction of the Child in Early British Children's Literature Jackie C. Horne, 2016-04-22 How did the flat characters of eighteenth century children s literature become round by the mid nineteenth While previous critics have pointed to literary Romanticism for an explanation Jackie C Horne argues that this shift can be better understood by looking to the discipline of history Eighteenth century humanism believed the purpose of history was to teach private and public virtue by creating idealized readers to emulate Eighteenth century children s literature with its impossibly perfect protagonists and its equally imperfect villains echoes history s exemplar goals Exemplar history however came under increasing pressure during the period and the resulting changes in historiographical practice an increased need for reader engagement and the widening of history s purview to include the morals manners and material lives of everyday people find their mirror in changes in fiction for children Horne situates hitherto neglected Robinsonades historical novels and fictionalized histories within the cultural social and political contexts of the period to trace the ways in which idealized characters gradually gave way to protagonists who fostered readers sympathetic engagement Horne s study will be of interest to specialists in children s literature the history of education and book history

Women and the Shaping of the Nation's Young Mary Hilton, 2017-03-02 Researchers have neglected the cultural history of education and as a result women s educational works have been disparaged as narrowly didactic and redundant to the history of ideas Mary Hilton s book serves as a corrective to these biases by culturally contextualising the popular educational writings of leading women moralists and activists including Sarah Fielding Hester Mulso Chapone Catherine Macaulay Mary Wollstonecraft Hannah More Sarah Trimmer Catharine Cappe Priscilla Wakefield Maria Edgeworth Jane Marcet Elizabeth Hamilton Mary Carpenter and Bertha von Marenholtz Bulow Over a hundred year period from the rise of print culture in the mid eighteenth century to the advent of the kindergarten movement in Britain in the mid nineteenth a variety of women intellectuals from strikingly different ideological and theological milieux supported embellished critiqued and challenged contemporary public doctrines by positioning themselves as educators of the nation s young citizens Of particular interest are their varying constructions of childhood expressed in a wide variety of published

texts including tales treatises explanatory handbooks and collections of letters By explicitly and consistently connecting the worlds of the schoolroom the family and the local parish to wider social religious scientific and political issues these women s educational texts were far more influential in the public realm than has been previously represented Written deliberately to change the public mind these texts spurred their many readers to action and reform *Children and Globalization* Hoda Mahmoudi, Steven Mintz, 2019-04-08 Globalization has carried vast consequences for the lives of children It has spurred unprecedented waves of immigration contributed to far reaching transformations in the organization structure and dynamics of family life and profoundly altered trajectories of growing up Equally important globalization has contributed to the world wide dissemination of a set of international norms about children s welfare and heightened public awareness of disparities in the lives of children around the world This book s contributors leading historians literary scholars psychologists social geographers and others provide fresh perspectives on the transformations that globalization has produced in children s lives

The Oxford Handbook of British Poetry, 1660-1800 Jack Lynch, 2016-11-24 In the most comprehensive and up to date overview of the poetry published in Britain between the Restoration and the end of the eighteenth century forty four authorities from six countries survey the poetry of the age in all its richness and diversity serious and satirical public and private by men and women nobles and peasants whether published in deluxe editions or sung on the streets The contributors discuss poems in social contexts poetic identities poetic subjects poetic form poetic genres poetic devices and criticism Even experts in eighteenth century poetry will see familiar poems from new angles and all readers will encounter poems they ve never read before The book is not a chronologically organized literary history nor an encyclopaedia nor a collection of thematically related essays rather it is an attempt to provide a systematic overview of these poetic works and to restore it to a position of centrality in modern criticism **Handbook of Research on Children's and Young Adult Literature** Shelby Wolf, Karen Coats, Patricia Enciso, Christine Jenkins, 2011-04-27 This landmark volume is the first to bring together leading scholarship on children s and young adult literature from three intersecting disciplines Education English and Library and Information Science Distinguished by its multidisciplinary approach it describes and analyzes the different aspects of literary reading texts and contexts to illuminate how the book is transformed within and across different academic figurations of reading and interpreting children s literature Part one considers perspectives on readers and reading literature in home school library and community settings Part two introduces analytic frames for studying young adult novels picturebooks indigenous literature graphic novels and other genres Chapters include commentary on literary experiences and creative production from renowned authors and illustrators Part three focuses on the social contexts of literary study with chapters on censorship awards marketing and literary museums The singular contribution of this Handbook is to lay the groundwork for colleagues across disciplines to redraw the map of their separately figured worlds thus to enlarge the scope of scholarship and dialogue as well as push ahead into uncharted territory *The Children's Book Business* Lissa Paul, 2010-12-14 By

focusing on the children's book business of the long eighteenth century this book argues that the thinking knowing children of the Enlightenment are models for the technologically connected socially conscious children of the twenty first The increasingly obsolete images of Romantic innocent and ignorant children are bracketed between the two periods

Children's Literature Collections Keith O'Sullivan, Pádraic Whyte, 2017-05-19 This book provides scholars both national and international with a basis for advanced research in children's literature in collections Examining books for children published across five centuries gathered from the collections in Dublin this unique volume advances causes in collecting librarianship education and children's literature studies more generally It facilitates processes of discovery and recovery that present various pathways for researchers with diverse interests in children's books to engage with collections From book histories through bookselling information on collectors and histories of education to close text analyses it is evident that there are various approaches to researching collections In this volume three dominant approaches emerge history and canonicity author and text ideals and institutions Through its focus on varied materials from fiction to textbooks this volume illuminates how cities can articulate a vision of children's literature through particular collections and institutional practices

Practical Visionaries Pam Hirsch, Mary Hilton, 2014-07-30 An examination of women educationists in nineteenth and early twentieth century Britain Working with new paradigms opened up by feminist scholarship it reveals how women leaders were determined to transform education in the quest for a better society Previous scholarship has either neglected the contributions of these women or has misplaced them Consequently intellectual histories of education have come to seem almost exclusively masculine This collection shows the important role which figures such as Mary Carpenter Barbara Leigh Smith Bodichon Elizabeth Edwards and Maria Montessori played in the struggle to provide greater educational opportunities for women The contributors are Anne Bloomfield Kevin J Brehony Norma Clarke Peter Cunningham Mary Jane Drummond Elizabeth Edwards Mary Hilton Pam Hirsch Jane Miller Hilary Minns Wendy Robinson Gillian Sutherland and Ruth Watts

Relentless Progress Jack Zipes, 2013-02-01 Can fairy tales subvert consumerism Can fantasy and children's literature counter the homogenizing influence of globalization Can storytellers retain their authenticity in the age of consumerism These are some of the critical questions raised by Jack Zipes the celebrated scholar of fairy tales and children's literature In this book Zipes argues that despite a dangerous reconfiguration of children as consumers in the civilizing process children's literature fairy tales and storytelling possess a uniquely powerful even fantastic capacity to resist the relentless progress of negative trends in culture He also argues that these tales and stories may lose their power if they are too diluted by commercialism and merchandising Stories have been used for centuries as a way to teach children and adults how to see the world as well as their place within it In Relentless Progress Zipes looks at the surprising ways that stories have influenced people within contemporary culture and vice versa Among the many topics explored here are the dumbing down of books for children the marketing of childhood the changing shape of feminist fairy tales and why American and British children aren't

exposed to more non western fairy tales From picture books to graphic novels from children s films to video games from Grimm s fairy tales to the multimedia Harry Potter phenomenon Zipes demonstrates that while children s stories have changed greatly in recent years much about these stories have remained the same despite their contemporary high tech repackaging Relentless Progress offers remarkable insight into why classic folklore and fairy tales should remain an important part of the lives of children in today s digital culture

The Place of Narrative in the Early Years Curriculum Peter Baldock,2006-08-21 Delving deeper into the understanding that young children have of stories this book demonstrates how narrative competence develops in the first eight years of life and how this can be reflected in practice

Written Maternal Authority and Eighteenth-Century Education in Britain Ms Rebecca Davies,2014-09-28 Examining writing for and about education in the period from 1740 to 1820 Rebecca Davies s book plots the formation of a written paradigm of maternal education that associates maternity with educational authority Examining novels fiction for children conduct literature and educative and political tracts by Samuel Richardson Sarah Fielding Mary Wollstonecraft Maria Edgeworth Ann Martin Taylor and Jane Austen Davies identifies an authoritative feminine educational voice She shows how the function of the discourse of maternal authority is modified in different genres arguing that both the female writers and the fictional mothers adopt maternal authority and produce their own formulations of ideal educational methods The location of idealised maternity for women Davies proposes is in the act of writing educational discourse rather than in the physical performance of the maternal role Her book contextualizes the development of a written discourse of maternal education that emerged in the enlightenment period and explores the empowerment achieved by women writing within this discourse albeit through a notion of authority that is circumscribed by the rules of a discipline
