Opera 17 Critiques In French

Wolfgang Guggemos

Opera 17 Critiques In French:

French Opera 1730-1830: Meaning and Media David Charlton, 2024-10-28 The majority of these collected essays date from 1992 onwards three of them having been specially expanded for this volume Drawing on recent archival research and new musicological theory they investigate distinctive qualities in French opera from early op ra comique to early grand opera Media is interpreted in terms of both narrative systems and practical theatre resources One group of essays identifies narrative systems in minuet scenes in the diegetic romance and in special uses of musical motives Another group concerns the theory and sthetics of opera in which uses of metaphor help us interpret audience reception A third group focuses on orchestral and staging practices brought together in a new theory of the melodrama model linking various genres from the 1780s with the world of the 1820s French opera s relation with literature and politics is a continuing theme explored in writings on prison scenes Ossian and public private dramaturgy in grand opera David Charlton has written widely on French music and opera topics for over 25 years The selection of his articles presented here focuses on the period 1730 1830 when Paris was a hotbed of influential ideas in music and music theatre with many of these ideas taken up by foreign composers This volume assesses the French contribution to the development of Classical and Romantic styles and genres which has hitherto not received the attention it deserves Opera, Liberalism, and Antisemitism in Nineteenth-Century France Diana R. Hallman, 2007-08-16 This is a comprehensive critical study of the nineteenth century French grand op ra La Juive by Hal vy **Musical Debate and Political Culture in France, 1700-1830** Robert James Arnold, 2017 The first full length treatment of the operatic querelles in eighteenth century France placing individual querelles in historical context and tracing common themes of authority national prestige and the power of music over popular sentiment **National Traditions in Nineteenth-Century Opera, Volume I** Steven Huebner, 2017-03-02 This volume covers opera in Italy France England and the Americas during the long nineteenth century 1789 1914 The book is divided into four sections that are thematically rather than geographically conceived Places essays centering on contexts for operatic culture Genres and Styles studies dealing with the question of how operas in this period were put together Critical Studies of individual works exemplifying particular critical trends and Performance **The Keys to French Opera in the Nineteenth Century** Hervé Lacombe, 2001-01-12 A lively history of French opera in its cultural and historical context by one of France s leading musicologists **The Cambridge Companion to Grand Opera** David Charlton, 2003-09-04 Table of contents *Musical Encounters at the 1889 Paris World's Fair* Annegret Fauser, 2005 The 1889 Exposition universelle in Paris is famous as a turning point in the history of French music and modern music generally This book explores the ways in which music was used exhibited listened to and written about during the Exposition universelle It also reveals the sociopolitical uses of music in France during the 19th century *French Film Theory and Criticism, Volume 1* Richard Abel, 2020-12-08 These two volumes examine a significant but previously neglected moment in French cultural history the emergence of French film

theory and criticism before the essays of Andr Bazin Richard Abel has devised an organizational scheme of six nearly symmetrical periods that serve to bite into the discursive flow of early French writing on the cinema Each of the periods is discussed in a separate and extensive historical introduction with convincing explications of the various concepts current at the time In each instance Abel goes on to provide a complementary anthology of selected texts in translation Amounting to a portable archive these anthologies make available a rich selection of nearly one hundred and fifty important texts most of them never before published in English

Musical Courier and Review of Recorded Music ,1915 **Grétry's Operas and the French Public** R.J. Arnold,2017-07-05 Why in the dying days of the Napoleonic Empire did half of Paris turn out for the funeral of a composer The death of Andr Ernest Modeste Gr try in 1813 was one of the sensations of the age setting off months of tear stained commemorations reminiscences and revivals of his work To understand this singular event this interdisciplinary study looks back to Gr try s earliest encounters with the French public during the 1760s and 1770s seeking the roots of his reputation in the reactions of his listeners The result is not simply an exploration of the relationship between a musician and his audiences but of developments in musical thought and discursive culture and of the formation of public opinion over a period of intense social and political change The core of Gr try s appeal was his mastery of song Distinctive direct and memorable his melodies were exported out of the opera house into every corner of French life serving as folkloristic tokens of celebration and solidarity longing and regret Gr try s attention to the subjectivity of his audiences had a profound effect on operatic culture forging a new sense of democratic collaboration between composer and listener This study provides a reassessment of Gr try s work and musical thought positioning him as a major figure who linked the culture of feeling and the culture of reason and who paved the way for Romantic notions of spectatorial absorption and the power of music

Introduction to the Literature of Europe in the 15th, 16th, and 17th Centuries Henry Hallam,1839 *Arts & Humanities Citation Index* ,1998 *Theater Technology* George C. Izenour,1996-01-01 George C Izenour ties detailed information on construction lighting acoustical structures electro mechanical hydraulic systems and stage controls to a rich history of technological developments from the invention of the proscenium stage in late Renaissance Italy to the contributions of our own time All the drawings are produced on the same scale for plan transverse section and perspective section

Albert Camus John Foley,2014-12-05 Adopting an interdisciplinary approach encompassing philosophy literature politics and history John Foley examines the full breadth of Camus ideas to provide a comprehensive and rigorous study of his political and philosophical thought and a significant contribution to a range of debates current in Camus research Foley argues that the coherence of Camus thought can best be understood through a thorough understanding of the concepts of the absurd and revolt as well as the relation between them This book includes a detailed discussion of Camus writings for the newspaper *Combat* a systematic analysis of Camus discussion of the moral legitimacy of political violence and terrorism a reassessment of the prevailing postcolonial critique of Camus humanism and a sustained analysis of Camus most important

and frequently neglected work *L'Homme révolté* *The Rebel* Debussy's Critics Alexandra Kieffer, 2019-06-04 Debussy's Critics Sound Affect and the Experience of Modernism explores the music of Claude Debussy and its early reception in light of the rise of the empirical human sciences in Western Europe around the turn of the twentieth century In the midst of a sea change in conceptions of the human person the critics who wrote about Debussy's music in the Parisian press continually returning to this music's nebulous relationship to sensation and sensibility attempted to articulate a music aesthetic appropriate to the fully embodied material self of psychological modernism While scholarship on French music in this period has often emphasized its affinities with other art forms such as Impressionist painting and Symbolist poetry Debussy's Critics demonstrates that a preoccupation with the specifically sonic materiality of Debussy's music informed by late nineteenth century scientific discourses on affect perception and cognition was central to this music's historical intervention Foregrounding the dynamic exchange between sounds and ideas this book reveals the disorienting and bewildering experience of listening to Debussy's music which compelled its early audiences to reimagine the most fundamental premises of the European art music tradition **Women Art Critics in Nineteenth-Century France** Wendelin Guentner, 2013-03-14 Over the past years studies have begun not only to identify the factors that impeded the full participation of women artists in French cultural life such as women's limited access to professional art education but also to bring to light the considerable artistic accomplishments of women occluded by historians for over a century A similar effort at historical revision has been under way for French women writers Works of fiction that enjoyed many editions in the nineteenth century receded from our field of vision for almost a century before being rediscovered and reissued during the last decades of the twentieth century Such efforts have resulted in scholarship that has helped revise the history of both artistic and literary expression in nineteenth century France Similarly many women in nineteenth century France had their art criticism published both in journal reviews and in book form often for decades in a number of the most influential venues of their day However it is perplexing that they remain almost totally invisible in histories of French culture *Women Art Critics in Nineteenth Century France Vanishing Acts* is the first sustained effort to bring these prolific and influential critics out from the shadows Although each of the chapters in this volume results from an interdisciplinary approach the fact that they are written by scholars in art history and in literature means that there will be inevitable differences in approach and methodology Thus we study the women's reception of specific artworks and aesthetic movements discuss intersections of aesthetics and politics in their essays and the literary styles and rhetorical strategies of individual critics explore the social conditions that allowed or impeded their successes and suggest reasons for their all but disappearance in the twentieth century In bringing to light for twenty first century readers the vanished writings of heretofore unrecognized or underrecognized women art critics the authors hope to contribute to the ongoing revision of women's role in cultural history The multifaceted approaches to word image studies modeled in this book and the many avenues for further research it

identifies will inspire scholars in a number of disciplines to continue the work of reinscribing women in the history of cultural life *Music, Pantomime and Freedom in Enlightenment France* Hedy Law, 2020 How did composers and performers use the lost art of pantomime to explore and promote the Enlightenment ideals of free expression **Popular Opera in Eighteenth-Century France** David Charlton, 2021-12-16 A major re orientation in understanding opera exploring musical comedies with spoken dialogue previously excluded from historical accounts **Paradise Lost and the Making of English Literary Criticism** David A. Harper, 2023-12-20 *Paradise Lost and the Making of English Literary Criticism* identifies the early reception of *Paradise Lost* as a site of contest over the place of literature in political and religious controversy Milton's earliest readers and critics Dryden Addison Dennis Hume and Bentley confronted a poem and author at odds with the prevailing culture and the revanchist conservatism of the restored monarchy Grappling with the epic required navigating Milton's reputation as a fanatic who had called in print for Charles I's execution inveighed openly against monarchy on the eve of Charles II's return and held heretical views on the trinity baptism and divorce Harper argues that foundational figures in English literary criticism rose to this challenge by innovating new ways of reading producing creative and subversive rewritings of *Paradise Lost* articulating new theories of the sublime explaining the poem in the first substantial body of annotations for an English vernacular text and by pioneering early forms of textual criticism and editing **Reading Critics Reading** Roger Parker, Mary Ann Smart, 2001 This book is among the first to examine French opera and ballet criticism during the first half of the nineteenth century both as a historical and a literary phenomenon It thus provides a new and badly needed perspective for scholars and other commentators who have often been willing to treat the journalistic responses to such musical genres chiefly as a simple source of factual information The essays taken from a conference in Oxford in 1996 explore the kinds of problem encountered and the types of methodology that might be employed in trying to interpret these critical responses they throw light on such aspects as the cultural attitudes underlying the writers rhetoric the aesthetic stances and ideological agendas at play and how modes of production influenced content

Whispering the Strategies of Language: An Emotional Quest through **Opera 17 Critiques In French**

In a digitally-driven earth wherever screens reign supreme and immediate transmission drowns out the subtleties of language, the profound secrets and emotional subtleties concealed within words often move unheard. Yet, set within the pages of **Opera 17 Critiques In French** a captivating literary prize sporting with organic emotions, lies a fantastic quest waiting to be undertaken.
