*The Genres of Rhetorical Speeches in Greek and Roman Antiquity* Cristina Pepe, 2013-09-12 In *The Genres of Rhetorical Speeches in Greek and Roman Antiquity* Cristina Pepe offers a complete overview of the concept of speech genre within ancient rhetoric. By analyzing sources dating from the 5th-4th century BC, the author proves that the well-known classification in three rhetorical genres: deliberative, judicial, and epideictic, introduced by Aristotle, was rooted in the debate concerning the forms and functions of the art of persuasion in classical Athens. Genres play a leading role in Aristotle's *Rhetoric*, and the analysis of considerable sections of the treatise shows profound links between the characterization of the rhetorical genres and Aristotelian philosophy as a whole. Finally, the volume explores the developments of the theory of genres in Hellenistic and Imperial rhetoric.

Grief and the Hero Emily P. Austin, 2021-03-01 *Grief and the Hero* examines Achilles' experience of the futility of grief in the context of the *Iliad*'s study of anger. No action can undo his friend Patroklos' death, but the experience of death drives him to behave as though he can achieve something restorative. Rather than assuming that grief gives rise to anger, as most scholars have done, *Grief and the Hero* pays close attention to the poem's representation of the origin of these emotions. In the *Iliad*, only Achilles' grief for Patroklos is joined with the word *poth* (longing); no other grief in the poem is described with this term. The *Iliad* depicts Achilles' grief as the rupture of shared life, an insight that generates a new way of reading the epic. Achilles' anguish drives him to extremes, oscillating between self-isolation and seeking communal expressions of grief: between weeping abundantly and relentlessly pursuing battle between varied threats of mutilation, deeds of vengeance, and other vows. Yet his yearning for life shared with Patroklos is the common denominator. Here lies the profound insight of the *Iliad*: all of Achilles' grief-driven deeds arise from his longing for life with Patroklos, and thus all of these deeds are, in a deep sense, futile. He yearns for something unattainable, undoing the reality of death. *Grief and the Hero* will appeal not only to scholars and students of Homer but to all humanists. Loss, longing, and even revenge touch many human lives, and the insights of the *Iliad* have broad resonance.

**Visions of Statesmanship** David Hansen, 2024-03-12 In *Visions of Statesmanship: A Statesman's Imagination and Autonomy*, David Hansen provides a critical examination of the figure of the statesman as it has been presented in the philosophical reflections of three key thinkers: Plato, Yannis Markrygiannis, and Cornelius Castoriadis. In the course of the analysis, the chapters broadly investigate and assess the complex reception history that obtains among this particular configuration of intellectual history by offering authors, activists, and texts linked to critical political and social theory in German, French, and Anglo-American contexts. The focus falls on the imagination variously conceived and notions of autonomy and how these ideals potentially confront specific conditions of political and social reality. What emerges across the millennia is an episodic account of dialectical encounters between freedom and unfreedom; how philosophical endeavors discern alternatives that raise consciousness of societal possibilities that challenge realities with the

aim of changing practices of domination oppression and exploitation Rather than regard intellectual and literary labor as ideological reflections of the material base Hansen considers to what extent these free works of the imagination offer concrete visions that would increase justice communal harmony and global peace historical contingencies and limitations

Husserl and the Idea of Europe Timo Miettinen,2020-03-15 Husserl and the Idea of Europe argues that Edmund Husserl's late reflections on Europe should not be read either as departures from his early transcendental phenomenology or as simple exercises of cultural criticism but rather as systematic phenomenological reflections on generativity and historicity Timo Miettinen shows that Husserl's deliberations on Europe contain his most compelling and radical interpretation of the intersubjective communal and historical dimensions of phenomenology Husserl and his generation worked in the aftermath of World War I as Europe struggled to redefine itself and he penned his late writings as the clouds of World War II gathered Decades later the fall of the Soviet Union again altered the continent's identity and its political and economic divisions Miettinen writes as a European involved in the question of Europe and many of the recent authors and critics he addresses in this work such as Michel Foucault Jacques Derrida and Giorgio Agamben likewise deeply engaged with this new problem of European identity The book illuminates the multifaceted problem of the idea of European rationality and it defends novel conceptions of universalism and teleology as necessary components of radical philosophical reflection

apparatus and the common misconceptions about first principles thereby revealing the underlying reasons for our aporias as well as their protreptic meaning and redeeming function This study offers a new and positive reading of Damascius equally extreme and fascinating aporetic philosophy L'aporétique radicale du traité des Principes Premiers du néoplatonicien Damaskios doit être comprise comme tant l'unique voie d'accès vers une compréhension différente, supérieure et purifiée des principes premiers et de nous-mêmes Autant qu'une quête des réalités primordiales ce traité est une réflexion sur les processus et les limites de la pensée humaine dans ses rapports avec les principes premiers Ce présent livre montre les raisons du surgissement de telles apories leur sens et leur rôle paradoxalement salvateur en dénonçant les plus hautes imperfections de nos discours les pièges insoupçonnés de nos mécanismes cognitifs et l'inadéquation funeste de nos conceptions concernant les premiers principes Le résultat est un regard neuf et une compréhension dramatisée de cette aporétique extrême et fascinante
