Gestures of Music Theater Dominic Symonds, Millie Taylor, 2014-02 Gestures of Music Theatre The Performativity of Song and Dance offers new cutting edge essays focusing on song and dance as performative gestures that not only entertain but also act on audiences and performers The chapters range across musical theatre opera theatre and other artistic practices from Glee to Gardzienice Beckett to Disney Broadway to Turner Prize winning sound installation The chapters draw together these diverse examples of vocality and physicality by exploring their affect rather than through considering them as texts The book s contributors derive methodologies from many disciplines Resisting discrete discipline based enquiry they share methodologies and performance repertoires with discipline based scholarship from theatre studies musicology and cultural studies amongst other approaches Together they view these as neighboring voices whose dialogue enriches the study of contemporary music theatre **G.K.
