*Charopos* P G Maxwell Stuart,1981      **Dance in Handel's London Operas** Sarah Yuill McCleave,2013 Handel set himself  
 apart from his contemporaries by employing choreographed instrumental music to complement and reinforce the emotional  
 impact of his operas Of his fifty three operas no fewer than fourteen including ten written for the London stage feature  
 dances This book explores the relationship between music drama and dance in these London works dispelling the notion that  
 dance was a largely peripheral element in Italian language operas prior to those of Gluck Taking a chronological approach  
 the author examines operas written throughout various periods in Handel s life beginning with his early London operas  
 including his time at the Royal Music Academy and the Sall operas of the 1730s and concluding with his unstaged dramatic  
 opera *Alceste* 1750 In considering the various influences on Handel particularly the London stage the author blends analysis  
 of information from eighteenth century treatises with that found in more modern studies offering an informed and  
 imaginative understanding of the role dance played in the work of this major figure one who remained responsive throughout  
 his career to the vital and innovative theatrical environment in which he worked      *Astronomy with an Opera-glass* Garrett  
 Putman Serviss,2022-07-15 Excerpt Star gazing was never more popular than it is now In every civilized country many  
 excellent telescopes are owned and used often to very good purpose by persons who are not practical astronomers but who  
 wish to see for themselves the marvels of the sky and who occasionally stumble upon something that is new even to  
 professional star gazers Yet notwithstanding this activity in the cultivation of astronomical studies it is probably safe to assert  
 that hardly one person in a hundred knows the chief stars by name or can even recognize the principal constellations much  
 less distinguish the planets from the fixed stars And of course they know nothing of the intellectual pleasure that  
 accompanies a knowledge of the stars Modern astronomy is so rapidly and wonderfully linking the earth and the sun together  
 with all the orbs of space in the bonds of close physical relationship that a person of education and general intelligence can  
 offer no valid excuse for not knowing where to look for Sirius or Aldebaran or the Orion nebula or the planet Jupiter As  
 Australia and New Zealand and the islands of the sea are made a part of the civilized world through the expanding influence  
 of commerce and cultivation so the suns and planets around us are in a certain sense falling under the dominion of the  
 restless and resistless mind of man We have come to possess vested intellectual interests in Mars and Saturn and in the sun  
 and all his multitude of fellows which nobody can afford to ignore      *The Beggar's Opera, to which is prefixed the Musick to  
 Each Song* John Gay,2022-05-10 The book *The Beggar s Opera to Which is Prefixed the Musick to Each Song* has been

considered important throughout the human history Beggar s Opera is a tongue in cheek drama from the 18th century about a bunch of low lifes who constantly try to make money at each other s expense The funniest plot line is that of the dastardly Captain MacHeath and his two paramours Polly Peachum and Lucy Lockit Polly is the daughter of the head of the local criminal gang and Lucy the daughter of the jailer Amazon      **Handel Opera Libretti: Ariodante ; Serse ; Orlando ; Partenope ; Tamerlano ; Radamisto ; Lotario** George Frideric Handel,Nico Castel,2005      *Operas in German: A Dictionary* Margaret Ross Griffel,2018-01-23 With nearly three thousand new entries the revised edition of Operas in German A Dictionary is the most current encyclopedic treatment of operas written specifically to a German text from the seventeenth century through 2016 Musicologist Margaret Ross Griffel details the operas composers scores librettos first performances and bibliographic sources Four appendixes then list composers librettists authors whose works inspired or were adapted for the opera librettos and a chronological listing of the entries in the A Z section The bibliography details other dictionaries and encyclopedias performance studies collections of plot summaries general studies on operas sources on locales where opera premieres took place works on the history of operas in German and selective volumes on individual opera composers librettists producers directors and designers Finally two indexes list the main characters in each opera and the names of singers conductors producers composers directors choreographers and arrangers The revised edition of Operas in German provides opera historians musicologists performers and opera lovers with an invaluable resource for continued study and enjoyment      **Operatic Anthology** Max Spicker,1931      **Subject Guide to Books in Print** ,1991
