The NNICC Report, 1987 **Foreign Operations, Export Financing, and Related Programs Appropriations for 2002** United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs, 2001

The World Geopolitics of Drugs, 1998/1999 Alain Labrousse, Laurent Laniel, 2013-06-29 The other report is published by the U S State Department and is more committed but only as far as the national interest of the world's only superpower is concerned Therefore the State Department report must be read while keeping in mind the state of U S relations with the countries concerned This report is accompanied by the so called certification process whose arbitrary character has often been stressed For instance Iran a country whose determination to fight the drug transit on its territory is well known more than 100 Iranian law enforcement agents die every year as a result was removed from the blacklist of decertified countries in the spring of 1999 precisely as it was inaugurating a policy of opening itself to external influence including that of the United States In retrospect this demonstrates that the U S government had decertified Iran in past years because it was viewed as an Islamic and terrorist country not because of its supposed involvement in drug trafficking Neither does the last State Department report explain why Haji Ayub Afridi a major Pakistani drug baron who had voluntarily surrendered to U S authorities returned to Pakistan in 1999 after spending a mere three and a half years in a U S prison

Unwinnable Theo Farrell, 2017-09-07 Afghanistan was an unwinnable war As British and American troops withdraw discover this definitive account that explains why It could have been a very different story British forces could have successfully withdrawn from Afghanistan in 2002 having done the job they set out to do to defeat al Qaeda Instead in the years that followed Britain paid a devastating price for their presence in Helmand province So why did Britain enter and remain in an ill fated war Why did it fail so dramatically and was this expedition doomed from the beginning Drawing on unprecedented access to military reports government documents and senior individuals Professor Theo Farrell provides an extraordinary work of scholarship He explains the origins of the war details the campaigns over the subsequent years and examines the West's failure to understand the dynamics of local conflict and learn the lessons of history that ultimately led to devastating costs and repercussions still relevant today The best book so far on Britain's war in Afghanistan International Affairs Masterful irrefutable Farrell records all these military encounters with the irresistible pace of a novelist Sunday Times

Peace Operations and Organized Crime James Cockayne, Adam Lupel, 2011-05-10 Peace operations are increasingly on the front line in the international community's fight against organized crime this book explores how in some cases peace operations and organized crime are clear enemies while in others they may become tacit allies The threat posed by organized crime to international and human security has become a matter of considerable strategic concern for national and international decision makers so it is somewhat surprising how little thought has been devoted to addressing the complex relationship between organized crime and peace operations This volume addresses this gap questioning the emerging orthodoxy that portrays organized crime as an external threat to the liberal peace championed by western and allied states and delivered through peace operations Based upon a series of case studies it concludes that organized crime is both a potential enemy and a potential ally of peace operations and it argues for the need to distinguish between strategies to contain organized crime and strategies to transform the political economies in which it flourishes The editors argue for the development of intelligent transnational and transitional law enforcement that can make the most of organized crime as a potential ally for transforming political economies while at the same time containing the threat it presents as an enemy to

building effective and responsible states The book will be of great interest to students of peacebuilding peace and conflict studies organised crime Security Studies and IR in general Quarterly Review of Military Literature ,1992
