Operation Condor Rommels Spy:

Rommel's Spy John Eppler, 2014-09-02 In 1942 John Eppler was one of two German spies inserted behind British lines in Egypt after an epic crossing of the Western Desert organised by the Hungarian explorer Count László Almásy Operation Condor But this was far from his first adventure Of German origin but raised since childhood in a wealthy Egyptian family and a convert to Islam he had travelled widely in the Middle East for German Military Intelligence The book details German links with Arab nationalists during the War indeed one of Eppler's contacts in Cairo was a young officer called Anwar el Sadat later President of Egypt Before Operation Condor Eppler had been the interpreter when the Grand Mufti of Jerusalem met Hitler in Berlin and the book gives a full description of this controversial encounter This story has inspired numerous films such as Foxhole in Cairo 1960 where John Eppler was played by Adrian Hoven and more recently Operation Condor was referenced in the Oscar winning The English Patient 1996 This is the genuine first hand account of one of the most daring missions of the Second World War

Operation Condor John Eppler, 1977 **The Rebecca Code** Mark Simmons, 2011-11-30 John Eppler thought himself to be the perfect spy Born to German parents he grew up in Egypt adopted by a wealthy family and was educated in Europe Fluent in German English and Arabic he made the Hadj to Mecca but was more at home in high society or travelling the desert on camelback with his adopted Bedouin tribe After joining the German Secret Service in 1937 in 1942 he was sent across the desert to Cairo by Field Marshal Rommel His guide was the explorer and Hungarian aristocrat Laszlo Almásy a man made famous by the book The English Patient Eppler's mission was to infiltrate British Army Headquarters and discover the Eighth Army's troop movements and battle plans In The Rebecca Code Mark Simmons reveals the story of Operation Condor and its comedy of errors and how it was foiled by Major A W Sammy Sansom of the British Field Security Service It is a tale of the desert of the hotbed of intrigue that was 1940s Cairo and the spy who was to send his reports using a code based on Daphne du Maurier's novel Rebecca

Spy and Counterspy Ian Dear, 2013-07-01 The shadowy world of supposedly legalized spying has an enduring fascination for us all Spy and Counterspy reveals for the first time the web of spies that spanned the globe during and after the Second World War working for organisations like MI5 MI6 the CIA OSS Soviet Smersh NKVD Japanese Tokko and the German Gestapo These men and women lived extraordinary lives always on the edge of exposure and the risk of death Many of them were so in love with the Great Game of espionage that they betrayed their countries and acted as double and sometimes even triple agents in a complex deception that threatened the very grasp of power in government Their war in the shadows remained unrecognized until today

Operation Condor John W. Eppler, 1978 *The Rebecca Code* Mark Simmons, 2011-11-30 John Eppler thought himself to be the perfect spy Born to German parents he grew up in Egypt adopted by a wealthy family and was educated in Europe Fluent in German English and Arabic he made the Hadj to Mecca but was more at home in high society or travelling the desert on camelback with his adopted Bedouin tribe After joining the German Secret Service in 1937 in 1942

Double Cross in Cairo Nigel West, 2015-01-20 As part of the infamous Double Cross operation Jewish double agent Renato Levi proved to be one of the Allies most devastating weapons in World War Two In 1941 with the help of MI6 Levi built an extensive spy ring in North Africa and the Middle East But most remarkably it was entirely fictitious This network of imagined informants peddled dangerously false misinformation to Levi's unwitting German handlers His efforts would distort any enemy estimates of Allied battle plans for the remainder of the war His communications were infused with just enough truth to be palatable and just enough imagination to make them irresistible In a vacuum of seemingly trustworthy sources Levi's enemies not only believed in the CHEESE network as it was codenamed but they came to depend upon it And by the war's conclusion he could boast of having helped the Allies thwart Rommel in North Africa as well as diverting whole armies from the D Day landing sites He wielded great influence and as a double agent he was unrivalled Until now Levi's devilish deceptions and feats of derring do have remained completely hidden Using recently declassified files *Double Cross in Cairo* uncovers the heroic exploits of one of the Second World War's most closely guarded secrets

The Beautiful Spy David Tremain, 2019-04-05 In September 1940 a beautiful young woman arrived by seaplane and rubber dinghy on the shores of Scotland accompanied by two men one of Germany's many attempt to penetrate British defences and infiltrate spies into the UK This seems to be one of the few established facts in the otherwise mysterious tale of Vera Eriksen Even the origins of the woman described as the most beautiful spy remain hazy as does her ultimate fate David Tremain delves into the archives and in doing so begins to reveal glimpses of her fascinating life story her career as a dancer in Paris a tumultuous and violent dalliance with a White Russian officer of uncertain identity her time in England with the Duchesse de Chateau Thierry an Abwehr agent the suspicious and untimely death of her husband and a rumoured pregnancy *The Beautiful Spy* also grapples with perhaps the biggest mystery of all what happened to Vera after she was released by the British

War of Shadows Gershom Gorenberg, 2021-01-19 In this World War II military history Rommel's army is a day from Cairo a week from Tel Aviv and the SS is ready for action Espionage brought the Nazis this far but espionage can stop them if Washington wakes up to the danger As World War II raged in North Africa General Erwin Rommel was guided by an uncanny sense of his enemies plans and weaknesses In the summer of 1942 he led his Axis army swiftly and terrifyingly toward Alexandria with the goal of overrunning the entire Middle East Each step was informed by detailed updates on British positions The Nazis somehow had a source for the Allies greatest secrets Yet the Axis powers

were not the only ones with intelligence Brilliant Allied cryptographers worked relentlessly at Bletchley Park breaking down the extraordinarily complex Nazi code Enigma From decoded German messages they discovered that the enemy had a wealth of inside information On the brink of disaster a fevered and high stakes search for the source began War of Shadows is the cinematic story of the race for information in the North African theater of World War II set against intrigues that spanned the Middle East Years in the making this book is a feat of historical research and storytelling and a rethinking of the popular narrative of the war It portrays the conflict not as an inevitable clash of heroes and villains but a spiraling series of failures accidents and desperate triumphs that decided the fate of the Middle East and quite possibly the outcome of the war

Deceiving Hitler Terry Crowdy, 2011-12-20 In the war against Hitler the Allies had to use every ounce of cunning and trickery that they possessed Combining military deceptions with the double agent network run by the intelligence services they were able to send the enemy misleading information about Allied troops plans and operations From moving imaginary armies around the desert to putting a corpse with false papers floating in the Mediterranean and from faking successful bombing campaigns to the convoluted deceptions which kept part of the German forces away from Normandy prior to D Day Terry Crowdy explores the deception war that combined the double agent network with ingenious plans to confuse and hoodwink the Führer

Agent Cicero Mark Simmons, 2014-07-07 ELYESA BAZNA WAS THE HIGHEST PAID SPY IN HISTORY Working for the British ambassador in Ankara in 1943 Bazna photographed top secret documents and sold them to the Nazis So started his career as a walk in a freelance spy whose loyalties lay with the highest bidder His codename was Cicero But a beautiful woman was to end it all Cicero was compromised by an American controlled agent working at the German Embassy who obtained his codename and discovered that he was working at the British Embassy He fled and narrowly avoided being captured by the tipped off British Finally free he realised his money was worthless most of it was counterfeit produced by the Nazi scheme Operation Bernhard In Agent Cicero Hitler's Most Successful Spy Mark Simmons weaves together personal accounts by the leading characters and information from top secret files from MI5 MI6 and the CIA to tell this astonishing story

The Battle of Matapan 1941 Mark Simmons, 2011-10-21 In March 1941 the Royal navy scored one of the greatest one sided victories against the Italian Fleet the Regia Marina at Matapan It brought to an end six months of remarkable success for the Royal Navy in the Mediterranean When France fell and Italy declared war on Britain Admiral Dudley Pound had wanted to evacuate the Mediterranean altogether and concentrate on home defence Churchill overruled him regarding such a move as the death knell of the British Empire His decision made the Mediterranean theatre the focus of British land operations for four years reliant on the Navy In Admiral Andrew Cunningham Churchill had a fleet commander in the Mediterranean who would miss no chance of hounding the enemy Affectionately known as A B C by his men Cunningham was salty in his language intolerant of fools and a master of tactics In The Battle of Matapan 1941 The Trafalgar of the Mediterranean Mark Simmons explores the remarkable victories of Taranto and Matapan as seen through

Dictionary of German Intelligence Jefferson Adams,2009-09-01 No country can rival the sheer diversity of intelligence organizations that Germany has experienced over the past 300 years Given its pivotal geographical and political position in Europe Germany was a magnet for foreign intelligence operatives especially during the Cold War As a result of this it is no wonder that during certain periods of history Germany was probably busier spying on its own citizens than on its enemies Because of the Gestapo and the SS of Nazi Germany to the Stasi of the German Democratic Republic the fear of domestic abuse by security agencies with police powers runs far deeper in German society than elsewhere in the West The Historical Dictionary of German Intelligence presents the turbulent history of German intelligence through a chronology a bibliography and hundreds of cross referenced dictionary entries on the agencies and agents the operations and equipment the tradecraft and jargon and many of the countries involved No military reference collection is complete without it *Deutsche*

Afrikakorps , **Cairo in the War** Artemis Cooper,2013-10-24 For troops in the desert Cairo meant fleshpots or brass hats For well connected officers it meant polo at the Gezira Club and drinks at Shepheard s For the irregular warriors Cairo was a city to throw legendary parties before the next mission behind enemy lines For countless refugees it was a stopping place in the long struggle home The political scene was dominated by the British Ambassador Sir Miles Lampson In February 1942 he surrounded the Abdin Palace with tanks and attempted to depose King Farouk Five months later it looked as if the British would be thrown out of Egypt for good Rommel s forces were only sixty miles from Alexandria but the Germans were pushed back and Cairo life went on Meanwhile in the Egyptian Army a handful of young officers were thinking dangerous thoughts
