Operation Defensive Shield Witnesses To Israeli War Crimes:

Operation Defensive Shield Muna Hamzeh, Todd May, 2003-06-20 Shows how transnational corporations use lobby groups to shape EU policy New updated edition The Politics of Teaching Palestine to Americans M. Knopf-Newman, 2011-11-21 Explores how American youth are indoctrinated with Zionist mythology and how to intervene in that process by teaching about Palestine It argues that as the relationship between Zionist education and the Israel lobby continues to be strong it is necessary to correct the misrepresentations that infiltrate Western culture *The Heartbeat of the Prophetic* Marc H. Ellis, 2017-09-19 In volume one of this multi volume series Marc Ellis explores the essence of the prophetic by intertwining the context of ordinary life and the explosive reality of Jewish identity the Holocaust and Israel Palestine But Ellis s prophetic challenge extends to people of all faiths and backgrounds For Jews Christians and Muslims where does the prophetic come from and how do we define it Is the heartbeat of the prophetic God or our own commitment In our time where belief in God is more difficult does the prophetic suggest only the possibility of God With or without God is the prophetic worth the suffering that comes the exile s way Ellis s unfolding narration of the prophetic is unique and probing for those who take life justice and faith seriously **Apartheid in Palestine** Ghada Ageel, 2016-02-12 Of all the crimes to which Palestinians have been subjected through a century of bitter tragedy perhaps none are more cruel than the silencing of their voices The suffering has been most extreme criminal and grotesque in Gaza where Ghada Ageel was one of the victims from childhood This collection of essays is a poignant cry for justice far too long delayed Noam Chomsky There are more than two sides to the conflict between Palestine and Israel There are millions Millions of lives voices and stories behind the enduring struggle in Israel and Palestine Yet the easy binary of Palestine vs Israel on which the media so often relies for context effectively silences the lived experiences of people affected by the strife Ghada Ageel sought leading experts Palestinian and Israeli academic and activist to gather stories that humanize the historic processes of occupation displacement colonization and most controversially apartheid Historians scholars and students of colonialism and Israel Palestine studies and anyone interested in more nuanced debate will want to read this book Foreword by Richard Falk Contributors Yasmeen Abu Laban Ghada Ageel Huwaida Arraf Abigail B Bakan Ramzy Baroud Samar El Bekai James Cairns Edward C Corrigan Susan Ferguson Keith Hammond Rela Mazali Sherene Razack Tali Shapiro Reem Skeik Rafeef Ziadah **International Peacekeeping: The Yearbook of International Peace Operations** Harvey Langholtz, Boris Kondoch, Alan Wells, 2004-11-01 International Peacekeeping is devoted to reporting upon and analyzing international peacekeeping with an emphasis upon legal and policy issues but is not limited to these issues It is recognized that in today s world there is a wealth of information available from the internet and through other sources It is therefore the goal of this Yearbook to make this information available in one publication which both organizes and records events over the course of a year through analytical articles a chronicle primary documents and a bibliography Topics include inter alia peacekeeping peace war conflict

resolution diplomacy international law international security humanitarian relief humanitarian law and terrorism The Yearbook is of scholarly quality but is not narrowly theoretical It provides the interested public diplomats civil servants politicians the military academics journalists NGO employees and serious citizens with a document of record comment and a starting point for further research on peacekeeping and related topics This is achieved not only by the provision of basic documents on CD ROM such as Security Council Resolutions and Reports of the UN Secretary General but also by expert commentaries on world events Peacekeeping is treated in a pragmatic light seen as a form of international military cooperation for the preservation or restoration of international peace and security Attention is focused not only on UN peacekeeping operations but other missions as well This Yearbook is the continuation of the journal International Peacekeeping

Contemporary State Terrorism Richard Jackson, Eamon Murphy, Scott Poynting, 2009-09-10 This volume aims to bring the state back into terrorism studies and fill the notable gap that currently exists in our understanding of the ways in which states employ terrorism as a political strategy of internal governance or foreign policy Within this broader context the volume has a number of specific aims First it aims to make the argument that state terrorism is a valid and analytically useful concept which can do much to illuminate our understanding of state repression and governance and illustrate the varieties of actors modalities aims forms and outcomes of this form of contemporary political violence Secondly by discussing a rich and diverse set of empirical case studies of contemporary state terrorism this volume explores and tests theoretical notions generates new questions and provides a resource for further research Thirdly it contributes to a critical normative approach to the study of terrorism more broadly and challenges dominant approaches and perspectives which assume that states particularly Western states are primarily victims and not perpetrators of terrorism Given the scarceness of current and past research on state terrorism this volume will make a genuine contribution to the wider field particularly in terms of ongoing efforts to generate more critical approaches to the study of political terrorism This book will be of much interest to students of critical terrorism studies critical security studies terrorism and political violence and political theory in general Richard Jackson is Reader in International Politics at the University of Wales Aberystwyth He is the founding editor of the Routledge journal Critical

Ethics and Global Security Anthony Burke, Katrina Lee-Koo, Matt McDonald, 2014-06-27 This book will be the first systematic examination of the role that ethics plays in international security in both theory and practice and offers the reader a concrete ethics for global security Questions of morality and ethics have long been central to global security from the death camps world wars and H bombs of the 20th century to the humanitarian missions tsunamis terrorism and refugees of the 21st This book goes beyond the Just War tradition to demonstrate how ethical commitments influence security theory policy and international law across a range of pressing global challenges The book highlights how from patrolling a territorial border to maintaining armed forces security practices have important ethical implications by excluding some from consideration presenting others as potential threats and exposing them to harm and licensing particular actions While many scholars and practitioners of security claim little interest in ethics ethics clearly has an interest in them This innovative book extends the traditional agenda of war and peace to consider the ethics of force short of war such as sanctions deterrence terrorism targeted killing and torture and the ethical implications of new security concerns such as identity gender humanitarianism the responsibility to protect and the global ecology It advances a concrete ethics for an era of global threats and makes a case for a cosmopolitan approach to the theory and practice of security that could inspire a more just stable and inclusive global order This book fills an important gap in the literature and will be of much interest to students of ethics security studies and international relations

Beyond Security, Ethics and Violence Anthony Burke, 2007-02-12 Anthony Burke offers a ground breaking analysis of the historical roots of sovereignty and security his critique of just war theory and important new essays on strategy the concept of freedom and US exceptionalism

Hamas Contained Tareq Baconi, 2023-05-25 Judicious and impartial this important work adds nuance to the portrait of one of the Middle East s most divisive players Publishers Weekly Hamas is a multifaceted liberation organization that rules Gaza and the lives of the two million Palestinians who live there Demonized as a terrorist group in media and policy debates it has been subjected to accusations and assumptions that have helped justify extreme military action in the region In Hamas Contained Tareq Baconi offers the first history of the group on its own terms Drawing on interviews with organization leaders as well as publications from the group Baconi maps Hamas s thirty year transition from fringe resistance to governance Questioning the conventional understanding of Hamas he shows how the movement s ideology ultimately threatens the Palestinian struggle and inadvertently its own legitimacy Baconi demonstrates how Hamas s armed struggle has failed in the face of a relentless occupation and he argues that Israel s approach of managing rather than resolving the conflict has neutralized Hamas s demand for Palestinian sovereignty This dynamic has perpetuated a deadlock characterized by its brutality and one that has led to the collective punishment of millions of Palestinian civilians

Contemporary Political Movements and the Thought of Jacques Ranciere Todd May, 2010-02-05 In this book Todd May shows how democratic progressive politics can happen and how it is happening in very different arenas He takes an intensive look at a range of contemporary political movements and shows how to one degree or another they exemplify the political thought of Jacques Ranciere May's easy clear writing style means that no philosophical background is required Following an essential overview of Ranciere's thought he considers the following groups the Algerian refugee movement in Montreal for citizenship the first Palestinian intifada the politics of equality and identity politics in relation to the Zapatista movement a local food co op in South Carolina and an anarchist press in Oakland Essentially this book shows how political theory and practice can enlighten one another and in an age of cynicism fear and despair Todd May suggests there is hope for the possibility of progressive democratic action It will appeal to Ranciere students scholars and political activists alike

The Muslim World Book Review ,2005 *Hamás* Tareq Baoni, 2024-09-02 *Hamás gobierna Gaza y las vidas de los dos millones*

de palestinos que residen allí. Demonizado en los medios de comunicación y en los debates políticos se han utilizado diversas acusaciones y presunciones criticables para justificar una acción militar extrema contra Hamás. Pero la realidad de Hamás es por supuesto mucho más compleja. Ni un partido político democrático ni un grupo terrorista es una organización de liberación polifacética enraizada en las reivindicaciones nacionalistas del pueblo palestino. Este libro ofrece la primera historia del grupo escrita en sus propios términos. Basándose en entrevistas con dirigentes de la organización y en publicaciones del grupo, Tareq Baconí traza la transición de Hamás durante treinta años desde la resistencia militar marginal hacia la gobernanza. Abriendo nuevos caminos, cuestiona la concepción convencional de Hamás y muestra cómo la ideología del movimiento amenaza en última instancia la lucha palestina e inadvertidamente su propia legitimidad. La apuesta de Hamás por la lucha armada como medio de liberación ha fracasado frente a una ocupación implacable diseñada para fragmentar al pueblo palestino. Como argumenta Baconí, con el planteamiento israelí de gestionar el conflicto en lugar de resolverlo, la reivindicación de Hamás de la soberanía palestina ha quedado neutralizada de hecho por su contención en Gaza. Esta dinámica ha hecho permisibles la brutalidad y el castigo colectivo de millones de civiles palestinos.

The Israeli-Palestinian War Anthony H. Cordesman, 2005-10-30 The Israeli-Palestinian conflict is more than a local or regional dispute. Its ongoing and escalating nature increases the risk that the violence will spill over its present borders and contribute to both extremism and terrorism. While the Intifada from 1987 to 1993 was largely a popular uprising and a political struggle, the recent clash is a war with a steady escalation between conventional and unconventional forces. It is in the interest of all major powers, the international community and the United Nations to press both sides to accept a realistic peace plan. Noted Middle East expert Anthony Cordesman details this continuing struggle by explaining the issues at stake for each side, the various combatants both directly and indirectly engaged as well as the course of the war in its various incarnations. The situation on the ground is complex and the quest for peace is ever more uncertain. If the Intifada was a struggle for recognition, that a peace had to be reached, that was just for both sides, the Israeli-Palestinian War has polarized both sides away from peace, convincing them of the justice of their own cause and tactics and the fundamental injustice of the other side's tactics and goals. Each side has used human rights, international law and civilian casualties as political weapons. The history of a near century of conflict is used to justify war rather than a search for peace. *Journal of Palestine Studies*, 2006 [MultiCultural Review](#), 2003

Being Christian After the Desolation of Gaza Bruce Norman Fisk, J. Ross Wagner, 2025-08-12 What explains the fervent support among America's Christians for Israel's murderous assault on Gaza's Palestinians? Dying children cry beneath the rubble, doctors testify to atrocities, journalists and medics face sniper fire, experts cry genocide. Jewish Americans decry Israel's ethnic cleansing, protesting college students jeopardize their careers. Yet millions of Americans who profess allegiance to Jesus continue defending the desolation of Gaza or refuse to speak against it. In these essays you will read stories and hear cries from Christians American, Latin American, Jewish, Palestinian who have spent years listening, laboring and praying for a

durable equitable peace between Palestinians and their Jewish neighbors Their perspectives have formed over years in the land through lingering encounters hard conversations and troubling personal experiences Disagree with them if you must but first hear them out and consider why so many of Israel s Christian partisans have confused a love for the Jewish people with a defense of the apocalypse Israel has unleashed since October 7 2023 It may be too late to save Gaza s millions from starvation amputation displacement and death Is it too late to repent of our complicity Too late to save our own souls How should we be Christian after the desolation of Gaza Chapter contributors Mercy Aiken Yousef Kamal AlKhouri Daniel Bannoura Donald D Binder Gary M Burge David M Crump Rob Dalrymple Anton Deik Bruce N Fisk Suzanne Watts Henderson Lisa Loden Lamma Mansour Amy Yoder McGloughlin Benjamin Norquist Ruth Padilla DeBorst and J Ross Wagner
