Operation Hidden Agenda Playing Cards:

Operation Hidden Agenda Playing Cards Kathy Eder, 2003-06 Operation Hidden Agenda playing cards is a deck of 55 cards that aims to inform the public about the truth behind the Iraqi War launched by the United States in 2003 Global Exchanges, 1994 **Hidden Agenda** June Drummond, 1994 Suspenseful thriller which vividly portrays the tension of South Africa in the 1980s **Operation Southerly Breeze** Faun Pischerke, 2011-01-22 Southerly Breeze affords a Darwinian tale of survival of the meanest where assets become liabilities on the spur of the moment and none is spared The drama unfolds in Bulgaria a little known European country with about 6000 years of history a crucible of cultures and a cauldron of conflicts shortly before the end of the Cold War The plot culminates to a closure in the first chapter where several protagonists are introduced and the reader gets an idea of the Byzantine ways of Party circles Justice bursts in from unexpected corners The novel brings the idiosyncratic perspective of the common man caught in the whirlpool of events he has no control over and no knowledge of Additionally to the Western reader Cold War action was inevitably depicted along the overtly simplistic dichotomy of the fault lines of us vs them good vs bad free society vs the evil empire The loud voice of the everyman speaks in the book about a different struggle hitherto unknown a lot more complicated with degrees of evil perpetrated by an inherently evil system The story spins about three decades and takes place in three different regions of the country each with own unique ambiance One is the capital city Sofia In this ancient yet modern city government officials communicate with illiterate colorful Gypsy women and major political decisions are adopted behind a wall of secrecy shrouded by blatant hollow propaganda clichés In a parallel universe and at about the same time another plot develops in the second major city of Plovdiv and its immediate mountain vicinity all with rich history playing a vital role for the unfolding events While the ways and means of the local political tigress closely follow in the steps of her highly placed Sofia political patron she brings some unexpected twists in the fox chase game from her own book and proves to be a cunning and deadly enemy nonetheless Nothing personal business only is her implied Modus Operandi The story branches to a small village in the area a stone's throw away from the Greek border where a young man comes of age in the mythical mountain the birthplace of Orpheus and Bacchus In this bucolic village embraced by the majestic mountain doors are never locked and last names not needed History violently galloped in eons ago leaving a painful open wound then let it to its devices Later on the same village becomes a scene of clashes and renewed mayhem It is the arena of immense real drama where honor dignity and pride collide with brutal contemporary events forcing serious decisions repeating ancient history and bringing it to a complete circle The same ruthless tigress later seals the young man's fate as she eliminates some live hurdles towards her coveted full membership of the Politburo at the opportune moment in a brilliantly conceived and executed operation It involves among other things illicit smuggling treachery and violence while bringing unexpected justice to some nefarious characters Naturally she has no qualms and no regrets flying from the scene of carnage to a bargaining rendezvous of sorts with three

of her recent bed companions dead Later on after she investigates the life of her prematurely departed old time go fer she uncovers completely unexpected facts from her own past leaving her befuddled The last subplot develops around the ancient resort city of Varna on the Black Sea coast ruled by a promiscuous first secretary and his equally unscrupulous profligate wife Their despicable deeds are rewarded in an unexpected way in the opening chapter of the book with some belated name play and ominous coincidences Ancient myths and present day celebrations mingle into an explosive muddle of carnality violence and death leading to the ultimate demise of the First regional couple *Z Magazine* ,2003

Dirty Tricks or Trump Cards Roy Godson,2018-02-06 Contrary to popular misconceptions and public branding as dirty tricks covert action and counterintelligence can have considerable value Democracies while wary of these instruments have benefited significantly from their use saving lives treasure and gaining strategic advantage As liberal democracies confront the post Cold War mix of rogue states and non state actors such as criminals and terrorists and weapons of mass destruction and mass disruption these clandestine arts may prove to be important tools of statecraft and perhaps trump cards in the twenty first century Godson defines covert action as influencing events in other parts of the world without attribution and counterintelligence as identifying neutralizing and exploiting the secret activities of others Together they provide the capability to resist manipulation and control others to advantage Counterintelligence protects U S military technological and diplomatic secrets and turns adversary intelligence to U S advantage Covert action enables the United States to weaken adversaries and to assist allies who may be hampered by open acknowledgment of foreign support Drawing on contemporary and historical literature broad ranging contacts with senior intelligence officials in many countries as well as his own research and experience as a longtime consultant to the U S government Godson traces the history of U S covert action and counterintelligence since 1945 showing that covert action works well when it is part of a well coordinated policy and when policy makers are committed to succeeding in the long term Godson argues that the best counterintelligence

is an offensive defense His exposition of the essential theoretical foundations of both covert action and counterintelligence supported by historical examples lays out the ideal conditions for their use as well as demonstrating why they are so difficult to attain This book will be of interest to students and general readers interested in political science national security foreign policy and military policy *Jed* Ronald Lee Weagley,2011-07-29 A taste for the finest in material things produced a delicate wife two children and a more than adequate job However his craze for success consumed his focus and overpowered his value system JED played poker and won a national championship His fame spread He also won a trucking company in a challenge match game with a fool The win allowed him to move from being a small executive fish in a big pond to being the big top fish in a small pond and he loved it Failure with his family life further twisted his values He took his wives sister as a mistress and they produced a male child that remained a phantom until his death JED fought his demons while dancing between card games and union contracts Eventually the grim reaper cornered him in his penthouse hotel room paralyzed and dying A witness who knew him as a kind generous and thoughtful man described him at the funeral as a marvel of a man Nevertheless most doubted the description wondering Was he good or bad or both **Jewish Frontier** ,1983
