US Policy and NATO Military Operations in Kosovo United States. Congress. Senate. Committee on Armed Services,2000 **Disjointed War** Bruce Nardulli,Walter L. Perry,Bruce R. Pirnie,John IV Gordon,John G. McGinn,2002-06-05 An examination of the 1999 conflict in Kosovo with a focus on joint military operations The 1999 military operation against the Yugoslav Army in Kosovo suggests several areas in which Joint military operations were deficient This study examined all aspects of the Kosovo conflict including its political and historical underpinnings in an attempt to understand these deficiencies and to recommend improvements This document provided in both a classified and unclassified version is based on extensive original source documents and interviews with most of the principal participants and serves as the definitive Army record on Kosovo While the primary focus of the research was on U S Army involvement it covered many other aspects of Operation Allied Force Topics included NATO objectives in Operation Allied Force air and ground planning evolution of the air operation and its effects on fielded Yugoslav forces Task Force Hawk and peace operations The 1999 military operation in Kosovo suggests several areas in which Joint military operations were deficient This study examines all aspects of the Kosovo conflict with a focus on U S Army involvement including its political and historical underpinnings in an attempt to understand these deficiencies and to recommend improvements Disjointed War. Military Operations in Kosovo, 1999 ,2002 All military operations have problems and NATO's Operation Allied Force was no exception Nor did it accomplish every objective But whatever problems plagued the operation the outcome was a clear victory for NATO Operation Allied Force compelled the Yugoslavs to end the ethnic cleansing and expulsion of Kosovar Albanians withdraw their forces from Kosovo accept an international military presence in the province and permit the unconditional return of refugees Arguably it also compromised Slobodan Milosevic's ability to hold on to power and ultimately resulted in his incarceration All of that said problems abounded during the NATO military operation and this report focuses on these problems because they offer a rich trove of lessons for future operations Specifically we focus on a subset of problems those implicit in our title Disjointed War Allied Force was a joint multiservice operation but it was not fought that way at least to the extent that it could and should have been This was especially true when it came to joint planning and operations in integrating air and ground capabilities Operation Allied Force was also a combined multinational operation Fighting as an alliance brought essential political benefits but it also induced a host of issues that had important operational military implications These joint and combined difficulties caused confusion probably made the operation less effective than it could have been and possibly delayed victory Had Milosevic not capitulated and had the allies eventually decided to launch a ground offensive this disjointedness could have had severe consequences Department of Defense Appropriations for 2000 United States. Partnership Peace Operations Hideaki Shinoda, 2024-04-09 Partnership is a key concept in contemporary international peace operations There is no universal model of peace operations in contemporary international society Ad hoc arrangements

of partnership between the United Nations and various regional organizations are consequences of the complex circumstances of international security The ways in which partnerships are organised differently in different regions reflect each region s distinctive security situation The universal nature of liberal peacebuilding is thus maintained only by ad hoc arrangements All the UN peacekeeping operations in Africa have some partnership linkages with regional or sub regional organizations ranging from the African Union AU and regional mechanisms to the European Union EU What are the conditions and characteristics that enable or lead to partnership peacekeeping in Africa How should we understand lower levels of partnership peacekeeping in other regions By highlighting key characteristics of partnership peacekeeping the book explores these issues and argues that partnership is a reflection of political circumstances The book provides an unexplored but critical perspective to understand the contemporary world for those who study International Relations Security Studies International Organizations and Peace Studies Military Intelligence Professional Bulletin ,2003 **Department of Defense Appropriations for 2001: Readiness of United States forces** United States. Subcommittee on Department of Defense,2004 *The Drone Wars of the 21st Century* Kristen Boon,2014 We devote this volume to an examination of the apparent shift in the use of force in defending U S interests and in furthering U S national security policy The nation s use of unmanned aerial vehicles in lieu of more conventional military capabilities has been increasing significantly since the beginning of the century Commonly referred to as drones these surveillance and weapons systems appear to offer many advantages They allow the United States to apply force in areas otherwise inaccessible to military units drones are beginning to be used domestically for law enforcement purposes This volume on drones focuses on international use of the systems The following volume will address domestic use of drones *Instances of Use of United States Armed Forces Abroad, 1798-2008* Richard F. Grimmitt,2010 Lists hundreds of instances in which the U S has used its armed forces abroad in situations of military conflict or potential conflict or for other than normal peacetime purposes Provides a survey of past U S military ventures abroad without reference to the magnitude of the given instance noted The instances differ in number of forces purpose extent of hostilities and legal authorization Eleven times in its history the U S has formally declared war against foreign nations More recent instances often involve deployment of U S military forces as part of a multinational operation assoc with NATO or the U N The majority of the instances listed prior to WW2 were brief Marine or Navy actions to protect U S citizens or promote U S interests Twenty-first-century Peace Operations William J.
