Tomando como referência que os pensamentos ortodoxos e heterodoxos são vivos nos campos das ideias e da realidade atual este livro promove uma visão panorâmica sobre temas relevantes no campo epistemológico da Economia tendo o objetivo de apresentar análises e debates que tomam como fundamentos distintos paradigmas teóricos metodológicos do pensamento econômico para interpretar a empiria dos assuntos e estudos de casos. O ecletismo teórico metodológico proposto nesta obra explicitado tanto pela presença de um plural debate entre diferentes correntes teóricas do pensamento econômico quanto por diferentes procedimentos metodológicos de levantamento e análise de dados possibilitando assim a apreensão de diferentes técnicas para captação e interpretação dos fenômenos econômicos. Caracterizado por uma natureza exploratória descritiva e explicativa quanto aos fins e por uma abordagem qualitativa quanto aos meios utilizados nas pesquisas este livro foi estruturado por meio de distintas técnicas e métodos de pesquisa a fim de possibilitar divergentes abordagens teóricas conceituais para abordar a realidade empírica dos relatos de experiência e dos estudos de caso assim resultando em uma pluralidade de debates. Histórias de África - Capitalismo, modernidade e globalização Frederick Cooper, 2017-03-01. A obra de Frederick Cooper ocupa hoje um lugar fulcral na compreensão dos processos imperiais e coloniais. Centrado na história de África nos séculos vinte Cooper tem conseguido articular os seus objetos de estudo com um conjunto de problemas teóricos e metodológicos investidos de uma dimensão global o que acontece nas análises deste livro relativas às questões do trabalho do Estado colonial e das formas de cidadania da modernização e do desenvolvimento da descolonização e da história das ciências sociais incluindo nestas os estudos coloniais. No tratamento de todas estas questões fica demonstrado como uma análise temática assente em terrenos empíricos solidamente investigados capaz de abrir as portas a uma história feita em função de problemas. Por isso mesmo a obra de

Cooper constitui-se no registo singular de um modo exemplar de fazer história e como consequência o impacto da sua obra tem extravasado o domínio mais estrito da história de frica para o que em grande medida contribuiu a própria intenção do autor de não se deixar circunscrever a problemáticas e unidades geográficas ou políticas restritas. O Brasil e o dilema da globalização Ricupero Rubens, 2019-08-06. Nesse livro, o autor examina uma questão central para o Brasil na atualidade: como deve ocorrer a inserção do país na economia globalizada? E a partir daí, reflete sobre as condições em que ela pode se processar sem sacrifício da identidade nacional e com o sentido de um verdadeiro desenvolvimento. **Milton Santos: A Pioneer in Critical**

Geography from the Global South Lucas Melgaço, Carolyn Prouse, 2017-05-08. For decades Milton Santos (1926-2001) has been considered one of the most influential thinkers in Brazilian and Latin American social sciences and geography. Yet his writings, most of which have not been translated into English, are largely unknown to European and North American audiences. This book introduces English-speaking scholars to Professor Santos through critical engagement with his ideas and writings. The chapters presented here reveal the breadth and originality of his critical thought, as well as its ongoing importance to contemporary debates. The book features a biography of Santos and includes an annotated translation of one of his most cited texts, 'The Return of the Territory', offered here for the first time in English. This text demonstrates how Santos's provocative insights continue to transform core concepts of political and human geography. The book also includes a number of short chapters written by scholars from Brazil, Spain and France. Through reflections on Santos's work, the various authors demonstrate the value and possibilities of extending the geographer's theories. They explore key geographical themes across political economy, rural studies, territorial planning, environmental crisis, digital networks, indigenous peoples, transportation and public health. This collection invites geographers from around the world to engage with this rich intellectual tradition from Brazil.
