Opportunities Missed Opportunities Seized Preventive Diplomacy In The Post Cold War World:

Opportunities Missed, Opportunities Seized Bruce W. Jentleson, 1999-11-22 The basic logic of preventive diplomacy is unassailable Act early to prevent disputes from escalating reduce tensions that could lead to war deal with today's conflicts before they become tomorrow's crises Yet as we look at the record of these first years of the post Cold War era it is quite mixed There have been some preventive diplomacy successes and opportunities that have been seized by major powers and international organizations to help preserve and protect the peace But there also have been other opportunities that have been missed with some of the century's most deadly conflicts the result This study examines ten major post Cold War cases including Croatia Bosnia Rwanda the Baltics Russia Ukraine Macedonia and North Korea to assess the key factors contributing to both the success and failure of preventive diplomacy The method of case study analysis employed is based on the work of Alexander L George Authors include both leading academics and prominent policy officials with first hand knowledge

Early Warning and Conflict Management in the Horn of Africa Cirû Mwaûra, Susanne Schmeidl, 2002 The Horn of Africa has come to be defined by the frequency and intensity of its violent conflicts Yet whereas in other regions conflict prevention stresses formal top down inter governmental structures in the Horn of Africa an alternative conflict management regime that seeks to build on local capacity and is based on inclusive and collaborative decision making has emerged This publication outlines the two year process of CEWARN's and IGAD's development

No More Killing Fields David A. Hamburg, 2002 Drawing on work conducted by the Carnegie Commission on Preventing Deadly Conflict a study of the prevention of war and genocide examines such concepts as preventive diplomacy the role of civil society socioeconomic development and international cooperation

The Prevention and Intervention of Genocide Samuel Totten, 2017-09-08 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those

that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions

International Law on Peacekeeping Hitoshi Nasu,2009 It is generally considered that the UN Security Council has been galvanised since the end of the Cold War However the existence and development of armed conflicts remain the reality in the international scene Is the upsurge in instances of invoking Chapter VII of the UN Charter truly a sign of the invigoration of the Security Council's authority or mere evidence of its failure to prevent the aggravation of armed conflicts To what extent is the Security Council authorised to exercise the peacekeeping power in order to take a more flexible approach to conflict management from an earlier stage of conflict This book explores the potential of the UN peacekeeping power placing Article 40 of the UN Charter at the centre of the legal regime governing peacekeeping measures It traces the origins of peacekeeping measures primarily in the experience of the League of Nations and identifies Article 40 of the Charter as the primary legal basis for and the legal restraints upon the exercise of the peacekeeping power It examines the regulatory framework within which the United Nations particularly the Security Council is authorised and may even be required to direct peacekeeping measures to prevent the aggravation of armed conflicts It suggests that the legal accountability of the Security Council in directing peacekeeping measures will be enhanced by utilising procedural mechanisms for self regulation

The Perils and Promise of Global Transparency Kristin M. Lord,2012-02-01 While the trend toward greater transparency will bring many benefits Kristin M Lord argues that predictions that it will lead inevitably to peace understanding and democracy are wrong The conventional view is of authoritarian governments losing control over information thanks to technology the media and international organizations but there is a darker side one in which some of the same forces spread hatred conflict and lies In this book Lord discusses the complex implications of growing transparency paying particular attention to the circumstances under which transparency's effects are negative Case studies of the 1994 genocide in Rwanda and the government of Singapore's successful control of information are included

Peace Research and Peacebuilding Chadwick F Alger,2013-08-13 This is the third volume to commemorate the 90th birthday of the distinguished scholar Chadwick F Alger to honor his lifetime achievement in international relations as President of the International Studies Association 1978 1979 and as Secretary General of the International Peace Research Association 1984 1987 After a brief introduction by Chad F Alger this volume presents six of his key texts on Peace Research and Peacebuilding covering The quest for peace What are we learning The Emerging Toolchest for Peacebuilders Peace Studies

as a Transdisciplinary Project Challenges for Peace Researchers and Peace Builders in the Twenty First Century Education and Coordination of a Diversity of Actors in Applying What We Are Learning The escalating peace potential of global governance There Are Peacebuilding Tasks for Everybody and What Should Be the Foundations of Peace Education

United Nations Peacekeeping in the Post-Cold War Era John Terence O'Neill, Nicholas Rees, 2005 In seeking to examine whether peacekeeping fundamentally changed between the Cold War and post Cold War periods the author concludes that most peacekeeping operations were flawed due to the failure of UN members to agree upon various matters such as achievable objectives provision of necessary resources and unrealistic expectations **Conflict Prevention from**

Rhetoric to Reality Albrecht Schnabel, David Carment, 2004-01-01 Together with local actors many governments regional organizations and the UN are embracing preventive action as a viable path towards sustainable peace The contributions to this volume trace conflict prevention efforts in various regional contexts and explain how preventive thinking is being successfully mainstreamed into the activities of regional organizations and the UN **Case Studies and Theory**

Development in the Social Sciences Alexander L. George, Andrew Bennett, 2005-04-15 The use of case studies to build and test theories in political science and the other social sciences has increased in recent years Many scholars have argued that the social sciences rely too heavily on quantitative research and formal models and have attempted to develop and refine rigorous methods for using case studies This text presents a comprehensive analysis of research methods using case studies and examines the place of case studies in social science methodology It argues that case studies statistical methods and formal models are complementary rather than competitive The book explains how to design case study research that will produce results useful to policymakers and emphasizes the importance of developing policy relevant theories It offers three major contributions to case study methodology an emphasis on the importance of within case analysis a detailed discussion of process tracing and development of the concept of typological theories Case Studies and Theory Development in the Social Sciences will be particularly useful to graduate students and scholars in social science methodology and the philosophy of science as well as to those designing new research projects and will contribute greatly to the broader debate about scientific methods Failure to Prevent Gross Human Rights Violations in Darfur Fred Grünfeld, Wessel N. Vermeulen, 2014-05-09 The

book looks at the role of states and international organisations in their attempts to prevent the genocide in Darfur 2003 2005 from early warning to limited action in the field of humanitarian assistance mediation sanctions and peace keeping The book uses several theories to explain how decision making led to the absence of international responses *Confronting Ethnic Conflict* Jennifer L. De Maio, 2009-01-01 Confronting Ethnic Conflict critically assesses the role of external intervention in managing selected ethnic conflicts in Africa Given the pervasive threat of ethnic conflict and the growing incidence of internal wars spilling across borders understanding the impact of third party intervention on conflict prevention durable peaceful governance and amicable social relations becomes a critical exercise for any scholar of conflict management The

purpose of this project is to determine whether intervention strategies undertaken by international regional and subregional actors can be devised or improved so as to maximize the likelihood of successful conflict management in the case of internal conflicts particularly ethnic conflicts As the literature and empirical evidence suggest third party intervention does not always prevent or end violence De Maio contends that external involvement is more likely to lead to effective conflict management if it works to alter the perceptions of the antagonists and ensures that the parties truly own the peace This book focuses on four cases in detail the Somali crisis from 1988 to 1992 the Burundi conflict from 1995 to 2003 the protracted conflict in Sudan from 1983 to 2005 and the 1994 KwaZulu Natal civil conflict in South Africa The cases were selected because their varying outcomes and different types of third party involvement suggest that insights can be gained into the conditions that determine successful third party intervention *Preventing Deadly Conflict* David A. Hamburg, 1998-06

The Hour of Europe Josip Glaurdic, Josip Glaurdić, 2011-01-01 By looking through the prism of the West's involvement in the breakup of Yugoslavia this book presents a new examination of the end of the Cold War in Europe Incorporating declassified documents from the CIA the administration of George H W Bush and the British Foreign Office evidence generated by The Hague Tribunal and more than forty personal interviews with former diplomats and policy makers Glaurdić exposes how the realist policies of the Western powers failed to prop up Yugoslavia's continuing existence as intended and instead encouraged the Yugoslav Army and the Serbian regime of Slobodan Milosević to pursue violent means The book also sheds light on the dramatic clash of opinions within the Western alliance regarding how to respond to the crisis Glaurdić traces the origins of this clash in the Western powers' different preferences regarding the roles of Germany Eastern Europe and foreign and security policy in the future of European integration With subtlety and acute insight *The Hour of Europe* provides a fresh understanding of events that continue to influence the shape of the post Cold War Balkans and the whole of Europe Handbook of Peace and Conflict Studies Charles Webel, Johan Galtung, 2007-03-12 This major new Handbook

provides a cutting edge and transdisciplinary overview of the main issues debates state of the art methods and key concepts in peace and conflict studies today The Handbook of Peace and Conflict Studies will be essential reading for students of peace studies conflict studies and conflict resolution It will also be of interest and use to practitioners in conflict resolution and NGOs as well as policy makers and diplomats **Introduction to Political Psychology** Martha L. Cottam, 2004 This

book is intended as an introduction to political psychology or political behavior This book will appeal to both psychology and political science majors with authors from each discipline The Illusion of Control Seyom Brown, 2004-05-26 This provocative book assesses the implications of a disturbing trend in U S security policy an increased willingness to use military force as an instrument of diplomacy In *The Illusion of Control* Seyom Brown shows how U S officials are relying on force to counter a wide range of threats to America's global interests eclipsing previous strategies that restricted the use of military force to situations in which the country's vital interests were at stake Brown points out that a disposition to employ

military power broadly as an instrument of diplomacy was on the rise well before September 11 2001 and it shows every sign of persisting into the future While resorting to force may seem to be a reliable way to establish control over a disorderly world Brown cautions that expecting to gain and maintain control through military prowess could turn out to be a dangerous illusion In fact employing new military technologies in an effort to control international terrorist activities wars and civil conflicts is likely to pull the United States into excessive commitments and imprudent action Brown analyzes the growing willingness of U S government officials to use force then critically assesses the strategic political and moral implications for the United States Adapting traditional just war concepts to contemporary strategic political and technological realities he offers a set of guidelines to help ensure that use of force decisions are approached with the judicious care and gravity they warrant

Taming Intractable Conflicts Chester A. Crocker, Fen Osler Hampson, Pamela R. Aall, 2004 Some conflicts seem to defy resolution Marked by longevity recurrent violence and militant agendas these intractable conflicts refuse to be settled either on the battlefield or at the negotiating table The longer they fester the stronger the international community's inclination to lose heart and to turn away But explain the authors of this provocative volume effective mediation in intractable conflicts is possible if the mediator knows what to do and when to do it Written from the mediator's point of view Taming Intractable Conflicts lays out the steps involved in tackling the most stubborn of conflicts It first puts mediation in a larger context exploring why mediators choose or decline to become involved what happens when they get involved for the wrong reasons and the impact of the mediator's institutional and political environment It then discusses best mediation tradecraft at different stages at the beginning of the engagement when the going gets very rough during the settlement negotiations and in the post settlement implementation stage Forceful concise and highly readable Taming Intractable Conflicts serves not only as a hands on guide for would be mediators but also as a powerful argument for students of conflict management that intractable conflicts are not beyond the reach of mediation

From War to Peace in the Balkans, the Middle East and Ukraine Daniel Serwer, 2018-11-28 This open access book focuses on the origins consequences and aftermath of the 1995 and 1999 Western military interventions that led to the end of the most recent Balkan wars Though challenging problems remain in Bosnia Macedonia Kosovo and Serbia the conflict prevention and state building efforts thereafter were partly successful as countries of the region are on separate tracks towards European Union membership This study highlights lessons that can be applied to the Middle East and Ukraine where similar conflicts are likewise challenging sovereignty and territorial integrity It is an accessible treatment of what makes war and how to make peace ideal for all readers interested in how violent international conflicts can be managed informed by the experience of a practitioner

When States Fail Robert I. Rotberg, 2010-07-28 Since 1990 more than 10 million people have been killed in the civil wars of failed states and hundreds of millions more have been deprived of fundamental rights The threat of terrorism has only heightened the problem posed by failed states When States Fail is the first book to examine how and why states decay

and what if anything can be done to prevent them from collapsing It defines and categorizes strong weak failing and collapsed nation states according to political social and economic criteria And it offers a comprehensive recipe for their reconstruction The book comprises fourteen essays by leading scholars and practitioners who help structure this disparate field of research provide useful empirical descriptions and offer policy recommendations Robert Rotberg s substantial opening chapter sets out a theory and taxonomy of state failure It is followed by two sets of chapters the first on the nature and correlates of failure the second on methods of preventing state failure and reconstructing those states that do fail Economic jump starting legal refurbishing elections the demobilizing of ex combatants and civil society are among the many topics discussed All of the essays are previously unpublished In addition to Rotberg the contributors include David Carment Christopher Clapham Nat J Colletta Jeffrey Herbst Nelson Kasfir Michael T Klare Markus Kostner Terrence Lyons Jens Meierhenrich Daniel N Posner Susan Rose Ackerman Donald R Snodgrass Nicolas van de Walle Jennifer A Widner and Ingo Wiederhofer
