Roland Beutler,2016-09-16 This book discusses opportunities for broadcasters that arise with the advent of broadband  
networks both fixed and mobile It discusses how the traditional way of distributing audio visual content over broadcasting  
networks has been complemented by the usage of broadband networks The author shows how this also gives the possibility  
to offer new types of interactive or so called nonlinear services The book illustrates how change in distribution technology is  
accelerating the need for broadcasters around the world to adapt their content distribution strategy and how it will impact  
the portfolios of content they offer
